Dada Paradox Mystification Ambiguity:

Modernism and the Occult John Bramble, 2015-03-04 This study of modernism's high imperial occult exotic affiliations presents many well known figures from the period 1880-1960 in a new light. Modernism and the Occult traces the history of modernist engagement with irregular heterodox and imported knowledge.

Dada Manuel L. Grossman, 1971 *The Dada Painters and Poets* Robert Motherwell, 1989 Presents a collection of essays, manifestos and illustrations that provide an overview of the Dada movement in art describing its convictions, antics and spirit through the words and art of its principal practitioners.

Challenging Modernity Mark A. Pegrum, 2000 This book for the first time examines in depth the link between modernism and postmodernism and demonstrates the extensive similarities as well as the few crucial differences between the ideas and art of the Dadaists on the one hand and those of contemporary postmodern thinkers and artists on the other.

Dada Manuel L. Grossman, 1971

The European Avant-Garde Selena Daly, Monica Insinga, 2013-02-21 The European Avant Garde Text and Image is an interdisciplinary collection of thirteen essays relating to the study of European Avant Garde movements between 1900 and 1940. The essays cover both literary and artistic subjects across geographical, linguistic and disciplinary boundaries. Various aspects of the English, Irish, German, French, Italian, Spanish and Polish avant gardes are explored, examining both diverse literary genres such as prose, poetry and drama and specific avant garde movements such as Futurism and Surrealism. The volume includes a lengthy introductory essay by Prof John J White, Emeritus Professor of German and Comparative Literature at King's College London. Avant garde studies can be enhanced and developed through dialogue with other disciplines such as translation, gender, exile and comparative studies. Thus the volume is divided into four sections: Representations of the Body, Translating the Avant Garde, Identity and Exile, and Comparative Perspectives and the Legacy of the Avant Garde.

In the Shadow of the Holocaust & Other Essays Constantin V. Ponomareff, 2023-12-14 The main thrust of this collection of essays, excluding those on Russian literature, is to visualize the European Holocaust from a number of different vantage points: the historical and cultural, the political and individual, the psychological and social, and the critical and literary. This wider perspective, especially as it relates to the range and extent of human suffering, suggests that a redefinition of the twentieth century Holocaust is now timely.

Theater of the Avant-Garde, 1890-1950 Robert Knopf, 2015-01-01 An essential volume for theater artists and students alike, this anthology includes the full texts of sixteen important examples of avant garde drama from the most daring and influential artistic movements of the first half of the twentieth century, including Symbolism, Futurism, Expressionism, Dada, and Surrealism. Each play is accompanied by a bio-critical introduction by the editor and a critical essay, frequently written by the playwright, which elaborates on the play's dramatic and aesthetic concerns. A new introduction by Robert Knopf and Julia Listengarten contextualizes the plays in light of recent critical developments in avant garde studies. By examining the groundbreaking theatrical experiments of Jarry, Maeterlinck, Strindberg, Artaud, and others, the book foregrounds the avant garde's enduring

influence on the development of modern theater *Contemporary Queer Modernism* Melanie Micir, 2025-04-16

Contemporary Queer Modernism offers a fresh interdisciplinary approach to the study of the intersections of queer studies and modernist studies. The theoretical expansiveness and mutual overlapping of these still growing fields is both introduced and complicated in the pages of this volume. Presenting a wide range of critical perspectives, the collection brings together original scholarship from both emerging and established scholars that when read together demonstrates the continued vitality of queer modernist studies. The book is divided into five parts: Temporality, Form, Embodiment, Networks, Affect, and Atmosphere. *Contemporary Queer Modernism* is a foundational collection that will be invaluable to scholars and students studying modernism and queer theory across a range of disciplines including gender and sexuality studies, literary studies, cultural studies, and performance. *Memoirs of a Dada Drummer* Richard Huelsenbeck, 1991-06-06

Huelsenbeck's memoirs bring to life the concerns, intellectual, artistic, and political of the individuals involved in the Dada movement and document the controversies within the movement and in response to it. **Durkheim's Ghosts** Charles Lemert, 2006-02-09 Durkheim's *Ghosts* is a fascinating presentation of the tradition of social theory influenced by Emile Durkheim's thinking on the social foundations of knowledge. From Saussure and Levi Strauss to Foucault, Bourdieu, and Derrida, today's criticisms of modern politics and culture owe an important, if unacknowledged, debt to Durkheim. These engaging and innovative essays by leading sociologist Charles Lemert bring together his writings on the contributions of French social theory past and present. Rather than merely interpret the theories, Lemert uses them to explore the futures of sociology, social theory, and culture studies. Durkheim's *Ghosts* offers the reader original insights into Durkheim's legacy and the wider French traditions for the cultural and social sciences. Of special note is the book's new and exciting theory of culture and semiotics. Provocative, scholarly, imaginative, and ambitious, this book will be invaluable to anyone interested in social theory, culture, and intellectual history of modern times. *Mathematics in Twentieth-Century Literature & Art* Robert Tubbs, 2021-04-27

