Exodus 20:25

And if you make Me an altar of stone, you shall not build it of hewn stone; for if you use your tool on it, you have profaned it.

Isaiah 65:2-3

I have stretched out My hands all day long to a rebellious people, Who walk in a way *that is* not good, According to their own thoughts; A people who provoke Me to anger continually to My face; Who sacrifice in gardens, And burn incense on altars of brick.

Altars of Brick Mae Eleanor Frey, 1943 **Brick**, 1898 Notes, Critical, Explanatory, and Practical, on the Book of the Prophet Isaiah Albert Barnes, 1847 **Notes, Critical, Explanatory and Practical on the Book of the Prophet Isaiah. By A. Barnes. Second Edition, Revised and Corrected. [With the Text.]**, 1847 **The Altars of Republican Rome and Latium** Claudia Moser, 2019-01-17 This book reorients the study of sacrifice examining the locus of ritual action the altars of Republican Rome and Latium **A Religious Conference between a Minister and Parishioner, concerning the practice of our Orthodox Church of England, in baptizing infants by pouring water on their faces or sprinkling them; and in confirming them afterwards by the bishop ... With a vindication of the lawfulness of godfathers and godmothers, and of the sacred order of bishops, etc. [By Charles Leslie?]**, 1698 **Notes on the Book of Prophet Isaiah** Albert Barnes, 1853 Notes, Explanatory and Practical, on the Book of Daniel. Finding the Walls of Troy Susan Heuck Allen, 2023-09-01 The relentlessly self promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer's Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements But Schliemann gained this status as an archaeological hero partly by deliberately eclipsing the man who had launched his career Now at long last Susan Heuck Allen puts the record straight in this fascinating archaeological adventure that restores the British expatriate Frank Calvert to his rightful place in the story of the identification and excavation of Hisarlık the site now thought to be Troy as described in the Iliad Frank Calvert had lived in the Troad in the northwest corner of Asia Minor excavating there for fifteen years before Schliemann arrived and learning the local topography well He was the first archaeologist to test the hypothesis that Hisarlık was the Troy of Hector and Helen So that he would have unrestricted access to the site he purchased part of the mound and was the first archaeologist to conduct excavations there Running out of funds he later interested Schliemann in the site The thankless Schliemann stole Calvert's ideas exploited his knowledge and advice and finally stole Calvert's glory in part by slandering him and denigrating his work Allen corrects the record and does justice to a man who was a victim of his own integrity while giving a balanced treatment of Schliemann's true accomplishments This meticulously researched book tells the story of Frank Calvert's development as an archaeologist his adventures and discoveries It focuses on the twists and turns of his turbulent relationship with the perfidious Schliemann the resulting gains for archaeology and the successful conclusion of their common quest Allen has brought together a wide range of relevant published material as well as unpublished sources from archives diaries letters and personal interviews to tell this gripping story The relentlessly self promoting amateur

The book is divided into two parts In the first the reader is taken on an ideal world tour of many wonderful and enigmatic places in almost every continent in search of traces of astronomical knowledge and lore of the sky In the second part Giulio Magli uses the elements presented in the tour to show that the fundamental idea which led to the construction of the astronomically related giant monuments was the foundation of power a foundation which was exploited by replicating the sky A possible interpretive model then emerges that is founded on the relationship the ancients had with nature in the sense of everything that surrounded them the cosmos The numerous monumental astronomically aligned structures of the past then become interpretable as acts of will expressions of power on the part of those who held it the will to replicate the heavenly plane here on earth and to build sacred landscapes Finally having formulated his hypothesis Professor Magli returns to visit one specific place in detail searching for proof This in depth examination studies the most compelling the most intensively studied the most famous and until recently the most misunderstood sacred landscape on the planet Giza in Egypt The archaeoastronomical analysis of the orientation of the Giza pyramids leads to the hypothesis that the pyramids of Cheops and Chephren belong to the same construction project
