Creating Kids Who Can Concentrate Proven Strategies For Beating Add Without Drugs:

Creating Kids Who Can Concentrate Hilary Letts, Jean Robb & Hilary Letts, 2012-10-01 This book is about success and transformation. It shows how with patience and energy parents and teachers can turn a child who is noisy, clumsy and forgetful into a child who is calm, careful and attentive. Creating Kids Who Can Concentrate is a practical and realistic book that shows how parents and professionals can naturally and effectively develop a child's potential to become responsible and thoughtful in a remarkably short time. The authors provide expert guidance on proven techniques and strategies for overcoming barriers to learning, developing every child's innate skills, how a child is labelled as having A D D, dealing with disruptive or bizarre behaviour, tantrums and children who won't listen. JEAN ROBB and HILARY LETTS are teachers and therapists as well as the founders of Successful Learning, a British education centre dedicated to helping children to fulfil their potential. Their first book is CREATING KIDS WHO CAN Principles of Primary Education Pat Hughes, 2013-05-13 This study guide has been revised to give practical guidance on the new standards for Qualified Teacher Status QTS and updated in line with the latest special needs Code of Practice and recent legislation. It is a firm base for student teachers on all types of initial teacher education courses PGCE BA QTS BED and modular and for those returning to primary teaching after a career break. It also serves as a refresher course for experienced teachers, especially those transferring to primary teaching from other phases of education. Sufficiently rooted in practicalities to bridge the notorious theory-practice divide, the book is challenging and inspiring. Its friendly, supportive and interactive style enables the reader to take control of the learning process and there are planning sheets, pro-formas and reminders to develop effective classroom practice. Each chapter provides its own learning objectives followed by information, insights, activities and references to other sources of information and guidance. Overall, the Guide is an excellent starting point for those who wish to become good teachers of primary school children. **Plans for Better Behaviour in the Primary School** Sue Roffey, Terry O'Reirdan, 2013-02-01 This work suggests strategies for working with children who can't settle down to work, who have angry outbursts, who demand constant attention or who display a whole range of challenging behaviours. The book's special format allows the reader to look up the specific type of behaviour and see a range of tactics to help him or her deal with the situation in the short term and then to consider what might be done in the longer term to prevent recurrence. No more ploughing through dense text; this is all at your fingertips. By drawing on the good practice of many practitioners and by looking at the most commonly experienced behavioural difficulties, the authors suggest approaches that really work. This is a behaviour handbook that should appeal to every teacher and teaching assistant and prove a useful resource for learning mentors, behaviour support staff and educational psychologists. **Fulton Special Education Digest** Ann Worthington, Philippa Russell, 2014-07-22 First Published in 1999, this fully updated second edition is an essential reference book that contains a wealth of resources and practical information relating to the education and care of children with special educational needs.

Within its pages you will find an accessible jargon free overview of current SEN policies and how they affect parents teachers and children contact details of over 1 000 selected organizations charities and services that exist to help the child with special educational needs an extensive glossary of terms and medical conditions associated with special education pointers to useful resources on the Internet the names and addresses of Local Education Authorities all of which can provide information on inclusive schooling the names and addresses of over 1 800 special schools in the UK and advice on how to make links with other professionals to ensure all children with special educational needs are getting the attention to which they are entitled Any teacher teaching assistant parent or carer of a child or children with special educational needs will find this book a useful companion
