Transparency and American Primacy in

World Politics James J. Marquardt, 2016-02-24 At a time when greater transparency is needed this book advances a novel explanation of America's efforts to advance greater transparency in international relations Marquardt argues that American statesmen have long sought to secure an American dominated international system to encourage states to be more open and forthcoming about their internal affairs Yet the United States routinely uses its calls for military transparency in particular as a policy instrument to discipline its rivals and therefore paradoxically contributes to greater tension in international relations In contrast to conventional thinking about transparency in relation to overcoming power politics and promoting international cooperation this book explores the relationship between America's power and international security competition Though analytically distinct openness and transparency have served the same strategic goal ensuring America's position of preponderance in the international system

The Politics of Transparency in Modern American Fiction Paula Martín Salván, Sascha Pöhlmann, 2024 A much needed contribution to and critique of debates in the newly emerging field of transparency studies from the perspective of American literary studies In the twenty first century transparency has become an ambiguous buzzword both in the public and the private realms e g Wikileaks and the Snowden affair social media This volume takes its cue from the emerging field of transparency studies recent scholarly work in sociology political theory and cultural studies that identifies a hegemonic rhetoric of transparency in public and political life While scholars in this new field routinely gesture toward literature as the realm where secrecy may be productive they rarely engage with literature directly and literary studies itself remains notably absent from their debates This collection of essays seeks to redress that state of affairs by focusing on literary texts written in an American cultural tradition steeped in the interplay between transparency and exposure fear and secrecy security and surveillance and information and disinformation The essays draw on authors ranging from Whitman James and Ellison to Pynchon Morrison and Eggers to argue that American literature complicates theoretical assumptions about transparency made in other disciplines They question the field's strong theoretical emphasis on present day technopolitical practices and discourses as the location of hegemonic discourse on transparency and instead historicize such phenomena and extend them to discursive spheres that have so far been neglected such as issues of sexuality and race Edited by Paula Martín Salván and Sascha Pöhlmann Contributors Tomasz Basiuk Jesús Blanco Hidalgo Cristina Chevere San Julia Faisst Michel Feith Julián Jimenez Heffernan Tiina Kakeel a Juan López de Luque Umberto Rossi Jelena Sesnić Toon Staes Julia Straub Alice Sundman
