Moving Lives Kathy Burrell, 2017-03-02 Immigrants in Britain are often viewed as just that immigrants Their experiences as migrants are sidelined in favour of discussions about assimilation and integration how they adapt to us This book refocuses debates about migration by following the experiences memories and perceptions of three migrant groups in Britain the Polish Italian and Greek Cypriot populations In tracing some of the key themes of migration narratives Kathy Burrell illustrates that the act of migration creates enduring legacies which continue to influence the everyday lives of migrants long after they have moved The book is structured around four key themes The first is the migration process itself Burrell highlights the important

contrast between voluntary and involuntary migration examining the different memories and legacies of migration The second theme is the national as opposed to ethnic identities of the groups studied The author demonstrates how national consciousness survives the upheaval of migration and is perpetuated through the recognition of national histories myths and traditional rituals The third theme is a memory of the homeland The author traces her respondents memories and experiences of their national territory focusing particularly on the transnational connections that are established with the homeland after migration Finally Burrell considers community analyzing her respondents experiences of community life and the shared social and cultural norms and values that underpin it

Lawall,John Lund,2013-12-31 Placed as a stepping stone on the sea route between Europe and the New East Cyprus has always been a meeting place of many cultures Though rarely united politically through many

millennia of history and for extended periods subject to foreign rule the island nonetheless managed to maintain specific and unique identities This publication seeks to throw new light on important aspects of the economy of Cyprus between c 700 BC and AD 700 through a concerted study of the transport amphorae found in and around the island These standardised containers of fired clay were commonly used for shipping foodstuffs from their places of production to the consumers in antiquity Completely preserved or found only in fragments such vessels are a prime source of information about the island s exports and imports of agricultural products and ultimately about the fluctuations in the economy of Cyprus through a crucial millennium and a half of her history The jars thus contribute both to our understanding of the changing intensities of Cypriot connections with other centres around the Mediterranean and to the documentation of regional patterning within the island itself

The Power of the Bull Michael Rice, 2014-02-25 Everyone has heard of the Minotaur in the labyrinth on Crete and many know that the Greek gods would adopt the guise of a bull to seduce mortal women But what lies behind these legends The Power of the Bull discusses mankind s enduring obsession with bulls The bull is an almost universal symbol throughout Indo European cultures Bull cults proliferated in the Middle East and in many parts of North Africa and one cult Mithraism was the greatest rival to Christianity in the Roman Empire The Cults are divergent yet have certain core elements in common Michael Rice argues that the ancient bulls were the supreme sacrificial animal An examination of evidence from earliest prehistory onwards reveals the bull to be a symbol of political authority sexual potency economic wealth and vast subterranean powers In some areas representations of the bull have varied little from earliest times in others it has changed vastly over centuries This volume provides a well illustrated and accessible analysis of the exceptionally rich artistic inheritance associated with the bull *Hansard's Parliamentary Debates* Great Britain.
