Alternative Technology and the Politics of Technical Change David Dickson, 1974 Fontana original 3570 A Radical Green Political Theory Alan B. Carter, 1999 This volume is the first systematic comprehensive and cogent environmental political philosophy It will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy **A Radical Green Political Theory** Alan Carter, 2013-12-16 This volume is the first systematic comprehensive and cogent environmental political philosophy It exposes the relationships between the ever worsening environmental crises the nature of prevailing economic structures and the role of the modern state and concludes that the combination of these factors is driving humanity towards destruction Innovative provocative and cutting edge A Radical Green Political Theory will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy *Energy, Society and Environment* David Elliott, 2004-03 Uses global case studies to examine technological solutions to energy related environmental problems and suggests that social economic and political solutions may be needed to avoid serious future environmental damage Creative Alternatives to Communism Donald Wilhelm, 1981 Alternative Technologie (Alternative technology and the politics of technical change, dt.) Strategien d. techn. Veränderung David Dickson, 1978 The New Engineer Sharon Beder, 1998 *The Politics of Nature* Andrew Dobson, Paul Lucardie, 2002-11 A balanced and comprehensive survey of current green political ideas their varying responses to fundamental problems in political theory and their relationships with other ideological traditions *Technology and Society* Deborah G. Johnson, Jameson M. Wetmore, 2008-10-17 An anthology of writings by thinkers ranging from Freeman Dyson to Bruno Latour that focuses on the interconnections of technology society and values and how these may affect the future Technological change does not happen in a vacuum decisions about which technologies to develop fund market and use engage ideas about values as well as calculations of costs and benefits This anthology focuses on the interconnections of technology society and values It offers writings by authorities as varied as Freeman Dyson Laurence Lessig Bruno Latour and Judy Wajcman that will introduce readers to recent thinking about technology and provide them with conceptual tools a theoretical framework and knowledge to help understand how technology shapes society and how society shapes technology It offers readers a new perspective on such current issues as globalization the balance between security and privacy environmental justice and poverty in the developing world The careful ordering of the selections and the editors introductions give *Technology and Society* a coherence and flow that is unusual in anthologies The book is suitable for use in undergraduate courses in STS and other disciplines The selections begin with predictions of the future that range from forecasts of technological utopia to cautionary tales These are followed by writings that explore the complexity of sociotechnical systems presenting a picture of how technology and society work in step shaping and being shaped by one another Finally the book goes back to considerations of the future discussing twenty first century challenges that include

nanotechnology the role of citizens in technological decisions and the technologies of human enhancement Theories of the Information Society Frank Webster,2002 In the first edition of Theories of the Information Society Frank Webster set out to make sense of the information explosion taking a sceptical look at what thinkers mean when they refer to the information society and critically examining all the major post war theories and approaches to informational development Philosophy and Technology Carl Mitcham,Robert Mackey,1983 From editors Carl Mitcham and Robert Mackey comes an unusually reflective and wide ranging colloquium on technology as a philosophical problem Organized into sections on conceptual issues ethical and political critiques religious critiques existentialist critiques and metaphysical studies Philosophy and Technology features an introductory overview that suggests the aims of truly comprehensive philosophy of technology Philosophy and Technology features essays by Jacques Ellul Lewis Mumford Ortega y Gasset and C S Lewis This revised and fully updated edition features a comprehensive bibliography **The Ideology of Administration** Michael E.

Urban,1982-06-30 Despite their differences the USA and the USSR converge in many aspects of one ideology the ideology of administration which would convert issues of power and privilege into issues to be resolved by technical experts This is demonstrated in Michael E Urban s study of the ideology of administration in the United States and the former Soviet Union Dr Urban interviewed some 61 Soviet and American officials and analyzed published and unpublished works in both countries to bring an empirical and comparative perspective to his study He reveals ways in which the ideology in both countries is still rich in contradictory symbols and shows how modern industrialism is changing traditional thinking about how government works and how power is maintained Technology and Organization (RLE: Organizations) Harry Scarbrough,J. Martin Corbett,2013-08-21 In this important MBA text the authors adopt a highly integrated approach Using the three conceptual lenses of power meaning and design they explore fully the many different ways in which technology and organizations interact They highlight the major debates within these competing perspectives and argue that the flow of knowledge and ideas within and between organizations is crucial in shaping technologies and organizations alike
