Course Of Our Times:

Our Times, Our Lives Eve Otto, Jozef Otto, 2004-11 Eve Otto explains When I began writing this book I had in the back of my mind that those who are young now might someday be interested in what life was like when their grandparents were growing up how life changed drastically with the coming of World War II in Europe and the turbulent years that followed the traumas of our emigration to America with our three young children and the difficult adjustments we had to make My book then is sort of a legacy to them

A Life in Our Times John Kenneth Galbraith, 2019-07-31 In his memoirs John Kenneth Galbraith recalls amusingly even brilliantly the important and low moments in his life the men and women he met who were great only interesting entertaining or even absurd Galbraith studied agriculture in his native Canada and agricultural economics at UC Berkeley He taught at the University of California served briefly in FDR's administration and went on to Harvard In Cambridge England he discovered the new economics of John Maynard Keynes During World War II in Washington he held the key job of organizing and administering the system of wartime price controls After the war Galbraith directed the survey that interrogated former Nazi leaders to assess the effects of the air war on the German economy He then worked for the State Department as administrator for economic affairs in the occupied countries and served as an editor of Fortune when the magazine employed some of the best writers around Galbraith returned to Harvard in 1948 and wrote three of the most influential books on economics of his time *The Affluent Society* *The New Industrial State* and *Economics and the Public Purpose* In these lively memoirs the author relates all of this and more his two major political campaigns with Adlai E Stevenson for whom he was adviser and speech writer and John F Kennedy for whom he campaigned across the country his years as ambassador in India and his long opposition to the Vietnam war And he shares the lessons learned from these experiences On every subject Mr Galbraith is succinct and witty The book is full of strong opinion and proceeds by the vehicle of anecdote The serious business of the book is to trace the steps of its author's astonishingly varied and useful life Mr Galbraith's vigor of expression as well as an account of a period of gloom and psychotherapy prevents the writing from ever sounding impersonal That serious business is also to set the record straight on what his books were about and how he evolved his theory of *The Affluent Society* and *The New Industrial State* as two of his most important works were named on why the bombing of Germany during World War II was less than useless why it was patently unnecessary to wage atomic warfare on Japan and why he came to be a dissenter on the war in Vietnam On inflation On the secular priesthood that once presided at the State Department And enchantingly on such movers and shakers he came to know well as the New Dealer Leon Henderson Paul Baran the most interesting economist I have ever known Bernard M Baruch Adlai E Stevenson John F Kennedy and Lyndon B Johnson Christopher Lehmann Haupt *The New York Times* As a raconteur and a literary stylist Galbraith stands with the best As entertainment the book is a total success Its charm comes from the combination of Mr Galbraith's smooth comic timing and his not always charitable wit James Fallows *The New York Times* Galbraith ranks with

the most entertaining and provocative political writers in America in this century Without Galbraith the political literature of our time would be far drearier Gaddis Smith Foreign Affairs Galbraith has assembled a well nigh complete record of what he has been up to professionally at least since leaving his family's Ontario farm The account is fascinating The narrative consistently holds the distinctive Galbraith style that makes all his books read like a nippy breeze Geoffrey Colvin Christian Science Monitor Absorbing and irresistible The New Yorker An enjoyable book full of fun full of wisdom and full of rare insights into the history of our times The New Republic A delightfully teeming book Galbraith's comic voice is a distinctive and durable literary achievement Atlantic Monthly A highly perceptive commentary on all our yesterdays anecdotal amusing animated and above all illuminating John Barkham Reviews **Sounds of Our Times** Robert T. Beyer,1999 A history of acoustics from the 19th century to the present written by one of the pre eminent members of the acoustical community The book is both a review of the major scientific advances in acoustics as well as an account of famous acousticians and their discoveries taking in the development of the Acoustical Society of America Acoustics is distinguished by its interdisciplinary nature and the book duly explores the fields development in its relationship to other sciences In addition to covering the history of acoustics the book concludes with the future of acoustics Beautifully illustrated A Tragi-Comical History of our Times, under the borrowed names of Lisander and Calista. Translated by W. D. from the French of V. d'Audiguier ,1635
