Before the Unions Catharina Lis, Jan Lucassen, Hugo Soly, 1994 This volume examines a wide variety of collective and organized labour movements in what is arguably a distinct period in labour history The approach is a comparative one looking particularly at the United Kingdom Germany France and the Low Countries but also at Western Europe in general

Craft Guilds in the Early Modern Low Countries Catharina Lis, Hugo Soly, 2017-03-02 In the half millennium of their existence guilds in the Low Countries played a highly significant role in shaping the societies of which they were a part One key aspect that has been identified in recent historical research to explain the survival of the guilds for such a long time is the guilds continued adaptability to changing circumstances This idea of flexibility is the point of departure for the essays in this volume which sheds new light on the corporate system and identifies its various features and regional variances The contributors explore the interrelations between economic organisations and political power in late medieval and early modern towns and address issues of gender religion and social welfare in the context of the guilds This cohesive and focussed volume will provide a stimulus for renewed interest and further research in this area It will appeal to scholars and students with an interest in early modern economic social and cultural history in particular but will also be valuable to those researching into political religious and gender history **The Prison Experience** Pieter Spierenburg, 2007-01-01 Though

the prison is central to the penal system of most modern nations many believe that imprisonment did not become a major judicial sanction until the nineteenth century In this readable history Pieter Spierenburg traces the evolution of the prison during the early modern period and illustrates the important role it has played as both disciplinary institution and penal option from the late sixteenth century onward Placing particular emphasis on the prisons of the Netherlands Germany and France The Prison Experience examines not only the long term nature of prisons and the historical conceptions of their

prisoners but also looks at the daily lives of inmates supplementing our understanding of social change and day to day life in early modern Europe *Comparative and Transnational History* Heinz-Gerhard Haupt, Jürgen Kocka, 2012 Since the 1970s West German historiography has been one of the main arenas of international comparative history It has produced important empirical studies particularly in social history as well as methodological and theoretical reflections on comparative history During the last twenty years however this approach has felt pressure from two sources cultural historical approaches which stress microhistory and the construction of cultural transfer on the one hand global history and transnational approaches with emphasis on connected history on the other This volume introduces the reader to some of the major methodological debates and to recent empirical research of German historians who do comparative and transnational work European Migrants Dirk Hoerder, Leslie Page Moch, 1996 Includes statistics **Urban Decline in Early Modern Germany** Terence McIntosh, 1997 During the Middle Ages southwest Germany was one of the most prosperous areas of central Europe but the Thirty Years War brought devastating social and economic dislocation to the region Focusing on the town of Schwäbisch Hall Terence McIntosh explores *Cultures in Contact* Dirk Hoerder, 2002-11-21 Analysis of migrations regional interregional continent wide and global and the resulting cultural interactions and societal changes **Migration and Urbanization in the Ruhr Valley, 1821-1914** James H. Jackson, 2023-08-21 This book analyzes the human consequences of urbanization and geographical mobility for residents of a major city in the Ruhr Valley of Germany during the century long transition from an agrarian order to the industrial era By documenting the dynamism of Duisburg's population the interdependence of urban and rural life and the importance of households and social networks it reshapes the conventional understanding of central European migration The unprecedented scope of this analysis of these social processes is made possible by a unique combination of detailed census manuscripts vital records police residency registers and building permits that are unmatched by any other nineteenth century European or North American city *The Rhine* Mark Cioc, 2009-11-17 The Rhine River is Europe's most important commercial waterway channeling the flow of trade among Switzerland France Germany and the Netherlands In this innovative study Mark Cioc focuses on the river from the moment when the Congress of Vienna established a multinational commission charged with making the river more efficient for purposes of trade and commerce in 1815 He examines the engineering and administrative decisions of the next century and a half that resulted in rapid industrial growth as well as profound environmental degradation and highlights the partially successful restoration efforts undertaken from the 1970s to the present The Rhine is a classic example of a multipurpose river used simultaneously for transportation for industry and agriculture for urban drinking and sanitation needs for hydroelectric production and for recreation It thus invites comparison with similarly overburdened rivers such as the Mississippi Hudson Colorado and Columbia The Rhine's environmental problems are however even greater than those of other rivers because it is so densely populated 50 million people live along its borders so highly industrialized 10% of global chemical production and so short 775

miles in length Two centuries of nonstop hydraulic tinkering have resulted in a Rhine with a sleek and slender profile In their quest for a perfect canal like river engineers have modified it more than any other large river in the world As a consequence between 1815 and 1975 the river lost most of its natural floodplain riverside vegetation migratory fish and biodiversity Recent efforts to restore that biodiversity though heartening can have only limited success because so many of the structural changes to the river are irreversible The Rhine An Eco Biography 1815 2000 makes clear just how central the river has been to all aspects of European political economic and environmental life for the past two hundred years *Gute Arbeit Handarbeit?* Franziska Schaaf, 2022-10-07 Handarbeit und altes Handwerk sind aus den deutschen Medien nicht mehr wegzudenken TV Dokumentationen Porträts in Lifestyle Zeitschriften und Youtube Tutorials über Personen die ihre Arbeit oder ihr Hobby lieben sind genre bergreifend erfolgreich Wie ist diese Faszination für altes Handwerk entstanden zu erklären Welche Rolle spielt Gender dabei Und was sagt es über unsere Arbeitsgesellschaft aus dass handwerkliche Tätigkeit als legitim und angesehen gilt Franziska Schaaf geht diesen und weiteren Fragen in ihrer Diskursanalyse systematisch nach und liefert erkenntnisreiche Einsichten über den Wandel des Wertes von Arbeit auch vor dem Hintergrund der aufstrebenden Plattformökonomie *Altes Handwerk in Schleswig-Holstein* Heinrich Mehl, 1999 **Stadt und Handwerk in Mittelalter und früher Neuzeit** Karl Heinrich Kaufhold, Wilfried Reininghaus, 2000 Stadt und Handwerk dieses weitgespannte Thema wird hier zeitlich auf die Frühe Neuzeit 16 18 Jahrhundert begrenzt Sachlich folgt der Band der Leitfrage welche Wechselwirkungen es zwischen dem Handwerk und urbanen Siedlungen in Mitteleuropa und benachbarten Regionen gegeben hat Die Beiträge sind überwiegend aus neuen Forschungen gewonnen Die einleitende Studie stellt das Thema in den Zusammenhang der Handwerksgeschichte Von den anschließenden Beiträgen sind sieben räumlich orientiert und behandeln einzelne Länder oder Landesteile Schweden Seestädte an Nord und Ostsee Altbayern sächsische Kleinstädte und einzelne Städte Wien Nürnberg Herzogenbusch Vier beschäftigen sich mit speziellen Aspekten nämlich Handwerk und technischer Innovationen Verarmungsvorgängen im Handwerk Versorgung kranker Handwerker in kommunalen Krankenhäusern Leinenherstellung in Münster *Gender, Church and State in Early Modern Germany* Merry E. Wiesner, 2014-02-04 This text brings together eleven important pieces by Merry Wiesner several of them previously unpublished on three major areas in the study of women and gender in early modern Germany religion law and work The final chapter specially written for this volume addresses three fundamental questions Did women have a Reformation What effects did the development of capitalism have on women and Do the concepts Renaissance and Early Modern apply to women's experience The book concludes with an extensive bibliographical essay exploring both English and German scholarship **Altes Handwerk in Lippe** Annette Fischer, 1996
