main priorities of both the European Commission and the Council of Europe and of their partnership in the field of youth. Youth work is in the spotlight for both institutions and youth workers are essential for the quality of its provision. This revised T Kit aims to equip youth workers and youth trainers with the essentials of non formal education training. It is a practical tool for them to develop training competences and learn more about educational theory, concepts, tools, practices, resources, as well as hands on tips, as this handbook is written by trainers for trainers and youth workers in the European youth field. Whereas other T Kits focus on one specific area of youth work training, this one emerges from the broader European youth work context and enables trainers and youth workers to reflect on their daily practice, as this publication follows the logic of an entire training cycle from beginning to end of any youth training programme with an international dimension. The European youth training field has undergone massive changes since this T Kit was first published in 2002. Especially when it comes to digitalisation, the focus on trainer competences and competence development, training standards and quality criteria for training, recognition of non formal education, accessibility and diverse ability dimensions. Topics such as access, gender, environment and sustainability or the focus on learning environments, emotional management and well being of the trainer have greatly changed non formal education settings. This T Kit offers information, links and resources on how to work with young people in non formal education training settings today and make a difference in their personal lives as well as their peer groups and communities beyond.
