Managing Sustainable Resorts Profitably combines business management principles with environmental and social concerns to offer development solutions to these questions. By taking an holistic and contemporary approach to the problem of developing sustainable tourism operations this book provides a comprehensive assessment of the strategies that need to be considered by various governments, developers and in particular the customer investor. The major features of resort development covered by this book include: Environmental scanning of principal external and internal influential factors; The curse and blessings of seasonality; Competition for people's recreation and retirement dollars; Guest activity programming; Environmental issues; Cruise ships as mobile resorts; Staffing issues in isolated areas; Financial challenges for owners and operators alike; Risk Management; Mutually beneficial options for various stakeholders. Based on an analysis of global resort opportunities and trends, the book focuses on those generic features that differentiate regional resort management from urban centric management needs and priorities. Using comparative case studies, the author emphasizes best case benchmark examples of a range of resorts large and small, urban and rural, to illustrate what can be achieved.

Virtual Globalization David Holmes, 2002-11. Extreme Tourism: Lessons from the World's Cold Water Islands Godfrey Baldacchino, 2006-08-11. This book is a pioneering investigation of the tourism practices in the world's other cold water islands. Located in extreme latitudes and subject to extreme weather conditions, these islands have been developing their tourism appeal in manners that appear sustainable. They present themselves in images that speak to the pristine, unique and superlative aspects of their natural environment, history and culture. Limited seasonality, difficulty of access, restricted infrastructure, harsh climates and water too cold to swim in are integral features of the tourism industry, often welcomed as appropriate filters to the slide to the mass market. The collection contains 13 island case studies. A set of seven hail from Northern latitudes: Baffin, Nunavut, Canada; Banks, Northwest Territories, Canada; Greenland; Kaalaalit, Nunaat; Iceland; Lule, Sweden; Nunivak, Alaska; Solovetsky, Russia; and Svalbard, Norway. A second set of four cover the Southern islands of Chatham, New Zealand; Falklands; Macquarie, Australia; and Stewart, New Zealand. Two other chapters discuss islands from the particular vantage points of cruise ship tourism, one for the Arctic region and one for the Antarctic. Additionally, five conceptual chapters provide insights into key tourism management issues as they apply to cold water island experiences: a) human resources, b) environment, c) promotion, d) seasonality and e) access.
