Social Democracy in the Making Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world s leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism

Contrasts in Punishment John Pratt, Anna Eriksson, 2014-06-03 Why do some modern societies punish their offenders differently to others Why are some more punitive and others more tolerant in their approach to offending and how can these differences be explained Based on extensive historical analysis and fieldwork in the penal systems of England Australia and New Zealand on the one hand and Finland Norway and Sweden on the other this book seeks to answer these questions The book argues that the penal differences that currently exist between these two clusters of societies emanate from their early nineteenth century social arrangements when the Anglophone societies were dominated by exclusionary value systems that contrasted with the more inclusionary values of the Nordic countries The development of their penal programmes over this two hundred year period including the much earlier demise of the death penalty in the Nordic countries and significant differences between the respective prison rates and prison conditions of the two clusters reflects the continuing influence of these values Indeed in the early 21st century these differences have become even more pronounced John Pratt and Anna Eriksson offer a unique contribution to this topic of growing importance comparative research in the history and sociology of punishment This book will be of interest to those studying criminology sociology punishment prison and penal policy as well as professionals working in prisons or in the area of penal policy across the six societies that feature in the book **The Block Reader in Visual Culture** George Robertson, 1996 Brings together classic writings by leading cultural theorists

Remaking the Labour Party Tudor Jones, 2005-09-21 Remaking the Labour Party examines the development of revisionist thought in the Labour Party from the 1950s up to Tony Blair s successful attempt to rewrite Clause Four in April 1995 The main focus is upon the most distinctive and controversial aspect of Labour revisionism its attitude toward public ownership and socialism private ownership and the mixed economy Remaking the Labour Party comprises a detailed study of a process of ideological conflict which began with the Labour Party s debate in the 1950s over the link between public ownership and socialism The deepening confrontation that arose from the revisionist thinking of Crosland and Gaitskell is explored in the Clause Four controversy of 1959 60 and in the uneasy compromise forged in its aftermath The period of ideological truce under Harold Wilson s leadership is examined together with the bitter conflict that later resurfaced in the party during the 1970s and early 80s Finally the study focuses on the second stage of Labour s policy and ideological rethinking which developed after 1983 under the leadership first of Neil Kinnock and then of Tony Blair Drawing on the author s own interviews with some of the leading protagonists of the debate as well as upon a wide range of primary and secondary sources Remaking the Labour Party will be of value to students of modern British politics and political thought it will also be of interest to observers and members of the Labour Party

The 1960s in Australia Shirleene Robinson, Julie Ustinoff, 2012-01-17 The 1960s is one of the most heavily mythologised decades of the twentieth century More than 50 years on the era continues to capture the public s imagination The 1960s in Australia People Power and Politics recognises the complexity of social and cultural change by presenting a broad range of contributions that acknowledge an often overlooked fact that not everyone experienced the 1960s in the same way The diversity of the time is confirmed by contributions from a number of expert Australian historians who each provide an insight into Australia in the 1960s offering an understanding of the social realities of this period as well as the ebbs and flows of transnational influence This collection includes a featured contribution by prominent Australian historian Raymond Evans who provides a personal insight into the 1960s Other contributors also place the lived experience at the centre of their analysis by considering the growth of modern flats the impact of cosmopolitanism and sex and sexuality in the Sixties The book also highlights the way power was deployed and deconstructed during this era by considering the psychiatric profession the agenda of the counter culture and the role that women s magazines played in reinforcing dominant gender paradigms The complex politics of the era are also explored through the transnational impact of figures such as Anthony Crosland the impact of the Vietnam War and the multiplicity of motivations behind the anti war protest and the Aboriginal rights movement of the era The 1960s in Australia Power People and Politics is a fresh focus on a significant time in Australia s history It brings together a collection

of innovative and engaging explorations into the Australian Sixties which underline the complexity of the time Ideological Heritage W. H. Greenleaf, 2003 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company
