Pasquale De Marco

Creating Societies:

Creating Societies Dirk Hoerder, 2000 The birth of Canada as a society and a nation has often been told from the narrow perspective of the founding nations These versions have left little room for the everyday experiences of a wide variety of individual immigrants who have had to adjust

Creating Democratic Societies Plamen Makariev, Andrew M. Blasko, Asen Davidov, 1999

How To Create Societies for Human Wellbeing Matthew Fisher, 2024-10-15 Wellbeing is a hot topic governments psychologists and a thousand self appointed experts all claim to promote it and yet our societies are experiencing record levels of mental distress and ill health Why Matthew Fisher presents a compelling new perspective on psychological wellbeing informed by evidence on human stress responses He shows how our mental health is shaped by the social and cultural conditions in which we all live Developing arguments and strategies for a society truly committed to wellbeing this book offers new ways to understand the problems facing modern societies and ways to respond through political and social change

How to Make Societies Thrive? Coordinating Approaches to Promote Well-being and Mental Health OECD, 2023-10-17 This report uses the OECD Well being Framework to systematically review how people s economic social relational civic and environmental experiences shape and are in turn shaped by their mental health Based on this evidence examples of co benefits or policy interventions that can jointly improve both mental health and other well being outcomes are identified for a range of government departments

Creating a Healing Society Susan Lawrence M D, Susan E. Lawrence, 2006 Dr Susan Lawrence s Creating a Healing Society program pioneers the recognition of the devastating impact of human emotional pain and trauma as the root cause of societal and world problems Without healthy support traumatized people unconsciously influenced by inner pain engage in self destructive or antisocial behaviors We are accustomed to thinking about the impact of trauma on the individual but rarely notice the dramatic effect that trauma has on our society The cumulative result of these pain driven behaviors can be seen in the epidemics of AIDS Hepatitis C drug addiction and alcoholism in our violent and crime ridden society in unemployment homelessness and poverty in the ongoing cycle of child abuse and neglect and on an international level in terrorism and war In Creating a Healing Society Dr Lawrence describes her work with alcoholics AIDS patients prisoners and others dying of what one of her clients calls the delayed effects of child abuse Through concrete examples she shows that people can turn their lives around and by doing so change the quality of our entire society

Creating an Ecological Society Fred Magdoff, Chris Williams, 2017-05-29 Aiming squarely at replacing capitalism with an ecologically sound and socially just society Magdoff and Williams provide accounts of how a new world can be created from the ashes of the old They show that it is possible to envision and create a society that is genuinely democratic equitable and ecologically sustainable And possible not one moment too soon for society to change fundamentally and be brought into harmony with nature From publisher description

Creating a Learning Society? Gorard, Stephen, Rees, Gareth, 2002-05-22 This book presents a highly innovative study of participation in lifelong learning

and the problems which need to be overcome if lifelong learning policies are to be successful. It provides a systematic analysis based on innovative empirical research of the social and economic realities which actually determine patterns of participation in lifelong learning. Shows what the factors are that shape people's participation or their decision not to participate. Offers new insights into the processes of lifelong learning which have important implications for the development of more effective policies. Creating a learning society is a stimulating read for lifelong learning practitioners as well as policy makers and researchers in this field.

Principles of Sustainable Business Rob van Tulder, Eveline van Mil, 2022-11-04

The basic function of companies is to add value to society. Profits are a means to an end, not an end in itself. The ability of companies to innovate, scale and invest provides them with a powerful base for positive change. But companies are also criticized for not contributing sufficiently to society's grand challenges. An increasingly VUCA (Volatile, Uncertain, Complex and Ambiguous) world creates serious governance gaps that not only require new ways of regulation but also new ways of doing business. Can companies effectively contribute to sustainable development and confront society's systemic challenges? Arguably the most important frame to drive this ambition was introduced and unanimously adopted in 2015: the Sustainable Development Goals (SDGs). The SDG agenda not only defines a holistic set of global goals and targets but also foundational principles to guide meaningful action to their achievement by 2030. Multinational companies have signed up to the SDGs as the world's long-term business plan. Realizing the SDGs provides a yearly 12 trillion investment and growth opportunity while creating hundreds of millions of jobs in the process. But progress is too slow; witnessing society's inability to deal with pressing human, ecological, economic and health crises whilst the vast potential for societal value creation remains underutilized. This book provides a timely account of the systemic strategic and operational challenges that need to be addressed to enhance the effectiveness of corporate involvement in society by using the SDGs as the leading principles-based framework for actionable, powerful and transformative change.

