The Annotated Innocence of Father Brown G. K.

Chesterton, 2012-04-26. Father Brown, an ordinary priest whose unremarkable exterior conceals extraordinary crime-solving ability, is celebrated for his solutions to metaphysical mysteries, a genre perfected by his creator G. K. Chesterton. More than lighthearted comedies built around puzzling crimes, these superbly written tales contain deeply perceptive philosophical reflections. The Innocence of Father Brown (1911) was the first collection of stories featuring the ecclesiastical sleuth and is widely considered the best. In this annotated edition of the collection, the Chesterton scholar Martin Gardner provides detailed notes and background information on various aspects of such stories as *The Blue Cross*, *The Secret Garden*, *The Invisible Man*, *The Hammer of God*, *The Eye of Apollo*, and seven more, as well as an informative introduction and an extensive bibliography. Included also are eight illustrations reproduced from the first edition. The result is an indispensable companion for all Chesterton enthusiasts and a perfect introduction for anyone who has yet to meet the incomparable Father Brown.

Mystery Women Colleen Barnett, 2010-03. Edgar and Agatha nominated author Colleen Barnett here updates her essential reference for readers and writers of mystery, examining women who detect women as sleuths and the evolving roles of women in professions and in society.

Oxford in English Literature John

Dougill, 1998. As the English Athens, Oxford has long been seen as central to England's intellectual life. For over six centuries the city has been lauded, slighted, and cited in the pages of English literature. While it has been hailed as the embodiment of excellence, beauty, and truth, on the one hand it has also been attacked for its elitism, insularity, and traditionalism. On the other, Oxford in English Literature provides for the first time an overview of these literary representations, ranging from Chaucer's account of medieval students to modern-day detective stories set in the city. The book begins with the early university, possibly founded by an eighth-century princess named Frideswide. The volume moves on through the Middle Ages with Chaucer's clerks and Foxe's martyrs. Oxford in English Literature touches on more recent centuries with Lewis Carroll and Alice in Wonderland, Matthew Arnold, Max Beerbohm, and Evelyn Waugh, and the infamous St. Oscar. Following the rise of the colleges, the literature becomes characterized by a sense of insulation; for the closed collegiate structure led to elitism and

eccentricity The notion of the university as a paradise of youth beauty and intelligence led to the so called Oxford myth and the backlash against it after World War II The underlying argument of John Dougill s work is that the defining symbol of Oxford is not so much the dreaming spire as the college wall In Oxford literature the college is depicted as a world of its own secluded conservative and eccentric driven by its own rituals Idealized it becomes a cloistered utopia an Athenian city state a fantasy wonderland or an Arcadian idyll Exclusivity led to resentment from those on the outside as is evident in Thomas Hardy s *Jude the Obscure* With the advent of democratic and egalitarian values in the twentieth century the privilege and elitism of the university has come under increasing attack as has the whole notion of the English Athens Oxford in English Literature is aimed at the general reader interested in the literature and history of a very unusual town Its familiar subject and the inclusion of numerous rare and specially commissioned illustrations and photographs make this a compelling book John Dougill is Associate Professor of English Literature Ryukoku University Kyoto Japan He is an Oxford graduate and author of *The Writers of English Literature*

Investigating Identities, 2009-01-01 Investigating Identities Questions of Identity in Contemporary International Crime Fiction is one of the relatively few books to date which adopts a comparative approach to the study of the genre This collection of twenty essays by international scholars examining crime fiction production from over a dozen countries confirms that a comparative approach can both shed light on processes of adaptation and appropriation of the genre within specific national regional or local contexts and also uncover similarities between the works of authors from very different areas Contributors explore discourse concerning national and historical memory language race ethnicity culture and gender and examine how identity is affirmed and challenged in the crime genre today They reveal a growing tendency towards hybridization and postmodern experimentation and increasing engagement with philosophical enquiry into the epistemological dimensions of investigation Throughout the notion of stable identities is subject to scrutiny While each essay in itself is a valuable addition to existing criticism on the genre all the chapters mutually inform and complement each other in fascinating and often unexpected ways This volume makes an important contribution to the growing field of crime fiction studies and to ongoing debates on questions of identity It will therefore be of special interest to students and scholars of the crime genre identity studies and comparative literature It will also appeal to all who enjoy reading contemporary crime fiction
