**Teaching Math Through Storytelling** Gigi Carunungan, Making math accessible to young learners is especially challenging. This hands-on book provides a method for teaching math with fun stories that allow students to experience math concepts in real-world contexts. Teachers can choose from a selection of suggested stories or they can create their own to reflect the interests and identities of their students. This lively resource includes math learning activities and creative simulations that make math concepts come alive. Guidance for incorporating intercultural scenarios and stories to foster inclusivity, teaching strategies and lesson designs grounded in research, a focus on transforming traditional math teaching into an approach that enhances critical thinking and problem-solving skills, and detailed lesson plans for integrating innovative approaches into existing curricula. Teachers K-5 can use this book to move away from memorizing and rote activities into dynamic learning experiences that make math learning fun.

**Book Features:**  
 Uses engaging interactive storytelling to help young learners develop a deeper understanding of mathematical principles.  
 Incorporates intercultural scenarios and stories so students see themselves in the lessons, fostering a more inclusive and relatable learning environment.  
 Provides teaching strategies and lesson designs drawn from academic sources and field studies to provide educators with reliable and effective methods.  
 Provides detailed lesson plans that demonstrate innovative and effective ways for children to overcome math anxiety and integrate math into everyday thinking.

**The Well-Trained Mind** Susan Wise Bauer, Jessie Wise, 2009-05-04. Outstanding should be on every home educator's reference bookshelf. Homeschooling Today. This educational bestseller has dominated its field for the last decade, sparking a homeschooling movement that has only continued to grow. It will instruct you step by step on how to give your child an academically rigorous, comprehensive education from preschool through high school. Two veteran home educators outline the classical pattern of education, the trivium, which organizes learning around the maturing capacity of the child's mind. With this model, you will be able to instruct your child in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Newly revised and updated, *The Well-Trained Mind* includes detailed book lists with complete ordering information, up-to-date listings of resources, publications, and Internet links, and useful contact information.