Principles of Sustainable Business is written for graduate and postgraduate executive students, policymakers and business professionals who want to understand the complex challenges of global sustainability. It shows how companies can design and implement SDG-relevant strategies at three levels: the macro level to assess whether the SDGs present wicked problems or opportunities; the micro level to develop and operationalize innovative business models; design new business cases and navigate organizational transition trajectories; and the meso level to develop fit-for-purpose cross-sector partnering strategies.

Principles of Sustainable Business presents innovative tools embedded in a coherent sequence of analytical frameworks that can be applied in courses for students, be put into practice by business professionals and used by action researchers to help companies contribute to the Decade of Action.

Creating a Learning Society Joseph E. Stiglitz, Bruce C. Greenwald, 2015-10-06

A superb new understanding of the dynamic economy as a learning society, one that goes well beyond the usual treatment of education, training and R D. Robert Kuttner, author of *The Stakes 2020* and *The Survival of American Democracy*. Since its publication, *Creating a Learning Society* has served as an

effective tool for those who advocate government policies to advance science and technology It shows persuasively how enormous increases in our standard of living have been the result of learning how to learn and it explains how advanced and developing countries alike can model a new learning economy on this example Creating a Learning Society Reader's Edition uses accessible language to focus on the work's central message and policy prescriptions As the book makes clear creating a learning society requires good governmental policy in trade industry intellectual property and other important areas The text's central thesis that every policy affects learning is critical for governments unaware of the innovative ways they can propel their economies forward Profound and dazzling In their new book Joseph E Stiglitz and Bruce C Greenwald study the human wish to learn and our ability to learn and so uncover the processes that relate the institutions we devise and the accompanying processes that drive the production dissemination and use of knowledge This is social science at its best Partha Dasgupta University of Cambridge An impressive tour de force from the theory of the firm all the way to long term development guided by the focus on knowledge and learning This is an ambitious book with far reaching policy implications Giovanni Dosi director Institute of Economics Scuola Superiore Sant Anna A sweeping work of macroeconomic theory Harvard Business Review **Minds Make Societies** Pascal Boyer, 2018-05-08 A scientist integrates evolutionary biology genetics psychology economics and more to explore the development and workings of human societies There is no good reason why human societies should not be described and explained with the same precision and success as the rest of nature Thus argues evolutionary psychologist Pascal Boyer in this uniquely innovative book Integrating recent insights from evolutionary biology genetics psychology economics and other fields Boyer offers precise models of why humans engage in social behaviors such as forming families tribes and nations or creating gender roles In fascinating thought provoking passages he explores questions such as Why is there conflict between groups Why do people believe low value information such as rumors Why are there religions What is social justice What explains morality Boyer provides a new picture of cultural transmission that draws on the pragmatics of human communication the constructive nature of memory in human brains and human motivation for group formation and cooperation Cool and captivating It will change forever your understanding of society and culture Dan Sperber co author of The Enigma of Reason It is highly recommended to researchers firmly settled within one of the many single disciplines in question Not only will they encounter a wealth of information from the humanities the social sciences and the natural sciences but the book will also serve as an invitation to look beyond the horizons of their own fields Eveline Seghers Evolutionary Studies in Imaginative Culture *Creating a Democratic Civil Society in Eastern Germany* C. Olivo, 2001-05-03 This book examines normative theories of civil society and deliberative democracy by using a case study of the East German citizen movements that led the democratic opposition against the communist regime These movements espoused political ideals and engaged in public activities with striking affinities to recent normative theoretical conceptions of civil society Tracing the history of the citizen movements from the 1970s through

the 1990s this study analyzes their attempts to transform German politics through a politics of civil society This case reveals the democratic potential of civil society theories as well as the obstacles facing the realization of alternative visions of democracy in contemporary liberal democracies

