International Perspectives on Feminism and Sexism in the Film Industry Sarı, Gülşah, Çetin, Derya, 2019-11-22

Gender studies has maintained its status as a heavily researched field. However, women and their role in cinema is a vastly understudied topic that deals with various aspects of feminism and sexism. The function of women in the film industry has evolved over time and proven to be an interesting area of research regarding the transition from sexual icons to respected professionals. Feminism is a widely researched subject, yet its specific application within cinema is an area that has yet to be studied. International Perspectives on Feminism and Sexism in the Film Industry is an essential reference source that examines the representation of women in cinema and provides a feminist approach to various aspects of the film industry, including labor production and the cultural impact of women in motion pictures. Featuring research on topics such as violence against women, feminist film theory, and psychoanalysis, this book is ideally designed for directors, industry professionals, writers, screenwriters, activists, professors, students, administrators, and researchers in fields that include film studies, gender studies, mass media, and communications.
