Courageous Teaching:

Courageous Leadership in Early Childhood Education Susi Long, Mariana Souto-Manning, Vivian Vasquez, 2016 In this inspiring collection 13 early childhood leaders take action to challenge and change inequitable educational practices in preschools and elementary schools For them educating for social justice is not an empty platitude Steadfast and resolute they turn rhetoric into reality as they guide early childhood teachers to teach for social justice innovatively and strategically Through the voices of families teachers and the administrators themselves each chapter shares ways that these leaders use the power entrusted in them to question and disrupt discriminatory and marginalizing practices that deny opportunities for some students while privileging others The book includes insights strategies and resources that administrators can use to build confidence knowledge and skills as they invest in more equitable and just pre schools Book Features Highlights the actions of administrators as they take a stand to transcend standardized approaches to teaching and learning creating more equitable educational environments Portrays strategies and resources used to engage teachers in critical examination of self and the institutions in which they work Describes principles and practices that guide administrators as they support the development of culturally relevant practices and policies Offers powerful ways early childhood administrators can approach inequitable mandates Highlights the voices of families as they participate in and are impacted by the work of administrators Susi Long Mariana Souto Manning and Vivian Vasquez scholars with stellar reputations in the fields of early childhood education critical literacy and social justice education have combined their considerable talents to edit a book that will serve as a beacon of hope for administrators policymakers and educators at all levels of learning and teaching From the Foreword by Sonia Nieto professor emerita University of Massachusetts Amherst and bestselling author **The Courage to Learn** Marcia Eames-Sheavly, Paul Michalec, Catherine M. Wehlburg, 2023-07-03 It takes courage to engage in the kind of deep transformational learning that so many people need in their lives and this book is designed to help find and nurture that courage in learners including those that are engaged in facilitating the courageous learning of others Inspired by Parker Palmer s classic book *The Courage to Teach* the authors have carefully examined the learning side of the teaching and learning relationship and this book shares the resulting wealth of knowledge and experience with readers This book is informed by Palmer s observation that the conversations in teaching can be organized around four questions what how why and who In this book the authors center learning instead of teaching as they ask What is the content of learning How do we learn Why is it necessary what motivates us And who is the self that learns The authors have engaged in conversation with adult learners across the lifespan representing different ages social economic levels and approaches to learning Drawing on these discussions their own experiences and the scholarly literature they weave a tapestry with threads of learning and teaching story and analysis that serve as warp and weft The authors pay tribute to the learner s journey in the fullness of the process and name the distinct forms of courage that learning takes In the concluding chapter the authors explore the

implications for educational practice and offer guidance for any educator wishing to bring a Courage to Learn conversation to their community

The Courage to Teach Parker J. Palmer, 2010-06-08 This book is for teachers who have good days and bad and whose bad days bring the suffering that comes only from something one loves It is for teachers who refuse to harden their hearts because they love learners learning and the teaching life Parker J Palmer from the Introduction For many years Parker Palmer has worked on behalf of teachers and others who choose their vocations for reasons of the heart but may lose heart because of the troubled sometimes toxic systems in which they work Hundreds of thousands of readers have benefited from his approach in THE COURAGE TO TEACH which takes teachers on an inner journey toward reconnecting with themselves their students their colleagues and their vocations and reclaiming their passion for one of the most challenging and important of human endeavors This book builds on a simple premise good teaching cannot be reduced to technique but is rooted in the identity and integrity of the teacher Good teaching takes myriad forms but good teachers share one trait they are authentically present in the classroom in community with their students and their subject They possess a capacity for connectedness and are able to weave a complex web of connections between themselves their subjects and their students helping their students weave a world for themselves The connections made by good teachers are held not in their methods but in their hearts the place where intellect emotion spirit and will converge in the human self supported by the community that emerges among us when we choose to live authentic lives BONUS Includes an audio CD featuring a 45 minute conversation between Parker Palmer and his colleagues Marcy Jackson and Estrus Tucker from the Center for Courage Renewal They reflect on what they have learned from working with thousands of teachers in their Courage to Teach program www.CourageRenewal.org and with others who yearn for greater integrity in their professional lives Note CD ROM DVD and other supplementary materials are not included as part of eBook file

