Annual World Bank Conference On Development Economics 2000

Robert E. Evenson, Prabhu Pingali

Annual World Bank Conference On Development Economics 2000:

Annual World Bank Conference on Development Economics 2000 Boris Pleskovic, Nicholas Stern, 2001 Annotation This 12th Annual World Bank Conference on Development Economics focuses mainly on four areas new development thinking crises and recovery corporate governance and restructuring and social security including public and private savings

Annual World Bank Conference on Development Economics 1998 Boris Pleskovic, Joseph E. Stiglitz, 1999 The 1998 Annual World Bank Conference on Development Economics the tenth anniversary was held at the Bank on April 20 21 1998 The discussions focused on four areas of inquiry 1 the role of geography in countries success 2 the role of effective competition and regulatory policies 3 the causes of financial crises and ways to prevent them and 4 the effects of ethnic diversity on democracy and growth The welcoming address by World Bank President James D Wolfensohn the opening remarks by chief Economist Joseph Stiglitz and the tenth anniversary address by the International Monetary Fund Deputy Managing Director Stanley Fischer all focused both on the role of the conference and on the changing perspectives for development

Economics for an Imperfect World Joseph E. Stiglitz, 2003 The focus of Joseph Stiglitz's work in economics throughout his long and distinguished career has been on the real world with all of its imperfections

Infrastructure Investments in Developing Economies Giang Dang, Low Sui Pheng, 2014-10-18 This book aims to provide knowledge on how infrastructure is planned and built in a typical developing country and what key variables are there in the system limiting the efficient use of public investments in infrastructure The book begins with a comprehensive literature review on construction and economic development and trade and economic development The focus of the book is on the case of Vietnam with lessons drawn for other developing economies The book employs the mixed use of data to provide a stronger basis for analysis and interpretation of related government policies Based on the research findings the book recommends significant capacity building work for Vietnam to develop capacities that would remove constraints on the efficient use of public investments in infrastructure The general principles of significant capacity building work which are useful for policy implications are introduced in the book Analysts academics public and private communities in developing countries can adopt the research findings as guiding principles to bring about changes in their current use of public investments in infrastructure thus supporting their trade and economic growth in the long term

The Rent Curse Richard M. Auty, Haydn I. Furlonge, 2019 This book compares models of low rent and high rent development to explain the divergent growth of regions and to query the continued prioritization of industrialization over agriculture and export services as the engine of economic prosperity

Economic and Social Impact of Privatisation of State-owned Enterprises in Africa, The Michael I. Obadan, 2008 Provides a state of the art review of privatization issues and research questions as a prelude to an in depth study of the economic and social impact of privatization

Reinventing Foreign Aid William R. Easterly, 2008-05-09 Top experts in the field discuss how to improve the effectiveness of foreign aid proposing practical solutions to specific problems rather than a utopian master

plan The urgency of reducing poverty in the developing world has been the subject of a public campaign by such unlikely policy experts as George Clooney Alicia Keyes Elton John Angelina Jolie and Bono And yet accompanying the call for more foreign aid is an almost universal discontent with the effectiveness of the existing aid system In *Reinventing Foreign Aid* development expert William Easterly has gathered top scholars in the field to discuss how to improve foreign aid These authors Easterly points out are not claiming that their ideas will to invoke a current slogan Make Poverty History Rather they take on specific problems and propose some hard headed solutions Easterly himself in an expansive and impassioned introductory chapter makes a case for the searchers who explore solutions by trial and error and learn from feedback over the planners who throw an endless supply of resources at a big goal as the most likely to reduce poverty Other writers look at scientific evaluation of aid projects including randomized trials and describe projects found to be cost effective including vaccine delivery and HIV education consider how to deal with the government of the recipient state work through it or bypass a possibly dysfunctional government examine the roles of the International Monetary Fund a de facto aid provider and the World Bank and analyze some new and innovative proposals for distributing aid Contributors Abhijit Banerjee Nancy Birdsall Craig Burnside Esther Duflo Domenico Fanizza William Easterly Ruimin He Kurt Hoffman Stephen Knack Michael Kremer Mari Kuraishi Ruth Levine Bertin Martens John McMillan Edward Miguel Jonathan Morduch Todd Moss Gunilla Pettersson Lant Pritchett Steven Radelet Aminur Rahman Ritva Reinikka Jakob Svensson Nicolas van de Walle James Vreeland Dennis Whittle Michael Woolcock Delivering on Debt Relief Nancy Birdsall, John Williamson, Brian Deese, 2002 This study brings readers up to date on the complicated subject of debt relief for poor countries It also addresses the questions of more efficient and equitable government spending building better institutions and attracting productive private investment **Networks and Institutions in Europe's Emerging Markets** Roger Schoenman, 2014-05-29 Examines the role of social networks in the efficient running of democratic market economies This title is also available as Open Access

