Description :

The new edition of Farber, Eskridge, Frickey and Schacter's Cases and Materials on Constitutional Law exploits the two most exciting developments in Constitutional Law teaching in the last thirty years: the judiciary's dramatic engagement with social movements and key political debates, and academic and judicial deployment of original meaning as a central methodology. Thus, the new edition presents a most systematic introduction of original meaning methodology for law students, starting with the evolution of "originalism" in response to the academic debates over Brown v. Board of Education, and continuing with in-depth examination of what original meaning teaches us about the Fourteenth Amendment, as well as the First and Second Amendments, the Commerce Clause and other authorizations for congressional regulation, the federalist structure of the Constitution, and the separation of powers. The new edition provides in-depth treatment of the most exciting issues in constitutional law today—including the validity of affirmative action, exemplified by state discriminations based upon sexuality or gender the imperial First Amendment, threatening to impose a new Lochner-type era of judicial review of economic legislation the increasingly prominent federalism limitations on congressional and state authority, powerfully illustrated by the ObamaCare Case and the Arizona Immigration Case and the limitations on the imperial presidency posed by the War on Terror Cases.

Searching the Law, 3d Edition Frank Bae,Edward Bander,Francis Doyle,Joel Fishman,Paul Richert,2021-12-13

Constitutional Law; Cases, Comments, Questions William B. Lockhart,1964 Constitution and Public Policy in U. S. History Julian E. Zelizer,Bruce J. Schulman,2010-11-01 **Harvard Law Review: Volume 125, Number 2 - December 2011** Harvard Law Review,2011-12-15 The Harvard Law Review is offered in a digital edition featuring active and nested Table of Contents linked footnotes and active cross references legible tables and proper ebook formatting This current issue of the Review is December 2011 the second issue of academic year 2011 2012 Volume 125 Articles in this issue are written by such recognized scholars as Jamal Greene writing on notorious or anti canonical Supreme Court cases such as Plessy and Lochner Orin Kerr on Fourth Amendment theory and Michael Klarman reviewing a new book on the Constitutional Convention Student contributions feature Notes on the John Dewey model of democracy and administrative agencies and on breaching international trade law Case Notes discuss recent decisions on such topics as civil procedure tort law patent law constitutional law on transgender prisoners and on firing ranges stem cell research funding and corporate immunity Aside from serving as an important academic forum for legal scholarship the Review has two other goals First the journal is designed to be an effective research tool for practicing lawyers and students of the law Second it provides opportunities for Review members to develop their own editing and writing skills Accordingly each issue contains pieces by student editors as well as outside authors The Review generally publishes articles by professors judges and practitioners and solicits reviews of important recent books from recognized experts Most student writing takes the form of Notes Recent Cases Recent Legislation and Book Notes **The Encyclopedia of the Supreme Court** David Shultz,2005 An illustrated A Z reference containing over 500 entries related to the history important individuals structure and proceedings of the United States Supreme Court **Understanding Criminal Law: Concepts, Cases, and Controversies** Prof. Suman Yadav,2023-07-06 Gain a comprehensive understanding of criminal law through key concepts cases and controversies This book is designed for students and professionals seeking to deepen their knowledge of criminal justice and legal principles **Originalism, Federalism, and the American Constitutional Enterprise** Edward A. Purcell,2007-12-28 In this lively historical examination of American federalism a leading scholar in the field refutes the widely accepted notion that the founding fathers carefully crafted a constitutional balance of power between the states and the federal government Edward A Purcell Jr bases his argument on close analysis of the Constitution s original structure and the ways that structure both induced and accommodated changes over the centuries There was no clear agreement among the founding fathers regarding the true nature of American federalism Purcell contends nor was there a consensus on correct lines dividing state and national authority Furthermore even had there been some true original understanding the elastic and dynamic nature of the constitutional structure would have made it impossible for subsequent generations to maintain any original or permanent

balance The author traces the evolution of federalism through the centuries focusing particularly on shifting interpretations founded on political interests He concludes with insights into current issues of federal power and a discussion of the grounds on which legitimate decisions about federal and state power should rest

