Henry Meeter, 1967     Dutch Calvinism in Modern America James D. Bratt, 1984 A rare combination of scholarship and wit Delightful for anyone seeking insight on the Dutch in modern America George Marsden In this scholarly yet entertaining book James D Bratt takes a look at the Dutch in America from the late 19th century to the present A comprehensive study of an ethnic subculture the book is in large part a study of the groups religious history as well since as Bratt points out the contours of the Dutch presence in America have been overwhelmingly shaped by the church and its subsidiary organizations Although the book is extensively and scrupulously documented Bratt has infused his scholarship with a considerable amount of anecdote that is by turns poignant and tragic and hilarious In Bratts analysis of the fitful progress of Americanization that this close knit religious community has undergone we are treated to the sharp insights of a bemused and sometimes disaffected insider Included is a chapter on novelists Arnold Mulder David Cornel DeJong Frederick Manfred and Peter DeVries four sons of the Dutch who fled the subculture only to reflect upon it almost obsessively from the outside Well written scholarly and highly readable Dutch Calvinism in Modern America will have wide appeal among both academic and general readers James D Bratt is Professor of history at Calvin College in Grand Rapids Michigan     *Christian Theology* Alister E. David Buschart, 2009-09-20 Protestant is shorthand for a spreading family tree of church and theological traditions Each tradition embodies a historically shaped perspective on the beliefs practices and priorities that make up a Christian community Whether you are an insider to one tradition a hybrid of two or three or as many Christians today an outsider to all Exploring Protestant Traditions is a richly informative field guide to eight prominent Protestant theological traditions Lutheran Anabaptist Reformed Anglican Baptist Wesleyan

Dispensational and Pentecostal Clearly and evenhandedly W David Buschart traces the histories of each tradition explains their interpretive approaches to Scripture and identifies their salient beliefs As a result you will gain a sense of what it is to believe and worship as a Reformed or Pentecostal Christian who the traditions heroes are and where the theological accents are placed Charts displaying the denominational representatives of each tradition and bibliographies mapping the path for further explorations add to the value of this guide This is a book that seeks to receive rather than evaluate to listen and understand rather than judge or correct His is a model of theological hospitality that encourages you to open your doors to the varied ways in which Protestantism has taken root in history and human society Some things take time like coming to know a religious tradition But Exploring Protestant Traditions is an excellent place to start     Against Calvinism Roger E. Olson, 2011-10-25 Calvinist theology has been debated and promoted for centuries But is it a theology that should last Roger Olson suggests that Calvinism also commonly known as Reformed theology holds an unwarranted place in our list of accepted theologies In Against Calvinism readers will find scholarly arguments explaining why Calvinist theology is incorrect and how it affects God s reputation Olson draws on a variety of sources including Scripture reason tradition and experience to support his critique of Calvinism and the more historically rich biblically faithful alternative theologies he proposes Addressing what many evangelical Christians are concerned about today so called new Calvinism a movement embraced by a generation labeled as young restless Reformed Against Calvinism is the only book of its kind to offer objections from a non Calvinist perspective to the current wave of Calvinism among Christian youth As a companion to Michael Horton s For Calvinism readers will be able to compare contrasting perspectives and form their own opinions on the merits and weaknesses of Calvinism     **The Concept of Equity in Calvin's Ethics** Guenther H. Haas, 1997-02-10 Ever since Calvin wrote his Institutes of the Christian Religion admonishing the reader that it would not be difficult for him to determine what he ought especially to seek in Scriptures and to what end he ought to relate its contents scholars have endeavoured to identify a doctrine or theme at the heart of his theology In his landmark book The Concept of Equity in Calvin's Ethics Guenther Haas concludes that the concept of equity is the theme of central importance in Calvin's social ethic in a similar way that union with Christ lies at the heart of his theology Haas provides in Part One a brief survey of the development of the concept of equity from Aristotle to the scholastics and as it was used by Calvin's contemporaries Haas also examines the influences on Calvin's thinking before and after his conversion to Protestantism with special attention paid to those influences that employed the concept of equity In the heart of this study Part Two Equity in Calvin's Ethics Haas presents a thorough exposition and analysis of the extensive role the concept of equity plays in Calvin's ethics demonstrating that Calvin's approach to ethics is not restricted to meditation of Scripture text This book will force a re examination of approaches to Calvin studies that have not appreciated the historical context and background of Calvin's thought The Concept of Equity in Calvin's Ethics establishes that the Protestant tradition in Christian ethics founded by Calvin has a distinctive and vital

contribution to make to Christian ethics as well as to the broader discussion of social ethics as they are practised today

*Redemption: John Calvin Revisited* Henk van den Belt, 2013-01-08 Restoration through Redemption offers examples of three ways in which John Calvin's theology can be revisited by analysis, assessment and reception. This volume contains analyses of Calvin's position on the trinity and on politics as well as assessments of his theology for evolutionary biology and comparative ecclesiology. It also discusses the reception of his heritage for instance in North America and South Africa. The central theme in this volume is Calvin's approach to the renewal of creation that hinges on Christ the Redeemer. One of the golden threads is Calvin's emphasis upon the meditation on the future life, the turning of the believer towards the eschatological perspective. Contributors include J Todd Billings, Johan Buitendag, Jaeseung Cha, Ernst M Conradie, Roger Haight, I John Hesselink, Rinse Reeling Brouwer, Philippe Theron, Henk van den Belt, Gijsbert van den Brink, Cornelis van der Kooi, J H Amie van Wyk, J M Koos Vorster, Nico Vorster, Robert Vosloo and Paul Wells. **The Political Economy of Sentiment** Jose R Torre, 2015-09-30

It aims to answer the following questions: How does Christianity with its moral and spiritual resources engage in and contribute to public life in China? How does Christianity operate amidst a background of religious diversity, cultural and social dynamics and political realities in China? The distinctive contribution of this book is that it moves beyond simple description and evaluation of what is happening in Chinese Christianity toward a constructive theology for the distinctive realities of Chinese culture, society and politics. This book proposes Christian public responsibility in order to identify the moral problems in Chinese public life. It attempts to enhance a public face of Christianity in China theologically and ethically by activating Christian resources in response to public life and highlighting Christianity's moral impact on the state and civil society without the imposition of confessional bonds or the exercise of authoritarian control, quoted from Abraham Kuyper. This book relies on both methodological and constructive approaches to define the meaning of public theology while making theological efforts to engage in public issues constructively in the Chinese context. Besides the Western Christian public theologians such as Kuyper, Reinhold Niebuhr and Nicholas Wolterstorff, this book extensively refers to Chinese resources such as Christian thinkers, philosophers and social scientists etc to perceive public theology in China. This new formulation of Christian public theology in China desires to engage with Chinese experiences, struggles, traditions and ideology such as Confucianism and communism when investigating moral responses to public issues such as social justice, human rights and religious freedom. A Christian co-construction with philosophical and social scientific perspectives on public life will lead to the modification of moral vocabulary in Chinese public life. **The Routledge Handbook of Religion and Security** Chris Seiple, Dennis Hoover, Pauletta Otis, 2013 This Handbook offers analyses of how nine different world religions have related to issues of war