Teachers' Work in a Globalizing Economy Alistair Dow,Robert Hattam,Alan Reid,Geoffrey Shacklock,John Smyth,2005-08-02 Extended critical case studies provide a tangible working expression of the labour process of teaching showing how teachers are simultaneously experiencing significant changes to their work as well as responding in ways that actively shape these processes For teachers and researchers this book shows what processes are at work in the global economy which impact on and sometimes control the role of the teacher It also reveals how teachers accommodate resist or redefine their working circumstances and explores methods researchers might employ in order to increase our understanding and knowledge of the effect of globalization on teaching Racial Justice and Nonviolence Education Arthur Romano,2022-07-14 This book examines the role that community based educators in violence affected cities play in advancing Dr Martin Luther King Jr s radical nonviolent vision for racial and social justice This work argues that nonviolence education can help communities build capacity to disrupt and transform cycles of violence by recognizing that people impacted by violence are effective educators and vital knowledge producers who develop unique insights into racial oppression and other forms of systemic harm This book focuses on informal education that takes place beyond school walls a type of education that too often remains invisible and undervalued in both civil society and scholarly research It draws on thousands of hours of work with the Connecticut Center for Nonviolence CTCN a grassroots organization that presents an ideal case study of the implementation of King s core principles of nonviolence in 21st century urban communities Stories of educators life changing educational encounters their successes and failures and their understanding of the six principles of Kingian nonviolence animate the text Each chapter delves into one of the six principles by introducing the reader to the lives of these educators providing a rich analysis of how educators teach each principle and sharing academic resources for thinking more deeply about each principle Against the backdrop of today s educational system in which reductive and caricatured treatments of King are often presented within the formal classroom CTCN s work outside of the classroom takes a fundamentally different approach connecting King s thinking around nonviolence principles to working for racial justice in cities deeply impacted by violence This book will be of much interest to students of conflict resolution race studies politics and education studies as well as to practitioners in the field Resources in Education ,1995 **For Courageous Fighting and Confident Dying** Warren Bruce Armstrong,1998 When soldiers in the Civil War called on their religious

beliefs in order to cope with the horrors of battle many looked to the regimental chaplain for guidance and understanding Clergy were always present to address the spiritual needs of the common soldier and administer to the wounded and dying But as Warren Armstrong shows military chaplains provided more than comfort In a country profoundly shaped by religion each side adapted its version of Christianity to support its political views This book documents the role played by Union chaplains in making better soldiers and supporting the North's military efforts These ministers in uniform focused on preserving the Union and reminding soldiers that slavery was the central issue in the war preaching the righteousness of abolition in services held in the mud of campgrounds and often serving as advocates for freedmen Armstrong has drawn on a wide range of documents to explain the duties of Union chaplains and differentiate them from their Southern counterparts He examines the organization of the chaplaincy and reviews its manuals for guidelines on such matters as cultivating desirable character traits and building makeshift churches He also sheds light on the personalities of the men who served examines their attitudes toward the war and assesses their unofficial role as morale officers for the Union army Wherever possible Armstrong uses chaplains letters diaries and written reports to explain their thoughts and actions in their own words His book is narrative history with a richly human element including such episodes as a chaplain who took a fallen soldier's place and died in battle and two chaplains of different faiths who slept together for warmth on a cold winter night at Fredericksburg Before the Civil War the need for a military chaplaincy had been challenged on the grounds of separation of church and state but the valiant service of chaplains during that conflict helped prove their worth and establish a lasting military tradition In relating their story Armstrong's work faithfully documents the contributions chaplains made both to the Union victory and to the form that victory took

The Socially Just School John Smyth, Barry Down, Peter McInerney, 2014-07-08 This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people especially those who are already the most marginalized and at an educational disadvantage Social justice is a key theme as the book examines the needs of youth the concept of school culture school community relations socially critical pedagogy curriculum and leadership and a socially critical approach to work The Socially Just School is based upon four decades of intensive writing and researching of young lives This work presents an alternative to the damaging school reform in which schools are made to serve the interests of the economy education systems the military corporate or national interests Readers will discover the hallmarks of socially just schools They educationally engage young people regardless of class race family or neighbourhood location and they engage them around their own educational aspirations They regard all young people as being morally entitled to a rewarding and satisfying experience of school not only those whose backgrounds happen to fit with the values of schools They treat young people as having strengths and being at promise rather than being at risk and with deficits or as bundles of pathologies to be remedied or fixed They are active listeners to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives This highly readable book will appeal to students and scholars in education and sociology as well as to teachers and school administrators with an interest in social justice
