The Book Of David Richard J. Gelles,1996-04-04 Richard J Gelles was once one of the most widely published and vocal defenders of family preservation keeping troubled families together as a primary goal of social policy But everything changed when he ran into the tragic case of David Edwards an infant who was murdered by his mother after falling through the chasms in the child welfare system Using David s story as a starting point Gelles eloquently argues that these children must be taken out of harm s way Gelles also offers several suggestions for rehabilitating the system including changing its first priority of family preservation to one of child safety eliminating mandatory reporting of abuse focusing the system on the more dangerous and harmful cases of maltreatment developing better and more accurate means of assessing risk giving better training to caseworkers and separating the investigation of abuse from case management **Does Family**

**The Third Lie** Richard J Gelles, 2016-06-16 Richard Gelles explains why government programs designed to cure social ills don't work in sector after sector and why they should be replaced with a universal entitlement at lower cost

**The Politics of Adoption** Kerry O'Halloran, 2008-12-01 Adoption has always had a political dimension Its use to achieve political ends has been evident throughout history and in many different cultures In Roman times an emperor would adopt a successful general to continue his rule In Ireland under the Brehon Laws the reciprocal placements of 2 children between clans was an accepted means of cementing mutual allegiances In Japan the adoption of non relatives was traditionally seen as a means of allying 3 with the fortunes of the ruling family The willingness of governments to use adoption as a political strategy was apparent for example in Australia where it was used to 4 further the assimilation of indigenous people It is now present in the phenomenon of intercountry adoption where the flow of children particularly in the aftermath of war is often politics by proxy Adoption can be profoundly affected by politics as demonstrated by the decision of the Chinese government to advocate one child families which resulted in very many Chinese girls being relinquished for adoption abroad as their parents exercised a preference for a male child Again as in Korea in the recent past currently in some South American countries and in those states of eastern Europe newly emerged from under the blanket of totalitarianism governments can and do facilitate an outward flow of children for reasons of economic and political 5 expediency
