Of Margery Kempe Abridged Translation Introduction Notes:

The Book of Margery Kempe Margery Kempe, Liz Herbert McAvoy, 2003 Margery Kempe's text draws on her maternal female body to illuminate her relationship to the divine. A unique narrative of sin, sex and salvation. The Book of Margery Kempe comprises a text which has continued to perplex and fascinate contemporary audiences since its discovery in the library of an English country house in 1934. Simultaneously exasperating, endearing, vulnerable and eccentric, Margery Kempe, mother of fourteen children and wife to a bemused John Kempe, provides us with an autobiographical account of her own singular brand of affective piety, excessive weeping, lack of bodily control, compulsive travelling, visionary meditations and the growth of what she regarded as an individual and privileged mystical relationship with Christ. This new excerpted, thematically organised translation of the challenging text focuses on passages which will contextualise for the reader its author's reliance upon the experiences of her own maternal and sexualised body in an attempt to gain spiritual and literary authority. With detailed introduction and challenging interpretive essay, this volume uncovers in particular the importance of motherhood, sexuality and female orality to the inception and expression of Margery Kempe's singular mystical experiences and adds to contemporary debate regarding the agency of holy women during the later middle ages. LIZ HERBERT McAVOY is Lecturer in Medieval Language and Literature, University of Leicester.

Medieval Women's Writing Diane Watt, 2007-10-22 Medieval Women's Writing is a major new contribution to our understanding of women's writing in England, 1100-1500. The most comprehensive account to date, it includes writings in Latin and French as well as English and works for as well as by women. Marie de France, Clemence of Barking, Julian of Norwich, Margery Kempe and the Paston women are discussed alongside the Old English lives of women saints. The Life of Christina of Markyate, the St Albans Psalter and the legends of women saints by Osborn Bokenham. Medieval Women's Writing addresses these key questions: Who were the first women authors in the English canon? What do we mean by women's writing in the Middle Ages? What do we mean by authorship? How can studying medieval writing contribute to our understanding of women's literary history? Diane Watt argues that female patrons, audiences, readers and even subjects contributed to the production of texts and their meanings, whether written by men or women. Only an understanding of textual production as collaborative enables us to grasp fully women's engagement with literary culture. This radical rethinking of early women's literary history has major implications for all scholars working on medieval literature, on ideas of authorship and on women's writing in later periods. The book will become standard reading for all students of these debates.

Medicine, Religion and Gender in Medieval Culture Naoë Kukita Yoshikawa, 2015 An exploration of the relations between medical and religious discourse and practice in medieval culture, focussing on how they are affected by gender.

Mary Magdalene in Medieval Culture Peter Loewen, Robin Waugh, 2014-03-26 This innovative and multidisciplinary collection visits representations and interpretations of Mary Magdalene in the medieval and early modern periods, questioning major scholarly assumptions behind the examination of

female saints and their depictions in medieval artworks literature and music Mary Magdalene's many and various characterizations from reformed prostitute to conversion figure to devotee of Christ to apostle to the apostles to spiritual advisor to the Prince of Marseilles to hermit in the desert to list just a few examples mean that the many conflicted representations of Mary Magdalene apply to a staggering variety of cultural material including art liturgy music literature theology hagiography and the historical record Furthermore Mary Magdalene has grown into an extremely popular and controversial figure due to recent books and movies concerning her and due to a groundswell of general speculation concerning her relationship to Jesus was she his acquaintance follower companion wife family member or lover This volume employs a broad spectrum of theoretical methodologies in order to present poststructuralist postcolonial postmodernist hagiographic and feminist readings of the figure of Mary Magdalene addressing and interrogating her conflicting roles and the precise relationship between her sacred and secular representations

Szarmach,1985-06-30 The European Middle Ages bequeathed to the world a legacy of spiritual and intellectual brilliance that has shaped many of the ideals preconceptions and institutions we now take for granted An Introduction to the Medieval Mystics of Europe examines this phenomenon in vivid and scholarly accounts of the lives and achievements of those men and women whose genius most inspired their own and subsequent ages These great mystics explored and consciously realized the relationship between human life and unconditioned transcendence Representing both the contemplative and scholastic traditions the mystics in these studies often found their solutions to ultimate questions in radically different ways Some of them such as Eckhart Aquinas and Cusa may already be familiar and here the reader will benefit from a new approach and summary of extensive research Others such as Smaragdus and several of the women mystics are little known even to specialists Finally and unusually for a study of European mysticism the influence of Spanish Kabbalists is discussed in relation to the Zohar and two figures from the mystical school of Safed Cordovero and Luria Though the essays focus on individuals the cultural and social implications of their lives and work are never ignored for the mystic way did not exist separately from the rest of medieval life it functioned as an integral part of the whole influencing the development of Christian and Jewish religions in both their internal and external forms The British National Bibliography Arthur James Wells,2005 **American Book Publishing Record** ,2003 **Celebrating the Saints** Robert Atwell,2017-02-17 For every major feast saint s day and commemoration in the calendars of the Anglican churches in the UK this liturgical resource and spiritual companion offers a feast of readings that reflects the richness depth and variety of the Christian tradition Julian of Norwich Elisabeth M.
