Improving Teaching, Learning, Equity, and Success in Gateway Courses Andrew K. Koch, 2018-01-24 Gateway courses college credit bearing and or developmental education courses that enroll large numbers of students and have high rates of Ds Fs withdrawals and incompletes are a ubiquitous part of the undergraduate experience in the United States As long as there have been U S colleges and universities there have been entry courses that pose difficulties for students courses that have served more as weeding out rather than gearing up experiences for undergraduates This volume makes the case that the weed out dynamic is no longer acceptable if it ever was Contemporary postsecondary education is characterized by vastly expanded access for historically underserved populations of students and this new level of access is coupled with increased scrutiny of retention and graduation outcomes Chapters in this volume define and explore issues in gateway courses and provide various examples of how to improve teaching learning and outcomes in these foundational components of the undergraduate experience Back cover *Transforming the Gateway Course Experience* Andrew K. Koch, 2024-12-13 Serving

as a call to action for educators to recognize and address inequities in gateway courses this book offers an evidence based model for improving teaching learning and student success within the foundational college classroom Gateway courses often reflect broader societal cultural and economic issues this book argues that inequitable outcomes result from specific practices and policies rather than occurring naturally Using data and examples from his work with various colleges and universities Andrew K Koch highlights the systemic issues that perpetuate inequality in higher education He examines how and why race and class divisions are reinforced through current practice and the impact that these courses have on students sense of belonging By giving suggestions for policy changes on how to combat high failure rates and challenging myths such as grade inflation and curve grading this text seeks to critique and ultimately dismantle the toxic culture of weeding out students This accessible book is for any college instructor who wants to transform gateway courses into true opportunities for student success ultimately advancing higher education s broader equity and social justice goals **Launch Courses**
