Daguerreotypes and Other Essays Isak Dinesen,1979 Isak Dinesen had an original approach to life that permeated all her work She loved storytelling with the result that most of her essays are quasi narratives which proceed not from major to minor premise but from one anecdote to another as the way of making concrete whatever idea she is considering Her work is a delight and at times a marvel The New Yorker Through these daguerreotypes we begin to understand other periods the renunciations of World War I the purpose of houses and mansions of ritual ceremonials such as tatooing We are given a fresh and vivid view of the women's movement which urges that what our small society needs beyond human beings who have demonstrated what they can do is people who are Indeed our own time she wrote in 1953 can be said to need a revision from doing to being She demonstrated it in her own work and craft with courage and with dignity This collection is as real as a gallery of old daguerreotypes moving and unfaded The work as Hannah Arendt says of a wise woman Robert Kirsch Los Angeles Times These essays have the flavor of good conversation humorous easy personal but not oppressive the distillation of reading thought and experience Their subjects are of surprisingly current interest We need make no concessions to the past need not set our watches back to historical Isak Dinesen was not a faddish thinker In history it is always the human element that has a chance for eternal life Dinesen remarks and she gives these essays their chance Penelope Mesic Chicago

Daguerreotypes and other essays, 1985 Isak Dinesen had an original approach to life that permeated all her work She loved storytelling with the result that most of her essays are quasi narratives which proceed not from major to minor premise but from one anecdote to another as the way of making concrete whatever idea she is considering Her work is a delight and at times a marvel The New Yorker **Daguerreotypes, and Other Essays** Karen Blixen,1979 Isak Dinesen and Narrativity Centre TADAC, 1994 Responding to recent Dinesen scholarship and public exposure in such films as Out of Africa and Babette's Feast these fourteen original essays discuss and reveal the aesthetic subtlety and philosophical complexity of **Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international Dinesen s art scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies The Creative Dialectic in Karen Blixen's Essays Marianne T. Stecher, 2014-03-06 This new study addresses the provocative essays of Karen Blixen Isak Dinesen an iconic figure in Scandinavia and the Anglo American world Celebrated for her literary tales Karen Blixen s essays offer sagacious reflections on three significant challenges of the twentieth century feminism Nazism and colonialism Karen Blixen 1885 1962 contributed to topical debates in Denmark particularly during the 1950s when her distinct voice on Danish

radio became familiar to a nation of listeners Some of her lectures radio addresses and newspaper chronicles were later published as essays and now constitute a distinct genre within her work In this study Blixen s most important essays are critically examined for the first time The book demonstrates that a creative dialectic informs these essays an interplay of complementary opposites that Blixen sees as fundamental to human life and artistic creativity Whether exploring questions of gender and the status of the feminist movement or the reign of National Socialism in Hitler's Germany or colonial race relations under British rule in East Africa Blixen's observations are insightful witty and surprisingly progressive for an author notable for aristocratic sensibilities Blixen's essays are also framed by a dialectic method which develops an idea by drawing on opposing viewpoints in order to arrive at an original vantage point The Creative Dialectic of Karen Blixen's Essays builds on archival research historical study literary criticism and theory as well as bilingual readings of Blixen's renowned literary work For the first time in an English translation Karen Blixen s essay Blacks and Whites in Africa 1938 by award winning translator Tiina Nunnally appears in this publication **Grand Finales** Susan Gubar, 2025-06-10 One of our most formidable literary critics explores how nine women artists flourished creatively in their final acts In 2008 academic and scholar Susan Gubar was told by a trusted oncologist that she had only a few years left to live Though she outlived that dire prognosis this brush with mortality refocused her attention on the boons of a longevity she did not expect to experience She began to think In the last years of our lives can we shape and change our creative capabilities. The resulting volume Grand Finales answers this question with a resounding yes Despite the losses generally associated with aging quite a few writers painters sculptors musicians and dancers have managed to extend and repurpose their creative energies Gubar spotlights very creative old ladies writers painters sculptors musicians and dancers from the past and in our times Each of Grand Finales nine riveting chapters features women artists George Eliot Colette Georgia O Keeffe Isak Dinesen Marianne Moore Louise Bourgeois Mary Lou Williams Gwendolyn Brooks and Katherine Dunham who transformed the last stage of existence into a rousing conclusion Gubar draws on their late lives and works to suggest that seniority can become a time of reinvention and renewal With pizzazz bravado and geezer machismo she counters the discrediting of elderly women and clarifies the environments relationships activities and attitudes that sponsor a creative old age A History of Danish Literature Sven Hakon Rossel.1992-01-01 Volume 1 Encyclopedia of Literary Translation Into English: A-L O. Classe, 2000 Female Performers in British and American Fiction Barbara Straumann, 2018-05-22 The female performer with a public voice constitutes a remarkably vibrant theme in British and American narratives of the long nineteenth century The tension between fictional female performers and other textual voices can be seen to refigure the cultural debate over the voice of women in aesthetically complex ways By focusing on singers actresses preachers and speakers this book traces and explores an important tradition of feminine articulation Drawing on critical approaches in literary studies gender studies and philosophy the book conceptualizes voice for the discussion of narrative texts Examining voice both as a thematic concern

