Alternative In Eastern Europe:

The Alternative in Eastern Europe Rudolf Bahro, 2020-05-05 The contemporary Marxist writer provides analyses of socialist theory modern political struggle and socialist societies in Eastern Europe *East European Alternatives* Elemér Hankiss, 1990 This text asks whether Eastern European societies can escape from the grip of totalitarian domination and build up Western democratic systems The author describes recent events in Hungary and compares them with those in other East European countries before suggesting policies for the future **Socialist Alternative for Eastern Europe** Socialist Union of Central-Eastern Europe, 1960 *Socialist Alternative for Eastern Europe; Statement Adopted by the Conference of the Socialist Union of Central-Eastern Europe, Rome 20 & 21 October 1961. Alternative Socialiste Pour L'Europe Orientale. Sozialistische Alternative Für Osteuropa* Socialist Union of Central-Eastern Europe, 196? *Alternative Globalizations* James Mark, Artemy M. Kalinovsky, Steffi Marung, 2020-02-11 Globalization has become synonymous with the seemingly unfettered spread of capitalist multinationals but this focus on the West and western economies ignores the wide variety of globalizing projects that sprang up in the socialist world as a consequence of the end of the European empires This collection is the first to explore alternative forms of globalization across the socialist world during the Cold War Gathering the work of established and upcoming scholars of the Soviet Union Eastern Europe and China *Alternative Globalizations* addresses the new relationships and interconnections which emerged between a decolonizing world in the postwar period and an increasingly internationalist eastern bloc after the death of Stalin In many cases the legacies of these former globalizing impulses from the socialist world still exist today Divided into four sections the works gathered examine the economic political developmental and cultural aspects of this exchange In doing so the authors break new ground in exploring this understudied history of globalization and provide a multifaceted study of an increasing postwar interconnectedness across a socialist world
