Handbook of Qualitative Research in Communication Disorders Martin J. Ball, Nicole Müller, Ryan L.

Nelson, 2014-04-11 This volume provides a comprehensive and in depth handbook of qualitative research in the field of communication disorders It introduces and illustrates the wide range of qualitative paradigms that have been used in recent years to investigate various aspects of communication disorders The first part of the Handbook introduces in some detail the concept of qualitative research and its application to communication disorders and describes the main qualitative research approaches The contributions are forward looking rather than merely giving an overview of their topic The second part illustrates these approaches through a series of case studies of different communication disorders using qualitative methods of research This Handbook is an essential resource for senior undergraduate and graduate students researchers and practitioners in communication disorders and related fields

Constructing (in)competence Dana Kovarsky, Madeline Maxwell, Judith F. Duchan, 2013-06-17 Competence and incompetence are constructs that emerge in the social milieu of everyday life Individuals are continually making and revising judgments about each other's abilities as they interact The flexible situated view of competence conveyed by the research of the authors in this volume is a departure from the way that competence is usually thought about in the fields of communication disabilities and education In the social constructivist view competence is not a fixed mass residing within an individual or a fixed judgment defined externally Rather it is variable sensitive to what is going on in the here and now and coconstructed by those present Constructions of competence are tied to evaluations implicit in the communication of the participants as well as to explicit evaluations of how things are going The authors address the social construction of competence in a variety of situations engaging in therapy for communication and other disorders working and living with people with disabilities speaking a second language living with deafness and giving and receiving instruction Their studies focus on adults and children including those with disabilities aphasia traumatic brain injury augmentative systems users as they go about managing their lives and identities They examine the all important context in which participants make competence judgments assess the impact of implicit judgments and formal diagnoses and look at the types of evaluations made during interaction This book makes an argument all helping professionals need to hear institutional clinical and social practices promoting judgments must be changed to practices that are more positive and empowering

Handbook of Communication in Organisations and Professions Christopher N. Candlin, Srikanth Sarangi, 2011-08-29 This volume presents major contributions of Applied Linguistics to the understanding of communications in the professions The first two parts of this book deal with the theoretical and methodological orientations of professional communication studies the history and development of professional communication studies highlighting the discursive turn of Applied Linguistic research that goes far beyond the established paradigm of Language for Specific Purposes The third part the core of this book presents research into professional practices from various domains e.g. law healthcare business and

management organizations sites of engagement as e g lawyer client conference doctor patient interaction and with respect to different themes that are generalizable across domains and sites as e g communicative aspects of action and practice of assessment and appraisal In the final part professionals from various domains evaluate the contribution to their work so far made by Applied Linguistics *A Guide to Global Language Assessment* Mellissa Bortz, 2024-05-30 For decades the speech language therapy profession has expressed the need for the development of language assessment materials in languages other than English for children and adults *A Guide to Global Language Assessment A Lifespan Approach* aims to meet this need by providing comprehensive information about how to assess the language of bi and multilingual and culturally diverse clients across the world Featuring the viewpoints of contributors from around the world *A Guide to Global Language Assessment* also boasts a complete database of available global language assessments What s included in *A Guide to Global Language Assessment* Case studies assessment frameworks and resources for conducting global language assessments for culturally and linguistically diverse populations An array of language assessment methods across a continuum such as ethnographic and dynamic assessments narratives and standardized language assessment Methods for developing local norms *A Guide to Global Language Assessment A Lifespan Approach* is an essential tool for empowering current and future speech language therapists professors and researchers to address global language assessment across the lifespan
