Alpine Decoy:

The Alpine Decoy Mary Daheim,1994 **Sleuths in Skirts** Frances A. DellaCava, Madeline H. Engel,2002 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality **Sequels** Janet G. Husband, Jonathan F. Husband,2009-07-30 A guide to series fiction lists popular series identifies novels by character and offers guidance on the order in which to read unnumbered series **Detecting Women 2** Willetta L. Heising,1996 Lists over 3 400 mystery titles written by women in correct series order as well as more than 600 series detectives created by women and more Titles are indexed by mystery type and series setting **Diversity and Detective Fiction** Kathleen Gregory Klein,1999 The distinguishing characteristic of the book is its mix of essays focusing on teaching cultural diversity in the classroom and illustrating diversity through fiction to the general readers **BOOK JACKET** **Mystery Women, Volume Three (Revised)** Colleen Barnett,2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of *Mystery Women* as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008 **Bowker's Guide to Characters in Fiction 2007** ,2008-02 **Silk Stalkings** Victoria Nichols,Susan Thompson,2000-09-20 *Silk Stalkings When Women Write of Murder* first published by Black Lizard Books in 1988 began more than fifteen years ago as the authors' personal shopping list United by a common interest in crime and mystery fiction written by women and unable to find a reference source listing these titles the team of Nichols Thompson began to compile a list for themselves They have done it

again the result is the remarkable *Silk Stalkings More Women Write of Murder* That the genre has grown enormously since the first edition was published is obvious The authors not only updated past references but have also searched out and introduced new women mystery writers This book provides a comprehensive survey of series characters created by women authors in crime and mystery fiction from 1867 to 1997 The first half of the book categorizes 187 characters created since 1976 by profession avocations and inclination and discusses them in a frank witty critical voice The second half consists of a master list alphabetically arranged by author's real name and cross referenced by pseudonyms and a series character to author list The depth of the authors research is impressive and the detail is impeccable The authors have been actively involved in the community of mystery writers for fifteen years attending conferences and getting to know the authors of the books chronicled in *Silk Stalkings* Nichols Thompson provide scholars and fans alike with a source of long lost or forgotten treasures as well as what is currently hot in the world of women's mystery writing today This extraordinary reference effortlessly blends engaging observations with useful data into a work that will continue the well established tradition of *Silk Stalkings*
