Basic Documents Of American Public Administration Since 1950:

Basic Documents of American Public Administration Since 1950 Richard J. Stillman (II), Richard Joseph Stillman, 1982

Handbook of Public Administration, Second Edition W. Bartley Hildreth, Gerald J. Miller, Jack Rabin, 1997-09-19 This bestselling reference examines all major areas in public administration from the enlightening perspectives of history and the five great concepts or theories framing each topic including public budgeting financial management decision making public law and regulation and political economy The American Reference Books Annual calls this stimulating and thought provoking thorough and inclusive a valuable contribution and Canadian Public Administration said it is impressive an extremely useful reference tool the writing and analysis and the scope of the coverage make the volume a good investment for both government and university libraries

Basic Documents of American Public Administration Since 1950 Richard Joseph Stillman, 1982-01-01

Handbook of Public Administration W. Bartley Hildreth, Gerald J. Miller, Jack Rabin, 2018-01-19 Since the publication of the previous edition the best selling Handbook of Public Administration enters its third edition with substantially revised updated and expanded coverage of public administration history theory and practice Edited by preeminent authorities in the field this work is unparalleled in its thorough coverage and comprehensive references This handbook examines the major areas in public administration including public budgeting and financial management human resource management decision making public law and regulation and political economy Providing a strong platform for further research and advancement in the field this book is a necessity for anyone involved in public administration policy and management This edition includes entirely new chapters on information technology and conduct of inquiry In each area of public administration there are two bibliographic treatises written from different perspectives The first examines the developments in the field The second analyzes theories concepts or ideas in the field s literature

Public Administration and Society Richard C Box, 2014-12-17 For instructors who want to expose their students to the social political and historical context of the practice of public administration this book provides a unique approach to the introductory PA course The author s own text is skilfully interwoven with a collection of seminal readings and documents that illuminate the key issues of past and present for public service professionals in a democratic society More than an overview of public administration Public Administration and Society offers students a broad perspective on the American Founding Era the relationship of citizens to government and how the structure of government reflects societal values The premise of the book is that understanding the societal context is important to the success of the practitioner and to the practitioner s role as a responsible agent of change in a democratic society Introductory essays and readings offer students perspectives on five important thematic areas in public administration the Founding Era debate over the size and scope of government the relationship of the community to the individual public organizations and policy making values and public administration and the role of the public service practitioner in a democratic society This new edition of features five new readings and based on

input from adopters an entirely new section on public policy making Part IV Public Organizations and Policy The author's part opening sections have all been extensively revised and updated

The Constitutional School of American Public Administration Stephanie Newbold, David H. Rosenbloom, 2016-10-26 The growing constitutional school of public administration has roots in the Federalist Papers constitutional law and the writings of several contemporary leaders and contributors in the field It is comprised of a loose grouping of scholars who subscribe to the proposition that constitutions and the constitutional characteristics of a regime are key determinants of public administrative culture institutions organizations personnel practices budgetary and decision making processes commitment to the rule of law and human rights and myriad aspects of overall behavior Participants in constitutional school research believe that the big questions in public administration cannot be answered without reference to constitutional designs institutions and regime values This edited volume brings together the most prominent names in constitutional school scholarship in an aim to make it more visible accessible and central to the field of public administration's pedagogy scholarship and intellectual development It will be essential reading for scholars and students of public administration with an interest in constitutional administrative law and political theory around the globe

The Founders, the Constitution, and Public Administration Michael W. Spicer, 1995-03-01 Viewed alternately as an obstacle to justice an impediment to efficient government and a tool by which some groups gain benefits and privileges at the expense of others public administration threatens to become the whipping boy of American government In this innovative look at the nation's bureaucracy Michael W Spicer revisits the values of the Constitution in order to reconcile the administrative state to its many critics Drawing on political and social philosophy Spicer argues that there is a fundamental philosophical conflict over the role of reason in society between writers in public administration and the designers of the American Constitution This examination of worldviews illuminates the problem that American government faces in trying to ground a legitimate public administration in the Constitution Defending and developing the Founders idea that political power whatever its source must be checked he critically examines existing ideas about the role of public administration in American governance and offers an alternative vision of public administration more in line with the Founders constitutional design This book will provide fresh insights for anyone interested in the role of public administration in the United States today

Handbook of Strategic Management, Second Edition, Jack Rabin, Gerald J. Miller, 2000-05-16 Revised and updated for the second edition the Handbook of Strategic Management provides a set of broad based bibliographic essays on strategic management It covers synoptic approaches complexity theory organizational capacity financing strategy networks and chaos theory and offers an in depth look the use of strategic management in the private public and nonprofit sectors The National Institute of Personnel Management called this book the most comprehensive single source treatment of strategic management New topics discuss the role of strategic management in political decision making uncertainty the absence of strategy productivity teamwork leadership and change

Public

Administration Richard J. Stillman (II), Richard Joseph Stillman, 1992 **Public Administration and Public Affairs**

Nicholas Henry, 1999 For public administration or public affairs courses on the undergraduate or graduate level this comprehensive up to date text emphasizes a value based approach to the study and practice of public administration

