**Japanese ANIME Story** Seo hyun woong,2025-05-15 Hello I am Seohyeon Woong an author from the Japanese specialty bookstore MeeNii We often try to define cultures by borders and seek identity within them However culture is like water flowing beyond borders continuously influencing and being influenced by each other without staying in one place The cultural relationship between Korea and Japan especially through animation exchange is a perfect example of this fluidity The introduction of Japanese animation to Korea starting in the 1960s was not merely the import of foreign content It was a cultural phenomenon that shaped the imagination of a generation inspired creativity and sometimes sparked social debates While it is widely known that Korean animations like Robot Taekwon V were inspired by Japanese works the depth and breadth of that influence are far more extensive than one might think This book explores how Japanese animation has been accepted and transformed within Korean society and culture from the 1960s to the present Through works spanning generations from Mazinger Z to Your Name we will uncover hidden stories of Korean popular culture This is not just a history of animation but also a cultural history reflecting the changes and growth of Korean society We aim to revisit Japanese animations from the black and white TV era when parents gathered with neighborhood kids to watch cartoons to those enjoyed by today s MZ generation By minimizing technical jargon and complex theories I hope to guide this journey in a language that everyone can easily understand Let us begin the journey to discover another aspect of Korean culture through the lens of Japanese animation Thank you