The author of *What Is a Number* examines the relationship between mathematics and art and literature of the 20th century. During the twentieth century, many artists and writers turned to abstract mathematical ideas to help them realize their aesthetic ambitions. Man Ray, Marcel Duchamp, and perhaps most famously Piet Mondrian used principles of mathematics in their work. Was it coincidence, or were these artists following their instincts, which were ruled by mathematical underpinnings such as optimal solutions for filling a space? If math exists within visual art, can it be found within literary pursuits? In short, just what is the relationship between mathematics and the creative arts? In this exploration of mathematical ideas in art and literature, Robert Tubbs argues that the links are much stronger than previously imagined and exceed both coincidence and commonality of purpose. Not only does he argue that mathematical ideas guided the aesthetic visions of many twentieth-century artists and writers, Tubbs further asserts that artists and writers used math in their creative processes even though they seemed to have no affinity for mathematical thinking. In the end, Tubbs makes the case that art can be better appreciated when the math that

inspired it is better understood An insightful tour of the great masters of the last century and an argument that challenges long held paradigms this book will appeal to mathematicians humanists and artists as well as instructors teaching the connections among math literature and art Though the content of Tubbs s book is challenging it is also accessible and should interest many on both sides of the perceived divide between mathematics and the arts Choice

Baroness Elsa Irene Gammel,2003-08-29 The first biography of the enigmatic dadaist known as the Baroness Elsa von Freytag Loringhoven Elsa von Freytag Loringhoven 1874 1927 is considered by many to be the first American dadaist as well as the mother of dada An innovator in poetic form and an early creator of junk sculpture the Baroness was best known for her sexually charged often controversial performances Some thought her merely crazed others thought her a genius The editor Margaret Anderson called her perhaps the only figure of our generation who deserves the epithet extraordinary Yet despite her great notoriety and influence until recently her story and work have been little known outside the circle of modernist scholars In *Baroness Elsa Irene Gammel* traces the extraordinary life and work of this daring woman viewing her in the context of female dada and the historical battles fought by women in the early twentieth century Striding through the streets of Berlin Munich New York and Paris wearing such adornments as a tomato soup can bra teaspoon earrings and black lipstick the Baroness erased the boundaries between life and art between the everyday and the outrageous between the creative and the dangerous Her art objects were precursors to dada objects of the teens and twenties her sound and visual poetry were far more daring than those of the male modernists of her time and her performances prefigured feminist body art and performance art by nearly half a century

Race of Time Daniel Chaffee,Samuel Han,2015-11-17 Charles Lemert is one of the most renowned critics of social theory and theorists today The editors of this book have offered and contextualised many of his best essays and situated them against the backdrop of American sociology The breadth of Lemert s work doesn t stop at an academic engagement with theoretical debates such as globalisation or postmodernism but cuts right to the heart of abiding social issues His work is focused and continues to probe pressing questions such as the rise of vulnerabilities in an era of new capitalism By weaving together personal narrative research lucid explanations and a dynamic engagement with social theory of old and new his unique prose renders accessible complex theoretical debates

Sequel to History Elizabeth Deeds Ermarth,2020-10-06 *Sequel to History* offers a comprehensive definition of postmodernism as a reformation of time Elizabeth Deeds Ermarth uses a diversified theoretical approach drawing on post structuralism feminism new historicism and twentieth century scienceto demonstrate the crisis of our dominant idea of history and its dissolution in the rhythmic time of postmodernism She enlarges this definition in discussions of several crises of cultural identity the crisis of the object the crisis of the subject and the crisis of the sign Finally she explores the relation between language and time in post modernism proposing an arresting theory of her own about the rhythmic nature of postmodern temporality Because the postmodern construction of time appears so clearly in narrative writing each part of this work is punctuated by a rhythm section on a

postmodern narrative Robbe Grillet's Jealousy Cortezar's Hopscotch and Nabokov's Invitation to a Beheading these extended readings provide concrete illustrations of Ermarth's theoretical positions As in her critically acclaimed Realism and Consensus in the English Novel Ermarth ranges across disciplines from anthropology and the visual arts to philosophy and history For its interdisciplinary character and its lucid definition of postmodernism Sequel to History will appeal to all those interested in the humanities