Dealing with Failed States Harvey Starr, 2013-09-13 With the ever increasing interdependence across individuals groups international organizations and nation states an increasingly significant policy concern in the contemporary turbulent world of globalization is the question of state failure There has been a growing academic interest in the determinants of state failure and an acute awareness across the international community of the need for dealing with issues of instability in states The contributors to this volume represent the most recent cutting edge approaches to state failure looking at both conditions of conflict and economic development dealing with the conceptualization causes and consequences of state failure as well as policy oriented analyses as to how state failure can be contained reversed or prevented In order to deal fully with the phenomenon of state failure investigators must be involved in a number of boundary crossing activities The contributors to this volume have addressed failed states through multiple levels of analysis assessing domestic and cross border phenomena internal and external conflict domestic and international political economy multiple disciplines and interdisciplinary

approaches representing political science sociology and economics various methodological approaches including large N empirical analyses case studies and simulations and through both basic and applied research drawing on the work of academics IGOs NGOs and national governments This book was originally published as a special issue of Conflict Management and Peace Science Issues in Positive Political Economy Syed Mansoob Murshed, 2002-05-09 Political economy the original name for economics in its entirety has in recent years witnessed a semantic broadening to include some of the preoccupations of classical economics This intriguing collection of contributed work is concerned mainly with developments in the neo classical tradition and examines the role played by rational choice in **The IMF and Global Financial Crises** Joseph P. Joyce, 2013 Joyce traces the IMF's actions to promote international financial stability from the Bretton Woods era through the recent recession **Rural Livelihoods and Poverty Reduction Policies** Frank Ellis, H. Ade Freeman, 2004-08-02 This important new collection of contributions brings together current thinking on poverty reduction and rural livelihoods in developing countries As well as leading economists in the field such as Frank Ellis and Chris Barrett there are a number of contributors from developing countries themselves The book examines both macroeconomic and microeconomic phenomena and contains wide range of case studies Skilfully exposing the gap that exists between the rhetoric of poverty reduction strategies in capital cities and the practice of public sector delivery in rural areas this key text will be essential reading for advanced students and researchers in the fields of rural development rural livelihoods poverty reduction strategies and Sub Saharan Africa development as well as advisors and practitioners in international organizations **Decentralization in Asia and Latin America** Paul J. Smoke, Eduardo J. Gómez, George E. Peterson, 2006-11-28 Public sector decentralization has emerged prominently in many Asian and Latin American countries as a strategy to promote development and political reform Results in both cases have been mixed Despite broad similarities in intent and outcome contextual differences between the regions have led to striking differences in the way decentralization has been structured and implemented This volume takes an atypically historical and interdisciplinary perspective on decentralization highlighting how fiscal and political forces together have been shaping its evolution in the two regions From Solidarity to Sellout Tadeusz Kowalik, 2012-07-01 In the 1980s and 90s renowned Polish economist Tadeusz Kowalik played a leading role in the Solidarity movement struggling alongside workers for an alternative to really existing socialism that was cooperative and controlled by the workers themselves In the ensuing two decades really existing socialism has collapsed capitalism has been restored and Poland is now among the most unequal countries in the world Kowalik asks how could this happen in a country that once had the largest and most militant labor movement in Europe This book takes readers inside the debates within Solidarity academic and intellectual circles and the Communist Party over the future of Poland and competing visions of society Kowalik argues that the failures of the Communist Party combined with the power of the Catholic Church and interference from the United States subverted efforts to build a cooperative and democratic

economic order in the 1990s Instead Poland was subjected to a harsh return to the market resulting in the wildly unequal distribution of the nation s productive property often in the hands of former political rulers who along with foreign owners constitute the new capitalist class Kowalik aptly terms the transformation from command to market economy an epigone bourgeois revolution and asks if a new social transformation is still possible in Poland

