natives of the region and serve as revealing markers of ethnicity social class gender age and so on Because costume expresses so much scholars study it to learn how the indigenous people of the Andes have identified themselves over time as well as how others have identified and influenced them Costume and History in Highland Ecuador assembles for the first time for any Andean country the evidence for indigenous costume from the entire chronological range of prehistory and history The contributors glean a remarkable amount of information from pre Hispanic ceramics and textile tools archaeological textiles from the Inca empire in Peru written accounts from the colonial period nineteenth century European style pictorial representations and twentieth century textiles in museum collections Their findings reveal that several garments introduced by the Incas including men s tunics and women s wrapped dresses shawls and belts had a remarkable longevity They also demonstrate that the hybrid poncho from Chile and the rebozo from Mexico diffused in South America during the colonial period and that the development of the rebozo in particular was more interesting and complex than has previously been suggested The adoption of Spanish garments such as the pollera skirt and man s shirt were also less straightforward and of more recent vintage than might be expected
