Creating A Hoosier Self Portrait:

Creating a Hoosier Self-Portrait George T. Blakey, 2005-04-20 From 1935 to 1942 the Indiana office of the Federal Writers Program hired unemployed writers as field workers to create a portrait in words of the land the people and the culture of the Hoosier state This book tells the story of the project and its valuable legacy Beginning work under the guidance of Ross Lockridge whose son would later burst onto the American literary scene with his novel Raintree County the group would eventually produce Indiana A Guide to the Hoosier State Hoosier Tall Stories and other publications Though many projects were never brought to completion the Program s work remains a useful and rarely tapped storehouse of information on the history and culture of the state **Paul V. McNutt and the Age of FDR** Dean J. Kotlowski, 2015-01-02 This definitive biography of Indiana Gov Paul V McNutt shows the politician s importance on the national stage through the Great Depression and WWII Indianapolis Star The 34th Governor of Indiana head of the WWII Federal Security Agency and ambassador to the Philippines Paul V McNutt was a major figure in mid twentieth century American politics whose White House ambitions were effectively blocked by his friend and rival Franklin Delano Roosevelt This historical biography explores McNutt s life his era and his relationship with FDR McNutt s life underscores the challenges and changes Americans faced during an age of economic depression global conflict and decolonialization With extensive research and detail biographer Dean J Kotlowski sheds light on the expansion of executive power at the state level during the Great Depression the theory and practice of liberalism as federal administrators understood it in the 1930s and 1940s the mobilization of the American home front during World War II and the internal dynamics of the Roosevelt and Truman administrations Everybody's History Keith A. Erikson, 2012 How a group of nonprofessional historians forced a reassessment of Abraham Lincoln's life story **Hoosiers** James H. Madison, 2014-08-05 The story of this Midwestern state and its people past and present An entertaining and fast read Indianapolis Star Who are the people called Hoosiers What are their stories Two centuries ago on the Indiana frontier they were settlers who created a way of life they passed to later generations They came to value individual freedom and distrusted government even as they demanded that government remove Indians sell them land and bring democracy Down to the present Hoosiers have remained wary of government power and have taken care to guard their tax dollars and their personal independence Yet the people of Indiana have always accommodated change exchanging log cabins and spinning wheels for railroads cities and factories in the nineteenth century automobiles suburbs and foreign investment in the twentieth The present has brought new issues and challenges as Indiana s citizens respond to a rapidly changing world James H Madison s sparkling new history tells the stories of these Hoosiers offering an invigorating view of one of America s distinctive states and the long and fascinating journey of its people American Culture in the 1930s David Eldridge, 2008-10-08 This book provides an insightful overview of the major cultural forms of 1930s America literature and drama music and radio film and photography art and design and a chapter on the role of the federal government in the

development of the arts The intellectual context of 1930s American culture is a strong feature whilst case studies of influential texts and practitioners of the decade from *War of the Worlds* to *The Grapes of Wrath* and from Edward Hopper to the Rockefeller Centre help to explain the cultural impulses of radicalism nationalism and escapism that characterize the United States in the 1930s *Republic of Detours* Scott Borchert, 2025-09-23 A New York Times Book Review Editors Choice Winner of the New Deal Book Award An immersive account of the New Deal project that created state by state guidebooks to America in the midst of the Great Depression and employed some of the biggest names in American letters The plan was as idealistic as it was audacious and utterly unprecedented Take thousands of hard up writers and put them to work charting a country on the brink of social and economic collapse with the aim of producing a series of guidebooks to the then forty eight states along with hundreds of other publications dedicated to cities regions and towns while also gathering reams of folklore narratives of formerly enslaved people and even recipes all of varying quality each revealing distinct sensibilities All this was the singular purview of the Federal Writers Project a division of the Works Progress Administration founded in 1935 to employ jobless writers from once bestselling novelists and acclaimed poets to the more dubiously qualified The FWP took up the lofty goal of rediscovering America in words and soon found itself embroiled in the day s most heated arguments regarding radical politics racial inclusion and the purpose of writing forcing it to reckon with the promises and failures of both the New Deal and the American experiment itself Scott Borchert s *Republic of Detours* tells the story of this raucous and remarkable undertaking by delving into the experiences of key figures and tracing the FWP from its optimistic early days to its dismemberment by the House Committee on Un American Activities We observe notable writers at their day jobs including Nelson Algren broke and smarting from the failure of his first novel Zora Neale Hurston the most widely published Black woman in the country and Richard Wright who arrived in the FWP s chaotic New York City office on an upward career trajectory courtesy of the WPA Meanwhile Ralph Ellison Studs Terkel John Cheever and other future literary stars found encouragement and security on the FWP payroll By way of these and other stories Borchert illuminates an essentially noble enterprise that sought to create a broad and inclusive self portrait of America at a time when the nation s very identity and future were thrown into question As the United States enters a new era of economic distress political strife and culture industry turmoil this book s lessons are urgent and strong **From Pioneering to Persevering** Paul Salstrom, 2007 Indiana s pioneers came to southern Indiana to turn the dream of an America based on family farming into a reality The golden age prior to the Civil War led to a post War preserving of the independent family farmer Salstrom examines this independence and finds the label to be less than adequate Hoosier farming was an inter dependent activity leading to a society of borrowing and loaning When people talk about supporting family farming as Salstrom notes the issue is a societal one with a greater population involved than just the farmers themselves **American Night** Alan M. Wald, 2012-10-15 *American Night* the final volume of an unprecedented trilogy brings Alan Wald s multigenerational history of Communist