Political Science Henry E. York, 1990 Handbook of Administrative History Jos Raadschelders, 2017-07-05 Public administration is commonly assumed to be a young discipline rooted in law and political science with little history of its own Likewise teaching and scholarship in this field is often career oriented and geared either toward the search for immediately usable knowledge or guidelines and prescriptions for the future Although most administrative scientists would acknowledge that their field has a history their time horizon is limited to the recent past Raadschelders demonstrates that public administration has in fact a long standing tradition both in practice and in writing administration has been an issue ever since human beings recognized the need to organize themselves in order to organize the environment in which they lived This history in turn underlines the need for administrators to be aware of the importance and contemporary impact of past decisions and old traditions In seeking to go beyond the usual problem solving and future oriented studies of public administration this volume adds greatly to the cognitive richness of this field of research Indeed the search for theoretical generalizations will profit from an approach that unravels long term trends in the development of administration and government Raadschelders approaches public administration history from a dual perspective as trained historian and professor of public administration The volume is appropriately called a handbook in view of its methodical listing of the literature on administrative history together with summaries of numerous authors principal theories The second chapter is an essay on sources in the field including an extended bibliography These parts of the book alone make it useful to scholars in the field Raadschelders is helpful in other ways as well The third and fourth chapters offer a highly sophisticated discussion of methodological problems encountered in writing administrative history including the issue of perceiving stage

Learning While Governing Sean Gailmard, John W. Patty, 2013 Sean Gailmard is the Judith E Gruber Associate Professor in the Travers Department of Political Science at the University of California Berkeley John W Patty is associate professor of political science at Washington University *Public Administration and Law, Third Edition* David H. Rosenbloom, Rosemary O'Leary, Joshua Chanin, 1996-09-12 A Practical Handbook for Public Administrators Despite the sizeable literature on administrative law and the courts few books adequately demonstrate how judicial decisions have transformed American public administration thought and practice Public Administration and Law is the first book of its kind to comprehensively examine the impact of judicial decisions on the enterprise of public administration A practical guide for practitioners this book goes beyond a theoretical framework and provides concrete advice for real world situations Rather than abstractly and generally discuss doctrines such as procedural and substantive due process the book analyzes their application to specific contexts in which administrators engage individuals Written in a non technical fashion the volume discusses contemporary

federal administrative law and judicial review of agency action or inaction It clearly explains the general framework that controls agency rule making adjudication release of information and related issues In addition a section is included on the burgeoning and litigious field of environmental law and advice is presented as to what public administrators need to know about environmental regulations and what can happen to those who fail to head them Now in its second edition this handbook is a must for public administrators who want to successfully avoid judicial scrutiny and challenge of their official actions

Public Administration Richard Joseph Stillman, 1996 Pairs theoretical readings with contemporary case studies of US public administrative work in state and local government This text tests theory against practice in major areas like decision making and ethics Cases include minority issues Ancillary package available upon adoption *The World We Could Win* Geraldine Fraser-Moleketi, 2005 Containing six essays this volume looks thematically at different elements or facets of Global Governance and the issues that arise It deals with some regional perspectives on Global Governance It aims to raise our eyes beyond the known world in public administration and also looks at the unit of analysis

Public Administration and Law David H. Rosenbloom, Rosemary O'Leary, Joshua Chanin, 2010-06-23 Since the first edition of Public Administration and Law was published in 1983 it has retained its unique status of being the only book in the field of public administration that analyzes how constitutional law regulates and informs the way administrators interact with each other and the public Examining First Fourth Fifth Eighth and Fourteenth Amendment rights as they pertain to these encounters it explains how public administrators must do their jobs and how administrative systems must operate in order to comply with constitutional law Explores the conflicts between laws The book begins by presenting a historical account of the way constitutional and administrative law have incrementally retrofitted public agencies into the nation's constitutional design It examines the federal judiciary's impact on federal administration and the effect of the nation's myriad environmental laws on public administration Next it focuses on the role of the individual as a client and customer of public agencies In a discussion of the Fourth Amendment it examines street level encounters between citizens and law enforcement agents Responding to the rise of the new public management NPM it also adds for the first time in this edition a chapter that analyzes the rights of the individual not only as a government employee but also as a government contractor Enhanced with numerous references The final chapters of the book address issues concerning the rights of inmates in administrative institutions and balancing the need to protect individual rights with the ability of agencies to function effectively Supplemented with case citations and lists of articles books and documents this text is designed to facilitate further study in a constantly evolving area About the Authors David H Rosenbloom Ph D is Distinguished Professor of Public Administration in the School of Public Affairs at American University in Washington D C and Chair Professor of Public Management at City University of Hong Kong Rosemary O Leary Ph D J D is Distinguished Professor of Public Administration and the Howard G and S Louise Phanstiel Chair in Strategic Management and Leadership at Syracuse University Joshua M Chanin M P A J D is a Ph D candidate in

Public Administration and Justice Law and Society in the School of Public Affairs at American University in Washington D C

Performance Budgeting for State and Local Government Janet M. Kelly, 2015-05-18 Provides a comprehensive theoretical and practical framework for informing budget decisions based on the efficiency and effectiveness of service delivery The authors enliven the text with references to their original research and personal experiences with performance measurement citizen satisfaction surveys and financial management practices This edition includes increased coverage of cost accounting procedures and of citizen participation in performance management Thickening Government Paul C. Light, 2011-09-01 This ebook is now available from Bloomsbury Academic Bloomsbury Academic publish acclaimed resources for undergraduate and postgraduate courses as well as the general reader across a broad range of subjects including Archaeology Art Visual Culture Biblical Studies Business Management Drama Performance Studies Economics Education Film Media History Linguistics Literary Studies Music Sound Studies Philosophy Politics International Relations Psychology Religious Studies Social Work Social Welfare Sociology Study Skills Theology and Wellbeing Health Lifestyle Visit bloomsbury.com for more information *Personnel Literature* United States.
