Story of the Talking Bones James Penning, 2004 This is a story about a modern day hunter that is hunting in a strange area even though he hunted the Black Hills for over thirty years During this hunt he comes across burnt foundations and 5 graves These stones have his relation names on them with the date of death all on the same day He finds a skeleton nearby that he uncovers and says If only these bones could talk It goes back to 1866 through what happens causing these deaths It goes to 1877 and tells how the Davey is adopted It follows the lives through the Deadwood gold discovery days He and Russ have a ranch partnership and the story shows problems and events involved in ranching and Indian problems Many things happen building friendships also facing perils in those days It explains the deaths of the family and finally uncovers the murderous deed and those responsible It's based on historical facts no one is written about without their permission If it does cover anything or anyone it is unintentional I have written this book based on Christian background without any swearing or sex so it is readable for all ages

Old Soldiers Old Bones and Other Stories Abigail Wyatt, 2012-03-14 Within these pages you will find 22 short stories crammed with characters from history from myth and legend and from next door Abigail Wyatt's imagination will surprise and delight short story lovers everywhere I guess that most people if they are honest will admit to having one nasty secret some action or experience either from their childhood or a long ago lost life the recollection of which fills them with horror guilt or disgust or perhaps makes them blush to the roots of their hair with stomach churning toe curling embarrassment It's natural to suppress such memories and in this I'm no different to most guys but sometimes it seems that there's something out there that won't let matters rest At such times you could almost swear there's this great universal finger that wag wag wags away from one side of the ether to the other and then pokes its nail bitten end deep in someone's private pie From Audi Alterem Partem