Supreme Court Jurisprudence in Times of National Crisis, Terrorism, and War Arthur H. Garrison, 2011-05-13 From the foundation of the American Republic presidents have had to deal with both internal and external national security threats From President Washington and his policy of neutrality during the wars between Great Britain and France in the eighteenth century to President Lincoln and the war to save the union to President Wilson during the war to end all wars to President Roosevelt and war of the Greatest Generation to President Truman and his steel during the forgotten war and most recently to President Bush and the War on Terror presidents have had to use their power as commander in chief to meet the challenges of national crisis and war The judiciary specifically the Supreme Court has also played an integral part in the historical development and defining of the commander in chief power in times of war and national crisis from the earliest days of the republic How these powers have grown is a consequence of how the presidents have viewed the office of the presidency and how the judiciary has interpreted the commander in chief and executive power clauses of the U S Constitution over time Supreme Court Jurisprudence in Times of National Crisis Terrorism and War provides a chronological review of the major national security and war events in American history Garrison reviews the great debates between Hamilton and Madison and Chief Justice Roger Taney and Attorney General Edward Bates on presidential executive power and how subsequent presidents have adopted the Hamiltonian view of the presidency He also examines how Article III courts specifically the Supreme Court have defined expanded and established boundaries on the commander in chief power With this historical backdrop Garrison reveals how for over two centuries the judiciary has defended the rule of law and maintained the principle that under the U S Constitution neither the guns of war nor threats to safety have silenced the rule of law

Research Reports United States. Commission on Population Growth and the American Future, 1972

The Constitutional Underclass Evan Gerstmann, 1999-04 When the Supreme Court struck down Colorado s Amendment 2 which would have nullified all state and local laws protecting gays and lesbians from discrimination it was widely regarded as a victory for gay rights Yet many gays and lesbians still risk losing their jobs custody of their children and even their liberty under the law Using the Colorado initiative as his focus Gerstmann untangles the complex standards and subtle rhetoric the Supreme Court uses to apply the equal protection clause The Court divides people into legal classes that receive varying levels of protection gays and lesbians and other groups such as the elderly and the poor receive the least Gerstmann reveals how these standards are used to favor certain groups over others and also how Amendment 2 advocates used the Court s doctrine to convince voters that gays and lesbians were seeking special rights in Colorado Concluding with a call for wholesale reform of equal protection jurisprudence this book is essential reading for anyone interested in fair coherent and truly equal protection under the law

Judicial Review and Judicial

Power in the Supreme Court Kermit L. Hall, 2014-07-22 Available as a single volume or as part of the 10 volume set *Supreme Court in American Society*

Reconstructing the National Bank Controversy Eric Lomazoff, 2018-11-07 The Bank of the United States sparked several rounds of intense debate over the meaning of the Constitution's Necessary and Proper Clause which authorizes the federal government to make laws that are necessary for exercising its other powers Our standard account of the national bank controversy however is incomplete The controversy was much more dynamic than a two sided debate over a single constitutional provision and was shaped as much by politics as by law With *Reconstructing the National Bank Controversy* Eric Lomazoff offers a far more robust account of the constitutional politics of national banking between 1791 and 1832 During that time three forces changes within the Bank itself growing tension over federal power within the Republican coalition and the endurance of monetary turmoil beyond the War of 1812 drove the development of our first major debate over the scope of federal power at least as much as the formal dimensions of the Constitution or the absence of a shared legal definition for the word necessary These three forces sometimes alone sometimes in combination repeatedly reshaped the terms on which the Bank's constitutionality was contested Lomazoff documents how these three dimensions of the polity changed over time and traces the manner in which they periodically led federal officials to adjust their claims about the Bank's constitutionality This includes the emergence of the Coinage Clause which gives Congress power to coin money regulate the value thereof as a novel justification for the institution He concludes the book by explaining why a more robust account of the national bank controversy can help us understand the constitutional basis for modern American monetary politics
