## **Cycles Of Life Through A Spiritual And Planetary Perspective:**

Cycles of Life Duke De Faria, 2001      *The Anthroposophical Soul Calendar and the Incarnation Cycle of Man* Roland Schrapp, 2021-01-14 This book takes a completely new look at the Anthroposophical Soul Calendar. It is about the deeper meaning of the fifty-two weekly verses which have remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them of which it is well known that no mortal person can lift it. Only the immortal psycho-spiritual human being who knows himself at home in the extrasensory higher worlds is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual cosmic realms until he reaches the experience of God from where he gradually descends again into a new life on Earth enriched in spirit and fertilized in his soul. If the reader embarks on this journey the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books the author virtually lets Steiner himself elucidate the breathtaking depths of his mysterious weekly verses.      *The Mirroring of Life before Birth in the Seven-Year Periods of Human Life on Earth* Roland Schrapp, 2023-02-28 Between death and a new birth on earth the human being lives through a long cosmic existence in the higher worlds. This is mirrored in the earthly life Rudolf Steiner described its division into seven-year periods and the connection with the pre-birth existence in the planetary spheres. Apart from this there is another division including higher spheres of the fixed stars. Rudolf Steiner only gave us a hint. In line with this and based on his own experiences on the path of spirit-discipleship the author of this book gives examples how these different stages of life between death and rebirth can express themselves in the course of earthly life. He also explains in which of the seven-year periods the conditions for learning something about one's own previous incarnation are particularly favourable. In addition he describes the connection of the later seven-year periods of earthly life with the Life Spirit Budhi as well as the preparation of mankind for receiving it by a development which Rudolf Steiner called the gradual getting younger of mankind and which started at the times of the primeval Semites in ancient Atlantis. For everyone who follows or aspires to the path of spiritual discipleship or is interested in biography work a highly recommended book.      Religion and Spirituality in the Life Cycle James Gollnick, 2005 In recent years profound changes have affected the way people view the role of religion and spirituality in the life cycle. For many people spirituality always considered an essential part of religion has become an interest no longer tied to organized religion. This book addresses the evolving relationship of spirituality to religion in our time and the consequences of this change for understanding personality development. It also applies the concept of implicit religion to show how the least easily observed aspects of religion are at work in the growth of personality.      **Life Cycles** Michael Douglas Neely, 2016-06-27 *Life Cycles Astrology and Its Connection to Nature* lays out Michael Douglas Neely's theories about the mysterious astrological principle of Exaltation and Debilitation. After tenaciously working to figure out why certain planets were considered exalted or

debilitated at particular degrees of the zodiac Michael discovered that these are better identified as upswing and downswing points within a life cycle that also has climax and anticlimax points Each planet has its own unique life cycle that manifests its quality in nature The planets cooperating together create the fractal like nature we experience in a daily annual and human lifetime cycle Michael Douglas Neely has been an astrology enthusiast since 2002 He has studied and tested various forms of astrology on a theoretical and practical level Particularly he has a keen interest in the astrology theories and techniques of Jyotish East Indian Astrology He resides in Seattle Washington

himself The lyrics of this book are particularly special because the author writes from the depth of his heart to express in the profoundest sense the relevance of the ancient Vedic Wisdom to the hectic modern world The mind enriching lyrics bring to us a re awakening of beautiful divinity filled with solace hope and compassionate love Life oh life Let it be a flight of delight
