Bastions And Belligerents Medieval Strongholds In Northumberland:

Bastions and Belligerents John Fenwick Dodds, 1998 **Scotland's Second War of Independence, 1332-1357** Iain A. MacInnes, 2016 Full length study of the warfare between England and Scotland in the mid fourteenth century The Second Scottish War of Independence began in 1332 only four years after the previous conflict had ended Fought once more for the continued freedom of Scotland from English conquest the war also witnessed a revival of Scottish civil conflict as the Bruce Balliol fight for the Scottish crown recommenced once more Breaking out sporadically until peace was agreed in 1357 the Second Scottish War is a conflict that resides still in the shadow of that which preceded it compared to the wars of William Wallace and Robert Bruce Edward I and Edward II this second phase of Anglo Scottish warfare is neither well known nor well understood This book sets out to examine in detail the military campaigns of this period to uncover the histories of those who fought in the war and to analyse the behaviour of combatants from both sides during ongoing periods of both civil war and Anglo Scottish conflict It analyses contemporary records and literary evidence in order to reconstruct the history of this conflict and reconsiders current debates regarding the capabilities of the Scottish military the nature of contemporary combat the ambitions and abilities of fourteenth century military leaders and the place of chivalry on the medieval battlefield Dr Iain A MacInnes is a Lecturer and Programme Leader in Scottish History at the UHI Centre for History University of the Highlands and Islands The Church at War: The Military Activities of Bishops, Abbots and Other Clergy in England, c. 900-1200 Daniel M. G. Gerrard, 2016-10-04 The fighting bishop or abbot is a familiar figure to medievalists and much of what is known of the military organization of England in this period is based on ecclesiastical evidence Unfortunately the fighting cleric has generally been regarded as merely a baron in clerical dress and has consequently fallen into the gap between military and ecclesiastical history This study addresses three main areas which clergy engaged in military activity in England why and when By what means did they do so And how did others understand and react to these activities The book shows that however vivid such characters as Odo of Bayeux might be in the historical imagination there was no archetypal militant prelate There was enormous variation in the character of the clergy that became involved in warfare their circumstances the means by which they pursued their military objectives and the way in which they were treated by contemporaries and described by chroniclers An appreciation of the individual fighting cleric must be both thematically broad and keenly aware of his context Such individuals cannot therefore be simply slotted into easy categories even or perhaps especially when those categories are informed by contemporary polemic The implications of this study for our understanding of clerical identity are considerable as the easy distinction between clerics acting in a secular or ecclesiastical capacity almost entirely breaks down and the legal structures of the period are shown to be almost as equivocal and idiosyncratic as the literary depictions The implications for military history are equally striking as organisational structures are shown to be more temporary fluid and political than had previously been understood **50 Gems of Northumberland** Steve Ellwood, 2018-09-15 This beautifully

photographed selection of fifty of the county's most precious assets shows what makes Northumberland great

Architectural History, 2010 **Safe Sanctuaries** Christopher J. Brooke, 2000 This text is about the fortified churches which form a feature of the borderlands between Scotland and England Through these buildings the author draws a picture of the people and events which shaped this land from the actions of government to events and incidents which shaped everyday lives **The Bastard's Sons** Jeffrey James, 2020-03-15 The first joint biography of the three sons of William the Conqueror They became kings crusaders and rulers of England and Normandy *Studies in Medievalism*, 2001 **Annual Bibliography of British and Irish History**, 1999 *The British National Bibliography* Arthur James Wells, 2000 *The Saturday Review of Politics, Literature, Science and Art*, 1880 *Castles and Strongholds of Northumberland* Brian Long, 2024-08-01 Much more than an excellent gazetteer this detailed study of the county's castles monuments and towers shows who was responsible for the defence of the Anglo Scottish border whilst Henry V was at Agincourt Subsequent surveys show how in 1584 Christopher Dacre forwarded a bold project that linked a string of towers forming a defence against marauding Scots suggesting new towers to stop gaps with a dyke or defence joining them like a latter day Hadrian's Wall Beyond this line were the many Peles or Bastles home to the headsmen of the notorious reiving families who were cursed in 1525 by bishops of Durham and Glasgow as punishment for their brutal way of life giving rise to much legend and romance Meanwhile polite society occupied the large castles nestled amongst the coastal area still standing today for all to see This history and gazetteer with over 500 entries and plentiful illustrations and plans will enhance your understanding of the history of the borders and their proud turbulent past *Borderland Castles and Peles* Robert Hugill, 1939 *Stronghold Britain* Geoffrey Williams, 1999 From prehistoric hill forts to grand medieval castles and from gentlemen's fortified country homes and Victorian follies to the defensive installations of World War II the whole range of fortifications built in Britain is examined through the remains that can be found in every corner of the island **The Castles of Northumberland** Frank Graham, 1976 *Stronghold* Martin Hubert Brice, 1984 **Medieval Castles of Northumberland** Thomas H. Rowland, 1969 *Castles and Cannon* Bryan Hugh St. John O'Neil, 1975 *Coastal Castles of Northumberland* Stan Beckensall, 2010-12-15 Stan Beckensall traces the nature of Northumberland's coastal castles and their roles in the lives of the people of the area **Alnwick Castle**, 1985
