Oversight of the 2000 Census United States. Congress. House. Committee on Government Reform and Oversight. Subcommittee on the Census,1998 **2000 Census** James H. Burow,1998-08 Provides information on the progress that the Census Bureau has made on its plans for carrying out the 2000 Decennial Census and assesses whether the Bureau has demonstrated the feasibility of its plans Evaluates initiatives including 1 simplified and streamlined census questionnaires 2 multiple mail contacts to prompt a response 3 increased use of the Postal Service to improve the master address file for the census and identify vacant and nonexistent housing units and 4 the use of statistical sampling and estimation procedures aimed at reducing the cost and increasing the accuracy of the census Also includes a 28 page report by the Bureau of the Census *Census 2000 Planning for the 2000 Round of Poupaiton and Housing Census* *105-2 Hearing: Oversight of the 2000 Census: Serious Problems with Statistical Adjustment Remain, September 17, 1998* ,1999 **Indexes for Abstracts of Reports and Testimony** ,1998 **Observations on the Census Dress Rehearsal and Implications for Census 2000** United States. Congress. Senate. Committee on Governmental Affairs,1998 [2000 Census Progress Made on Design But Risks Remain](#) ,1997 **Decennial Census** J. Christopher Mihm,1999-05 Furnishes background and a historical perspective in the debate on policy and operational questions related to the 2000 Census It is organized by decennial census concepts and discusses critical issues that emerged during decennial censuses as far back as 1790 This report describes the Census Bureau s plans for the 2000 Census but it does not evaluate the potential for success of the 2000 Census Short answers to some frequently asked questions about the decennial census are included Also contains information on changes in the apportionment of the membership of the House of Representatives between the 1920 and 1990 Censuses **2010 Census: Preliminary Lessons Learned Highlight the Need for Fundamental Reforms** Robert Goldenkoff,2011-08 The 2010 Census was added to a list of high risk programs in 2008 in part because of 1 long standing weaknesses in the Census Bureau s CB info tech acquisition and contract mgmt function 2 difficulties in developing reliable life cycle cost estimates and 3 key operations that were not tested under operational conditions These issues jeopardized the CB s readiness for the count Moreover concerns over privacy have made a cost effective census an increasingly difficult challenge At 13 billion 2010 was the costliest U S Census in history This testimony focuses on lessons learned from the 2010 Census and initiatives that show promise for producing a more cost effective population count in 2020 Illus This is a print on demand report **2010 Census** Robert Goldenkoff,2011-05 Although the U S Census Bureau generally completed the field data collection phase of the 2010 Census consistent with its operational plans at 13 billion 2010 was the costliest census in the nation s history Moving forward it will be important to both refine existing operations as well as to address long standing issues such as securing participation and escalating costs This report reviews 1 the conduct of non response follow up where enumerators collect data from households that did not return their census forms 2 the implementation of other field operations critical to a

complete count and 3 potential re examination areas that could help produce a more cost effective 2020 Census Illustrations

Bushmanders & Bullwinkles Mark Monmonier,2001-02-15 For years Mark Monmonier a prose stylist of no mean ability or charm according to the Washington Post has delighted readers with his insightful understanding of cartography as an art and technology that is both deceptive and revealing Now he turns his focus to the story of political cartography and the redrawing of congressional districts His title Bushmanders and Bullwinkles combines gerrymander with the surname of the president who actively tolerated racial gerrymandering and draws attention to the ridiculously shaped congressional districts that evoke the antlers of the moose who shared the cartoon spotlight with Rocky the Flying Squirrel Written from the perspective of a cartographer rather than a political scientist Bushmanders and Bullwinkles examines the political tales maps tell when votes and power are at stake Monmonier shows how redistricting committees carve out favorable election districts for themselves and their allies how disgruntled politicians use shape to challenge alleged racial gerrymanders and how geographic information systems can make reapportionment a controversial process with outrageous products He also explores controversies over the proper roles of natural boundaries media maps census enumeration and ethnic identity Raising important questions about Supreme Court decisions in regulating redistricting Monmonier asks if the focus on form rather than function may be little more than a distraction from larger issues like election reform Characterized by the same wit and clarity as Monmonier s previous books Bushmanders and Bullwinkles is essential background for understanding what might prove the most contentious political debate of the new decade *United States Congressional Serial Set, No. 14689, Senate Reports No. 1-15 , Abstracts of Reports and Testimony* ,1997 **Fiscal Year 1999 Budget Authorization**