and as an aesthetic effect the individual chapters analyse how the actual articulation by female performers correlates with their cultural visibility and agency What this study foregrounds is how women characters succeed in making themselves heard even if their voices are silenced in the end **Understanding Isak Dinesen** Susan Brantly, 2002 Shadows on the Grass Winter's Tales Last Tales Anecdotes of Destiny and Ehrengard Brantly explores the clues details and subplots in texts that critics often describe as puzzles and labyrinths Brantly reveals the thought and care that Dinesen devoted to the construction of her stories her expansive knowledge of world literature and the great pleasure awaiting readers as they unravel the mysteries embedded in her texts BOOK JACKET Encyclopedia of the Literature of Empire Mary Ellen Snodgrass, 2010 Examines the world's greatest literature about empires and imperialism including more than 200 entries on writers classic works themes and concepts *Isak Dinesen and the Engendering of Narrative Susan Hardy* Aiken, 1990-04-05 Although Isak Dinesen has been widely acclaimed as a popular writer her work has received little sustained critical attention In this revisionist study Susan Hardy Aiken takes up the complex relations of gender sexuality and representation in Dinesen's narratives Drawing on feminist psychoanalytic and post structuralist theories Aiken shows how the form and meaning of Dinesen's texts are affected by her doubled situations as a Dane who wrote in English a European who lived for many years in Africa and a woman who wrote under a male pseudonym within a male centered literary tradition In a series of readings that range across Dinesen's career Aiken demonstrates that Dinesen persistently asserted the inseparability of gender and the engendering of narrative She argues that Dinesen's texts anticipate in remarkable ways some of the most radical insights of contemporary literary theories particularly those of French feminist criticism Aiken also offers a major rereading of Out of Africa that both addresses its distinctiveness as a colonialist text and places it within Dinesen's larger oeuvre In Aiken's account Dinesen's work emerges as a compelling inquiry into sexual difference and the ways it informs culture subjectivity and the language that is their medium This important book will at last give Isak Dinesen s work the prominence it deserves in literary studies Landscape and Images John R. Stilgoe, 2015-02-12 John Stilgoe is just looking around This is more difficult than it sounds particularly in our mediated age when advances in both theory and technology too often seek to replace the visual evidence before our own eyes rather than complement it We are surrounded by landscapes charged with our past and yet from our earliest schooldays we are instructed not to stare out the window Someone who stops to look isn t only a rarity he or she is suspect Landscape and Images records a lifetime spent observing America's constructed landscapes Stilgoe's essays follow the eclectic trains of thought that have resulted from his observation from the postcard preference for sunsets over sunrises to the concept of teen geography to the unwillingness of Americans to walk up and down stairs In Stilgoe's hands the subject of jack o lanterns becomes an occasion to explore centuries old concepts of boundaries and trespassing and to examine why this originally pagan symbol has persisted into our own age Even something as mundane as putting the cat out before going to bed is traced back to fears of unwatched animals

and an untended frontier fireplace Stilgoe ponders the forgotten connections between politics and painted landscapes and asks why a country whose vast majority lives less than a hundred miles from a coast nonetheless looks to the rural Midwest for the classic image of itself At times breathtaking in their erudition the essays collected here are as meticulously researched as they are elegantly written Stilgoe's observations speak to specialists whether they be artists historians or environmental designers as well as to the common reader Our landscapes constitute a fascinating history of accident and intent The proof says Stilgoe is all around us The Feminine Ideal Marianne Thesander, 1997 Why at a time when women s liberation was gaining force and momentum did the corset become more cinched and restricting than at any time during the entire preceding century Why was bra burning a political statement for the feminists of the 1970s How far is the harnessed and restricted female form an outward symbol of Victorian and middle class ideas of discipline and self control In what ways are women forced to conform to a feminine ideal In The Feminine Ideal Marianne Thesander examines the significance of the female body beauty and culture She shows how the female body is constantly being changed and by various sometimes punishing means made to fit in with current feminine physical ideals. The use of corsets bras make up cosmetics and body decoration either emphasizes or plays down specific aspects of the female form Marianne Thesander considers sin and virtue the forbidden the concealed the alluring body woman as object fetish and erotic sign With extensive use of illustrative material she examines the fashion history of underwear from the eighteenth century to the present day exploring the significance of changing models of the feminine Travels in the Reich, 1933-1945 Oliver Lubrich, 2010-05-31 Through the eves of foreign authors this collection offers a new perspective on the horrifying details of German life under Nazism in accounts as gripping and well written as a novel but bearing all the weight of historical witness **Daguerreotypes** Lisa Saltzman, 2015-07-06 In the digital age photography confronts its future under the competing signs of ubiquity and obsolescence While technology has allowed amateurs and experts alike to create high quality photographs in the blink of an eye new electronic formats have severed the original photochemical link between image and subject At the same time recent cinematic photography has stretched the concept of photography and raised questions about its truth value as a documentary medium Despite this situation photography remains a stubbornly substantive form of evidence referenced by artists filmmakers and writers as a powerful emblem of truth photography has found its home in other media at precisely the moment of its own material demise By examining this idea of photography as articulated in literature film and the graphic novel Daguerreotypes demonstrates how photography secures identity for figures with an otherwise unstable sense of self Lisa Saltzman argues that in many modern works the photograph asserts itself as a guarantor of identity whether genuine or fabricated From Roland Barthes s Camera Lucida to Ridley Scott s Blade Runner W G Sebald s Austerlitz to Alison Bechdel s Fun Home we find traces of photography s fugitive subjects throughout contemporary culture Ultimately Daguerreotypes reveals how the photograph at once personal memento and material witness has inspired a range of modern artistic and
