Developing Engaged and Entrepreneurial Universities Thorsten Kliewe, Tobias Kesting, Carolin Plewa, Thomas Baaken, 2019-09-24 This book investigates key aspects of the development of engaged and entrepreneurial universities Reflecting the complex and dynamic nature of changes in higher education institutions HEIs multi level perspectives in the field are taken into account namely the ecosystem relationship organisational and individual perspective The book highlights the entrepreneurial and the social orientation of HEIs by focusing on both primary economically focused entrepreneurial universities and primary socially focused engaged universities It challenges the understanding of the role universities and its individual stakeholders play today The book explores a multitude of facets and perspectives on the topic and addresses both what we already know and what knowledge still needs to be acquired

Global Issues in Higher Education Pamela B. Richards, 2007 In most developed countries a high proportion of the population up to 50 percent now enter higher education at some time in their lives Higher education is therefore very

important to national economies both as a significant industry in its own right and as a source of trained and educated personnel for the rest of the economy It follows that there are enormous stakes involved for a particular country even though the payoff of serious reforms may take decades and thus be counterproductive to the political forces responsible for designing and implementing such reforms since their horizons tend to be very short This new book tackles important issues in this dynamic field      **Entrepreneurial Universities** João J. Ferreira, Alain Fayolle, Vanessa Ratten, Mário

Raposo, 2018-08-31 With an increasing focus on the knowledge and service economies it is important to understand the role that entrepreneurial universities play through collaboration in policy and in turn the impact they have on policy The authors evaluate how universities engage with communities while also balancing stakeholder considerations and explore how universities should be managed in the future to integrate into global society effectively      Strategies for the Creation and

Maintenance of Entrepreneurial Universities Henry, Colette, Gabriel, Bárbara Filipa Casqueira Coelho, Sailer, Klaus, Bernadó-Mansilla, Ester, Lahikainen, Katja, 2021-12-17 Higher Education Institutions HEIs around the world are being pressured to become more entrepreneurial However the concept of an entrepreneurial university has remained elusive including ideas that range from supporting students and staff with new ventures to encouraging partnerships between academics and entrepreneurs New research is needed on strategies and practices that can be implemented by universities in order to become more innovative and supportive Strategies for the Creation and Maintenance of Entrepreneurial Universities uses findings from a major EU funded five country project THEI2 0 focused on enhancing the implementation and impact of the EU OECD s HEInnovate tool to offer valuable strategies to help universities become more entrepreneurial especially in the current COVID 19 and post COVID 19 environments This book s core value lies in the fact that it draws on real experiences and practices of those in this field articulates key takeaway messages and suggests potential strategies and actions to create impact Covering topics such as campus incubation policy strategies and regional development this book acts as an essential resource for senior academic leaders academic managers entrepreneurship entrepreneurial educators incubation center managers technology transfer managers researchers students and administrators seeking to make their university more entrepreneurial maintain their entrepreneurial status critically reflect on their current level of entrepreneurialism explore new opportunities to enhance their entrepreneurial reputation or implement strategies to consolidate their entrepreneurial endeavors within the current challenging environment      Entrepreneurial Universities

Marta Peris-Ortiz, Jaime Alonso Gómez, José M. Merigó-Lindahl, Carlos Rueda-Armengot, 2016-12-13 This book analyses the importance of the entrepreneurial university specifically in relation to the creation of entrepreneurial ideas and attitudes in students and entrepreneurial initiatives in academic institutions The aim of the editors and contributing authors is to provide the reader with a set of experiences illustrating the advantages of communicating and encouraging entrepreneurship among students thereby highlighting the third mission of the university the need to adopt entrepreneurial strategy without

disrupting the quality of teaching and research. Featuring initiatives from institutions around the world, the authors argue that the increasing importance of knowledge in the technical and social dimensions of today's world provides greater relevance to the entrepreneurial university. In this context, universities transcend their traditional focus on teaching and basic research to carry out technology transfers, marketing ideas, and patent registrations, and incorporate spin-off companies that contribute to industrial innovations, economic growth, and job creation. In the teaching dimension, the entrepreneurial university represents a focus on programs which train students in the applications and most advanced practices in knowledge-driven fields. The book addresses such questions as: Can marketing ideas deteriorate the quality of research in the long term? What importance does the cultural framework have for an entrepreneurial education? What circumstances and programs facilitate spin-offs in universities? What are the key features of entrepreneurial universities? In reference to entrepreneurship education in its broadest sense, then, it corresponds to the framework of ideas and general features on which entrepreneurship is founded: in-depth knowledge of the projects or ventures which they wish to carry out; capacity to perceive the relevant characteristics of the environment; and the leadership and goal setting skills to achieve success.

*Handbook on the Entrepreneurial University* Alain Fayolle, Dana T. Redford, 2014-01-01. This insightful Handbook offers a lens through which to view entrepreneurship strategy for higher education institutions as it becomes increasingly necessary for universities to consider changing their strategies, culture, and practices to become more entrepreneurial. Is the idea of an entrepreneurial university a myth or a reality? Is the university model capable of adapting to new, evolving trends and a more complex professional world? And what is the impact of entrepreneurship in education? Through extensive research and case studies from some of the leading entrepreneurial thinkers around the world, Alain Fayolle and Dana Redford answer these questions and raise further issues for debate. Particular focus is given to developing university strategy, public policy, and start-up support as a means to foster graduate entrepreneurship. Each contribution explores different perspectives related to the entrepreneurial university concept and its role in stimulating economic growth through cooperative relationships with business and government. As a comprehensive study of the entrepreneurial university, this Handbook will prove invaluable to business and entrepreneurship students and academics, as well as university administrators, researchers, and others interested in the evolution of the university.
