Alternative Energy Strategies: Options in energy policy ,1974 **Efficient Strategy to Support Renewable Energy** Helge Sigurd Næss-Schmidt,2013-05-21 This report reviews how the Nordic countries can develop a strategy for renewable energy that delivers efficiently on the two underlying policy objectives of climate change and energy security challenges The overarching elements in the evaluation of existing policies and the policy recommendations that follows from the analysis falls into three main parts i Expanding renewable energy is not an end in itself but a tool to deliver on the two real policy targets climate change and energy security ii Too much policy focus at the Nordic and EU level is dedicated to boost renewable energy share of energy production in the near term and insufficient resources are allocated to develop future low carbon technologies which are required when CO2 abatement targets become more ambitious iii The long term nature of the challenges and huge investments in low carbon technologies required to deliver on long term targets puts a very high

premium on policies that reduces policy risks as perceived by investors