Beyond Homo Sapiens Mariú Suárez,2011-05-31 Beyond Homo Sapiens Enlightened Faith is the last book of the Beyond Homo Sapiens trilogy It concludes the series mystical political review of the historical events of the last 5 000 years with the struggle of progressive thinkers and activists to help people recognize their universality and achieve enlightenment during the last 140 years The ongoing fight for human rights and social justice is a battle against the interests of the privileged few who work to stay in power by keeping the masses anchored in their automatic reactions of self defense and in fighting immediate gratification and reproduction Advances in human knowledge can lead us to our next phase of evolution one that must be made consciously Quantum physics has shown us that the wall of separation we perceive between everything that exists in the universe and therefore between matter and energy subject and object is not really there Matter is not solid and space is not empty The same particles that make up a table are interwoven with the air around it and with the table s owner Once all of humanity accepts this vision of matter as a single but multiform creative energy event we can begin a new era and the possibility of enlightened faith

The Multilevel Community Engagement Model Muhammad Hassan Raza,2024-09-09 Helping to address important and immediate contemporary societal needs and issues and achieve positive and sustainable outcomes this book provides an inclusive engaged and systematic framework to develop implement and evaluate key programs

The White Savior's Burden Pasquale De Marco,2025-07-24 Drawing on a wide range of perspectives and case studies this book examines the ways in which race continues to shape the dynamics of development and perpetuate global inequalities It challenges the dominant narratives of development and offers alternative approaches that prioritize equity justice and the self determination of communities One of the key arguments of this book is that the concept of whiteness is central to understanding the power dynamics in development Whiteness as a social construct has historically been associated with superiority privilege and dominance In the context of development whiteness often manifests itself in the form of paternalistic attitudes savior complexes and the assumption that Western knowledge and solutions are universally applicable This can lead to the devaluation of local knowledge and expertise and the imposition of policies that are not in the best interests of the communities they are intended to serve The book also explores the environmental impact of development arguing that the pursuit of economic growth and modernization has often come at a great cost to the environment particularly in developing countries The extraction of natural resources the pollution of air and water and the destruction of ecosystems have disproportionately affected marginalized communities further exacerbating poverty and inequality The book concludes by calling for a transformative approach to development one that is based on principles of equity justice and sustainability This approach must challenge the dominant narratives of development dismantle systemic racism and empower communities to

chart their own path towards a more just and sustainable future This book is essential reading for anyone interested in development race and social justice It is a timely and important contribution to the ongoing debate on how to create a more just and equitable world If you like this book write a review

TRIO: Three Sherlock Holmes Mysteries That Introduce Us to Cultural Studies Arthur Asa Berger, 2024-12-03 TRIO reprints three Sherlock Holmes novellas I wrote Freud is Fixated Marx Est Mort and My Name is Sherlock Holmes which provide a novel literally and figuratively introduction to cultural studies This book is meant to do two things be entertaining and also teach my readers something about psychoanalytic theory Marxist theory and the interdisciplinary field known as cultural studies Books such as TRIO are sometimes described as Infotainments combining both information and entertainment Each chapter is introduced by quotations of interest and I also provide bibliographies and at the end of the book a glossary In this book as he tries to solve each crime Sherlock Holmes interrogates some of the most important thinkers of the twentieth century Which means this book is full of ideas about all kinds of things In some cases the dialogue comes from the writings of the thinkers Holmes is questioning I've had to sacrifice my narrative line to pump as much ideational content into the stories as possible so these novels are didactic in nature but they are still works of fiction but of an unusual kind I have taken some minor liberties with the punctuation and repeat myself at times in different places in different books Teaching cultural studies by using Sherlock Holmes mysteries is an unusual way to instruct students and readers I hope after reading this book you will think it was worth your effort and mine
