## **1999 Nunavut Handbook:**

The 1998 Nunavut Handbook Marion Soublière,1997      The ... Nunavut Handbook ,1999      **Nunavut** Jens Dahl,Jack Hicks,Peter Jull,2000 The Nunavut story told in this book by authors who have all been involved with Nunavut and Inuit politics for a very long time is an important one for indigenous peoples around the world and for anyone interested in indigenous issues Stressing the political dynamics of the beginning of Nunavut s autonomous life the authors provide a clear and accurate account of a remarkable political process Following an introductory focus on three fundamental questions Why did Nunavut come to life what are the challenges and opportunities to come and what is to be learned from this experience the book continues with an investigation of Nunavut its history and structure and the most recent developments and their impact on the people of Nunavut      *A Place called Nunavut* Kim van Dam,2008-12-31 In 1999 Nunavut Territory was created in the Canadian Arctic The area is about 50 times as large as the Netherlands and is inhabited by a population of 30 000 85% of the population is Inuit the indigenous people in this area The central questions in this research project are what place or regional identities are being ascribed to Nunavut by different groups of people from within and from outside the region and how do these identities work In the process of the formation of the region the territorial Government of Nunavut is an important actor in producing a regional identity that is based on the cultural identity of the Inuit the Inuit Homeland This official regional identity creates a symbolic unity that is important in linking people to the region and through which the land the history and the people are united in a new territorial membership However there is no reason to assume that there is only one regional identity for Nunavut Different individuals or groups of people from within and from outside the region such as the people who live in one of the 25 communities and those who work for the multinational mining corporations or as tourist operators are also involved in the production and reproduction of identities for Nunavut They represent Nunavut for example as a place to live a resource region a wilderness or as a sustainable place Nunavut Government also links these alternative identities to the area because as a government they are not only interested in protecting Inuit culture but also aim to modernize the economy in order to enhance prosperity and well being As such the place identities are hybrid and identities that before were produced only by external actors are now also being produced by internal actors and vice versa

**Routledge Handbook of Climate Change Impacts on Indigenous Peoples and Local Communities** Victoria Reyes-García, 2023-12-26 This Handbook examines the diverse ways in which climate change impacts Indigenous Peoples and local communities and considers their response to these changes While there is well established evidence that the climate of the Earth is changing the scarcity of instrumental data oftentimes challenges scientists ability to detect such impacts in remote and marginalized areas of the world or in areas with scarce data Bridging this gap this Handbook draws on field

research among Indigenous Peoples and local communities distributed across different climatic zones and relying on different livelihood activities to analyse their reports of and responses to climate change impacts. It includes contributions from a range of authors from different nationalities, disciplinary backgrounds and positionalities, thus reflecting the diversity of approaches in the field. The Handbook is organised in two parts. Part I examines the diverse ways in which climate change alone or in interaction with other drivers of environmental change affects Indigenous Peoples and local communities. Part II examines how Indigenous Peoples and local communities are locally adapting their responses to these impacts. Overall, this book highlights Indigenous and local knowledge systems as an untapped resource which will be vital in deepening our understanding of the effects of climate change. The Routledge Handbook of Climate Change Impacts on Indigenous Peoples and Local Communities will be an essential reference text for students and scholars of climate change, anthropology, environmental studies, ethnobiology and Indigenous studies. **Inuit Women** Janet Mancini Billson, Kyra Mancini, 2007. *Inuit Women* is the definitive study of the Inuit during a time of rapid change. Based on fourteen years of research and fieldwork, this analysis focuses on the challenges facing Inuit women as they enter the twenty-first century. Written shortly after the creation of Nunavut, a new province carved out of traditional Inuit homelands in the Canadian North, this compelling book combines conclusions drawn from the authors' ethnographic research with the stories of Inuit women and men told in their own words. In addition to their presentation of the personal portraits and voices of many Inuit respondents, Janet Mancini Billson and Kyra Mancini explore global issues: the impact of rapid social change and Canadian resettlement policy on Inuit culture, women's roles in society and gender relations in Baffin Island in the Eastern Arctic. They also include an extensive section on how the newly created territory of Nunavut is impacting the lives of Inuit women and their families. Working from a research approach grounded in feminist theory, the authors involve their Inuit interviewees as full participants in the process. This book stands alone in its attention to Inuit women's issues and lives and should be read by everyone interested in gender relations, development, modernization, globalization and Inuit culture.

*Senses of Place: Senses of Time* G.J. Ashworth, 2017-03-02. Bringing together case studies from Ireland, the Netherlands, Canada, Germany and Mexico, this book examines the link between senses of place and senses of time. It suggests that not only do place identities change through time, but imagined pasts also provide resources which the present selects and packages for its own contemporary purposes and for forwarding to imagined futures. The reasons behind the creation of place image are also explored, setting them within political and social contexts. In its three main sections: *Heritage in the Creation of Senses of Place*, *Heritage and Conflicting Identities*, and *Heritage and the Creation of Senses of Place*, the book examines the creation of place identities at the urban, rural, regional and international scales. It questions how senses of place interact with senses of ethnic cultural identity, what the roles of government, media, residents and tourists are

in creating senses of place and how and why all these variables change through time **Canada and the Idea of North**  
Sherrill E Grace, 2002-04-15 *Canada and the Idea of North* examines the ways in which Canadians have defined themselves as a northern people in their literature art music drama history geography politics and popular culture From the Franklin Mystery to the comic book superheroine Nelvana Glenn Gould's documentaries the paintings of Lawren Harris and Molson beer ads the idea of the north has been central to the Canadian imagination Sherrill Grace argues that Canadians have always used ideas of Canada as North to promote a distinct national identity and national unity In a penultimate chapter *The North Writes Back* Grace presents newly emerging northern voices and shows how they view the long tradition of representing the North by southern activists artists and scholars With the recent creation of Nunavut increasing concern about northern ecosystems and social challenges and renewed attention to Canada's role as a circumpolar nation *Canada and the Idea of North* shows that nordicity still plays an urgent and central role in Canada at the start of the twenty first century