The Routledge Handbook of Comparative Economic Systems Bruno Dallago,Sara Casagrande,2022-12-19 The Routledge Handbook of Comparative Economic Systems examines the institutional bases of economies and the different ways in which economic activity can function be organized and governed It examines the complexity of this academic and research field assessing the place of comparative economic studies within economics paying due attention to future perspectives and presenting critically important questions analytical methods and relative approaches This complements the recent revival of the systemic view of economic governance which was accelerated by the COVID 19 pandemic and likely even more the renewed East West clash epitomized by the Russian invasion of Ukraine and the West s reaction to it The Handbook is divided into five parts Each part deals with an issue of relevance for the discipline The first and second parts look at the subject content and approach of the discipline and its comparative method The third part looks at the idiosyncratic nature of different economic systems and their constituent elements The fourth part considers the outcomes that different economic systems generate and how these outcomes change following the evolution and transformation of economic systems The last part takes stock and looks ahead at the challenges from a theoretical and applied perspective and the exogenous and endogenous factors promoting the advancement of the discipline including the interaction between and competition among varied approaches and opposing paradigms The Handbook brings together leading international contributors to reflect on the relevant debates and case or country studies provides a balanced overview of the results achieved and current knowledge as well as evolving issues and new fields of research The book provides researchers students and analysts with a complete critical and forward looking presentation and analysis of the content development challenges and perspectives of comparative economic studies Chapters 4 and 22 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com Chapter 4 has been made available under a Creative Commons Attribution 4.0 license and Chapter 22 has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Lessons from NAFTA Daniel Lederman,William Francis Maloney,William F. Maloney,Luis Servén,2005 Analyzing the experience of Mexico under the North American Free Trade Agreement NAFTA the authors draw lessons for other countries considering free trade agreements with the United States The authors conclude that NAFTA raised external trade and foreign investment inflows and had a modest effect on Mexico s average income per person It is likely that NAFTA also helped achieve a modest reduction in poverty and an improvement in job quality However major obstacles remain to Mexico s long term development NAFTA is not enough The main lesson for other countries is that free trade agreements offer opportunities to accelerate

economic growth but do not guarantee it **What if Ireland Defaults?** Constantin Gurdgiev,2012 **Handbook of Agricultural Economics** Robert E. Evenson,Prabhu Pingali,2009-10-20 Advances in agriculture offer many countries the best and only chance of reducing poverty Yet economic growth and population increases are driving higher demand for food and rising real prices What solutions have successfully promoted agriculture This volume examines national and international food agriculture policies and how they enhance agricultural productivity growth It provides unique historical reviews on policies and their effects and it clearly articulates both positive and negative lessons for promoting agriculture lead growth With chapters written by international authorities this book recognizes that agriculture is not just about providing food for today but about growing it in an environmentally sustainable way that can help people work their ways out of poverty Chapters cover international macro economic policies and trade farm structure in developing countries regional experiences in agriculture and regional studies on agricultural productivity policies *Transition Economics* Peter Luke,2012-07-26 Celebrating twenty years of transition from socialism to capitalism this book is designed to be the core textbook for undergraduate courses in transition economics and comparative economic systems Given the passage of time Transition Economics Two Decades On reviews and accounts for the outcomes in the so called transition economies and from an academic perspective takes the reader through developments and issues in the twenty years of transition from plan to market Treating its subject matter thematically the book incorporates much of the transition economics literature and evidence that have evolved over the past two decades In particular the authors focus on the most important aspects of economic transition including The initial conditions at the outset of transition Paradigms and patterns of transition The main transition policies and economic reforms The performance of transition countries and firms The lessons from transition The textbook covers a wide range of both contemporary microeconomic and macroeconomic issues in over thirty ex socialist European and Asian countries including Russia and China Transition Economics Two Decades On is more than just a book about a particular part of the world or the transformation that was experienced at a particular time in history The authors believe that the study of the economics of transition gives the reader an insight into theories policies reforms legacies institutions processes and lessons that have application and relevance beyond the specific transition from plan to market to other parts of the world and to other times in history
