Slapin, 1994 Basic skills caucasian Americans workbook Beverly Slapin, Annie Esposito, 1994 **The Teacher's Guide to Media Literacy** Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today what is it why is it important how can you teach it across a wide range of curriculum areas and grade levels and does it work Rather than focusing on how to teach media literacy Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas Unsettling Narratives Clare Bradford, 2007 Children's books seek to assist children to understand themselves and their world *Unsettling Narratives* Postcolonial Readings of Children's Literature demonstrates how settler society texts position child readers as citizens of postcolonial nations how they represent the colonial past to modern readers what they propose about race relations and how they conceptualize systems of power and government Clare Bradford focuses on texts produced since 1980 in Canada the United States Australia and New Zealand and includes picture books novels and films by Indigenous and non Indigenous publishers and producers From extensive readings the author focuses on key works to produce a thorough analysis rather than a survey *Unsettling Narratives* opens up an area of scholarship and discussion the use of postcolonial theories relatively new to the field of children's literature and demonstrates that many texts recycle the colonial discourses naturalized within mainstream cultures **Understanding**

Jim Crow David Pilgrim, 2015-11-25 For many people especially those who came of age after landmark civil rights legislation was passed it is difficult to understand what it was like to be an African American living under Jim Crow segregation in the United States Most young Americans have little or no knowledge about restrictive covenants literacy tests poll taxes lynchings and other oppressive features of the Jim Crow racial hierarchy Even those who have some familiarity with the

period may initially view racist segregation and injustices as mere relics of a distant shameful past. A proper understanding of race relations in this country must include a solid knowledge of Jim Crow: how it emerged, what it was like, how it ended, and its impact on the culture. Understanding Jim Crow introduces readers to the Jim Crow Museum of Racist Memorabilia, a collection of more than ten thousand contemptible collectibles that are used to engage visitors in intense and intelligent discussions about race, race relations, and racism. The items are offensive; they were meant to be offensive. The items in the Jim Crow Museum served to dehumanize blacks and legitimized patterns of prejudice, discrimination, and segregation. Using racist objects as teaching tools seems counterintuitive and quite frankly needlessly risky. Many Americans are already apprehensive discussing race relations, especially in settings where their ideas are challenged. The museum and this book exist to help overcome our collective trepidation and reluctance to talk about race. Fully illustrated and with context provided by the museum's founder and director, David Pilgrim, Understanding Jim Crow is both a grisly tour through America's past and an auspicious starting point for racial understanding and healing.

Helen Hoy, 2001-01-01. Drawing on postcolonial feminist, poststructuralist, and First Nations theory, Hoy raises and addresses questions around difference in relation to texts by contemporary Native women prose writers in Canada. Feminist Bookstore News, 1991. Learn, Teach, Challenge. Deanna Reder, Linda M. Morra, 2016-07-15. This is a collection of classic and newly commissioned essays about the study of Indigenous literatures in North America. The contributing scholars include some of the most venerable Indigenous theorists among them: Gerald Vizenor, Anishinaabe; Jeannette Armstrong, Okanagan; Craig Womack, Creek; Kimberley Blaeser, Anishinaabe; Emma LaRocque, M'tis; Daniel Heath Justice, Cherokee; Janice Acoose, Saukteaux; and Jo Ann Episkew, M'tis. Also included are settler scholars foundational to the field, including Helen Hoy, Margery Fee, and Renate Eigenbrod. Among the newer voices are both settler and Indigenous theorists such as Sam McKegney, Keavy Martin, and Niigaanwewidam Sinclair. The volume is organized into five subject areas: Position the necessity of considering where you come from and who you are; Imagining Beyond Images and Myths, a history and critique of circulating images of Indigenousness; Debating Indigenous Literary Approaches; Contemporary Concerns, a consideration of relevant issues; and finally, Classroom Considerations, pedagogical concerns particular to the field. Each section is introduced by an essay that orients the reader and provides ideological context. While anthologies of literary criticism have focused on specific issues related to this burgeoning field, this volume is the first to offer comprehensive perspectives on the subject.
