The New British Constitution and Its Master-builders George Douglas Campbell Duke of Argyll, 1888 **The Strategic Constitution** Robert D. Cooter, 2020-06-30 Making amending and interpreting constitutions is a political game that can yield widespread suffering or secure a nation's liberty and prosperity Given these high stakes Robert Cooter argues that constitutional theory

should trouble itself less with literary analysis and arguments over founders intentions and focus much more on the real world consequences of various constitutional provisions and choices Pooling the best available theories from economics and political science particularly those developed from game theory Cooter s economic analysis of constitutions fundamentally recasts a field of growing interest and dramatic international importance By uncovering the constitutional incentives that influence citizens politicians administrators and judges Cooter exposes fault lines in alternative forms of democracy unitary versus federal states deep administration versus many elections parliamentary versus presidential systems unicameral versus bicameral legislatures common versus civil law and liberty versus equality rights Cooter applies an efficiency test to these alternatives asking how far they satisfy the preferences of citizens for laws and public goods To answer Cooter contrasts two types of democracy which he defines as competitive government The center of the political spectrum defeats the extremes in median democracy whereas representatives of all the citizens bargain over laws and public goods in bargain democracy Bargaining can realize all the gains from political trades or bargaining can collapse into an unstable contest of redistribution States plagued by instability and contests over redistribution should move towards median democracy by increasing transaction costs and reducing the power of the extremes Specifically promoting median versus bargain democracy involves promoting winner take all elections versus proportional representation two parties versus multiple parties referenda versus representative democracy and special governments versus comprehensive governments This innovative theory will have ramifications felt across national and disciplinary borders and will be debated by a large audience including the growing pool of economists interested in how law and politics shape economic policy political scientists using game theory or specializing in constitutional law and academic lawyers The approach will also garner attention from students of political science law and economics as well as policy makers working in and with new democracies where constitutions are being written and refined

Loserville Clayton Trutor, 2022-02 2023 Bell Award for the Best Book on Georgia History A Sports Collectors Digest Best Baseball Book of 2022 A Public Books Public Pick of 2022 In July 1975 the editors of the Atlanta Constitution ran a two part series entitled Loserville U S A The provocatively titled series detailed the futility of Atlanta s four professional sports teams in the decade following the 1966 arrival of its first two major league franchises Major League Baseball s Atlanta Braves and the National Football League s Atlanta Falcons Two years later the Atlanta Hawks of the National Basketball Association became the city s third major professional sports franchise In 1972 the National Hockey League granted the Flames expansion franchise to the city making Atlanta the first southern city with teams in all four of the big leagues The excitement surrounding the arrival of four professional franchises in Atlanta in a six year period soon gave way to widespread frustration and eventually widespread apathy toward its home teams All four of Atlanta s franchises struggled in the standings and struggled to draw fans to their games Atlantans indifference to their new teams took place amid the social and political fracturing that had resulted from a new Black majority in Atlanta and a predominately white suburban exodus Sports could

never quite bridge the divergence between the two Loserville examines the pursuit arrival and response to professional sports in Atlanta during its first decade as a major league city 1966 75 It scrutinizes the origins of what remains the primary model for acquiring professional sports franchises offers of municipal financing for new stadiums Other Sunbelt cities like San Diego Phoenix and Tampa that aspired to big league stature adopted Atlanta s approach Like the teams in Atlanta the franchises in these cities have had mixed results both in terms of on field success and financial stability Bulletin of the New York Public Library New York Public Library,1899 *Monthly Bulletin of Books Added to the Public Library of the City of Boston* Boston Public Library,1899 **Monthly Bulletin of Books Added to the Public Library of the City of Boston** ,1899 Catalogue of Printed Books in the Library of the British Museum British Museum.
