Bender, 2016-11-07 Tracing the global trade and trafficking in animals that supplied U S zoos Daniel Bender shows how Americans learned to view faraway places through the lens of exotic creatures on display He recounts the public's conflicted relationship with zoos decried as prisons by activists even as they remain popular centers of education and preservation **Chunky, the Happy Hippo: His Many Adventures** Richard Barnum, 2022-07-21 Chunky the Happy Hippo is a fascinating story about a jolly baby hippo This delightful tale presents the many adventures of Chunky as he makes new friends and is taken to be trained by a circus company This book is a perfect bedtime story filled with amusing characters and an incredible plot **Veterinary Science: Breakthroughs in Research and Practice** Management Association, Information Resources, 2018-05-04 Modern medicine is changing drastically as new technologies emerge to transform the way in which patients are diagnosed treated and monitored In particular veterinary medicine is experiencing a tremendous shift as digital innovations are integrated into veterinary practice Veterinary Science Breakthroughs in Research and Practice contains a compendium of the latest academic material on breakthroughs and recent progress in veterinary science Including innovative studies on laboratory information management systems animal welfare and veterinary reform this publication is an ideal source for professionals practitioners graduate students and researchers interested in veterinary science *The Welfare of Performing Animals* David A. H. Wilson, 2015-02-20 This timely book describes and analyses a neglected area of the history of concern for animal welfare discussing the ends and means of the capture transport housing and training of performing animals as well as the role of pressure groups politics the press and vested interests It examines primary source material of considerable interdisciplinary interest and addresses the influence of scientific and veterinary opinion and the effectiveness of proposals for supervisory legislation noting the current international status and characteristics of present day practice within the commercial sector Animal performance has a long history and at the beginning of the twentieth century this aspect of popular entertainment became the subject not just of a major public controversy but also of prolonged British parliamentary attention to animal welfare Following an assessment of the use of trained animals in the more distant historical past the book charts the emergence of criticism and analyses the arguments and evidence used by the opponents and proponents in Britain from the early twentieth century to the present noting comparable events in the United States and elsewhere **Col. William N. Selig, the Man Who Invented Hollywood** Andrew A. Erish, 2012-03-01 All histories of Hollywood are wrong Why Two words Colonel Selig This early pioneer laid the

foundation for the movie industry that we know today Active from 1896 to 1938 William N Selig was responsible for an amazing series of firsts including the first two reel narrative film and the first two hour narrative feature made in America the first American movie serial with cliffhanger endings the first westerns filmed in the West with real cowboys and Indians the creation of the jungle adventure genre the first horror film in America the first successful American newsreel made in partnership with William Randolph Hearst and the first permanent film studio in Los Angeles Selig was also among the first to cultivate extensive international exhibition of American films which created a worldwide audience and contributed to American domination of the medium In this book Andrew Erish delves into the virtually untouched Selig archive at the Academy of Motion Picture Arts and Sciences Library to tell the fascinating story of this unjustly forgotten film pioneer He traces Selig s career from his early work as a traveling magician in the Midwest to his founding of the first movie studio in Los Angeles in 1909 to his landmark series of innovations that still influence the film industry As Erish recounts the many accomplishments of the man who first recognized that Southern California is the perfect place for moviemaking he convincingly demonstrates that while others have been credited with inventing Hollywood Colonel Selig is actually the one who most deserves that honor

Population Biology of Infectious Diseases R.M. Anderson, R.M. May, 2012-12-06 for the design of control programs in extreme cases as discussed below by Fine et al this volume and elsewhere it can happen that immunization programs although they protect vaccinated individuals actually increase the overall incidence of a particular disease The possibility that many nonhuman animal populations may be regulated by parasitic infections is another topic where it may be argued that conventional disciplinary boundaries have retarded investigation While much ecological research has been devoted to exploring the extent to which competition or predator prey interactions may regulate natural populations or set their patterns of geographical distribution few substantial studies have considered the possibility that infectious diseases may serve as regulatory agents 1 8 On the other hand the many careful epidemiological studies of the transmission and maintenance of parasitic infections in human and other animal populations usually assume the host population density to be set by other considerations and not dynamically engaged with the disease see for example 1 2 With all these considerations in mind the Dahlem Workshop from which this book derives aimed to weave strands together testing theoretical analysis against empirical facts and patterns and identifying outstanding problems in pursuit of a better understanding of the overall population biology of parasitic infections For the purpose of the workshop the term parasite was defined widely to include viruses bacteria protozoans fungi and helminths