writers to a poignant climax Using new research to explore the intimate lives of novelists poets and critics during the Cold War Wa Nebraska during the New Deal Marilyn Irvin Holt,2019-12-01 As a New Deal program the Federal Writers Project FWP aimed to put unemployed writers teachers and librarians to work The contributors were to collect information write essays conduct interviews and edit material with the goal of producing guidebooks in each of the then forty eight states and U S territories Project administrators hoped that these guides known as the American Guide Series would promote a national appreciation for America s history culture and diversity and preserve democracy at a time when militarism was on the rise and parts of the world were dominated by fascism Marilyn Irvin Holt focuses on the Nebraska project which was one of the most prolific branches of the national program Best remembered for its state guide and series of folklore and pioneer pamphlets the project also produced town guides published a volume on African Americans in Nebraska and created an ethnic study of Italians in Omaha In Nebraska during the New Deal Holt examines Nebraska s contribution to the project both in terms of its place within the national FWP as well as its operation in comparison to other state projects **Republic on the Wire** John McMurria,2017-02 The history of cable television in America is far older than networks like MTV ESPN and HBO which are so familiar to us today Tracing the origins of cable TV back to the late 1940s media scholar John McMurria also locates the roots of many current debates about premium television cultural elitism minority programming content restriction and corporate ownership Republic on the Wire takes us back to the pivotal years in which media regulators and members of the viewing public presciently weighed the potential benefits and risks of a two tiered television system split between free broadcasts and pay cable service Digging into rare archives McMurria reconstructs the arguments of policymakers whose often sincere advocacy for the public benefits of cable television were fueled by cultural elitism and the priority to maintain order during a period of urban Black rebellions He also tells the story of the people of color rural residents women s groups veterans seniors and low income viewers who challenged this reasoning and demanded an equal say over the future of television By excavating this early cable history and placing equality at the center of our understanding of media democracy Republic on the Wire is a real eye opener as it develops a new methodology for studying media policy in the past and present **Bloom** ,2008 **Indianapolis Monthly** ,2002-08 Indianapolis Monthly is the Circle City s essential chronicle and guide an indispensable authority on what s new and what s news Through coverage of politics crime dining style business sports and arts and entertainment each issue offers compelling narrative stories and lively urbane coverage of Indy s cultural landscape *Subsidizing Culture* James T. Bennett,2017-07-05 In the American mind state subsidization of writers and artists was long associated with monarchies and in later years socialist states The support these regimes gave to intellectuals was understood to come with a cost yet beginning with the New Deal s Federal Writers Art and Theater Projects a new policy consensus asserted that by offering financial support to the arts the federal government was affirming their importance to the nation *Subsidizing Culture* examines the development of and controversies surrounding

federal programs that directly benefit writers artists and intellectuals James T Bennett examines four cases of such support the New Deal s Federal Writers Art and Theater Projects the vigorous promotion in the post World War II and early Cold War eras of abstract expressionism and other forms of modern art by the US government the National Endowment for the Arts NEA which has fortified its position as the preeminent arts bureaucracy and the National Endowment for the Humanities the NEA s less embattled twin which funnels monies to scholars Bennett concentrates on the creation of and the debate over these government programs and he gives special attention to the critics who are usually ignored He reminds us that the chorus of anti subsidy voices over the years has included such disparate figures as writers William Faulkner and John Updike artists John Sloan and Wheeler Williams and social critics Jacques Barzun and H L Mencken
