Of Job In Medieval Jewish Philosophy:

The ^ABook of Job in Medieval Jewish Philosophy Robert Eisen,2004-09-16 Medieval Jewish philosophers have been studied extensively by modern scholars but even though their philosophical thinking was often shaped by their interpretation of the Bible relatively little attention has been paid to them as biblical interpreters In this study Robert Eisen breaks new ground by analyzing how six medieval Jewish philosophers approached the Book of Job These thinkers covered are Saadiah Gaon Moses Maimonides Samuel ibn Tibbon Zerahiah Hen Gersonides and Simon ben Zemah Duran Eisen explores each philosopher s reading of Job on three levels its relationship to interpretations of Job by previous Jewish philosophers the way in which it grapples with the major difficulties in the text and its interaction with the author s systematic philosophical thought Eisen also examines the resonance between the readings of Job of medieval Jewish philosophers and those of modern biblical scholars What emerges is a portrait of a school of Joban interpretation that was creative original and at times surprisingly radical Eisen thus demonstrates that medieval Jewish philosophers were serious exegetes whom scholars cannot afford to ignore By bringing a previously overlooked aspect of these thinkers work to light Eisen adds new depth to our knowledge of both Jewish philosophy and biblical interpretation *The Book of Job in Medieval Jewish Philosophy* Juan Vine,2017-06-07 The Book of Job is a classic in Western literature developing all the themes that perennially trouble us providence the origin of evil the justice of God and human suffering There is no book comparable to writer s The Book of Job in Medieval Jewish Philosophy which seems strange since the Book of Job was so important to the thinking of medieval Jewish philosophy on precisely these questions Analyzing the thought of six thinkers from Saadiah Gaon to Simon ben Zemah Duran Eisen carefully examines their commentaries and thinking on Job He does a masterful job of bringing these important texts to light **Medieval Jewish Philosophy and Its Literary Forms** Aaron W. Hughes,James T. Robinson,2019-07-11 This well written accessible essay collection demonstrates a maturation in Jewish studies and medieval philosophy Choice Too often the study of philosophical texts is carried out in ways that do not pay significant attention to how the ideas contained within them are presented articulated and developed This was not always the case The contributors to this collected work consider Jewish philosophy in the medieval period when new genres and forms of written expression were flourishing in the wake of renewed interest in ancient philosophy Many medieval Jewish philosophers were highly accomplished poets for example and made conscious efforts to write in a poetic style This volume turns attention to the connections that medieval Jewish thinkers made between the literary the exegetical the philosophical and the mystical to shed light on the creativity and diversity of medieval thought As they broaden the scope of what counts as medieval Jewish philosophy the essays collected here consider questions about how an argument is formed how text is put into the service of philosophy and the social and intellectual environment in which philosophical texts were produced [Jewish Philosophy in the Middle Ages](#) T. M. Rudavsky,2018-06-28 T M Rudavsky presents a new account of the development of Jewish philosophy from the tenth century

to Spinoza in the seventeenth viewed as part of an ongoing dialogue with medieval Christian and Islamic thought Her aim is to provide a broad historical survey of major figures and schools within the medieval Jewish tradition focusing on the tensions between Judaism and rational thought This is reflected in particular philosophical controversies across a wide range of issues in metaphysics language cosmology and philosophical theology The book illuminates our understanding of medieval thought by offering a much richer view of the Jewish philosophical tradition informed by the considerable recent research that has been done in this area

Freedom and Law Randi Rashkover, 2011 By contrast Freedom and Law argues that only in an account of revelatory law can divine freedom and human freedom be thought of without contradiction The first part analyzes the logic of exceptionalism In the second part the author argues that one cannot invoke a doctrine of election without rigorous scrutiny of texts that portray an electing God and an elected people Once we scrutinize these texts the character of freedom and law within the divine human relationship shows itself to be different from that found in exceptionalist logics The third and final part examines the impact of the logic of the law on Jewish Christian apologetics Rather than require that one defend one's position to a nonbeliever this logic situates all epistemological justification within the order or freedom of God

Evil and Providence in Maimonides'S Guide of the Perplexed Modestus Anyaegbu, 2014-11-21 Maimonides's rationalist rejection and interpretation of anthropomorphism play a major part in his reading of the problem of evil and providence in the guide of the perplexed The debate has been on finding an explanation as to why the righteous suffer and the vicious prosper in a world under the providence of a divine Creator The anthropomorphic bent given to the legendary case of the biblical Job has given us the concept of God as a personal agent But confronted with the reality of his innocent suffering this image of God leaves much to be desired We shall argue that Maimonides's theory of providence as consequent upon the intellect and evil as consequent upon the absence of intellectual perfection are based on the concept of God as existence It is the absence of intellectual perfection that marks man qua animal and leaves him open to chance occurrences and evil A Promotional Write Up The present work places before us the strange position and it must be said a little bit shocking to us of the great Jewish thinker on the question of providence Only the intelligent that is to say the human beings who have effectively actualized their intellects and have come to an accomplished knowledge are considered and personally protected by the Eternal In other words the traditional piety that is usually asked of the believers by religious authorities is not sufficient This piety is still marked by illusion and does not procure for man the true knowledge of God which is worthy of him The individual ought to overcome pietistic representations in order to open himself to divine truth which is accessible only through knowledge This is what the Book of Job illustrates At the time when the actuality does not cease to present before us the question of the status of religion and the religious within modernity the attempt by Maimonides to articulate

these two styles carries an indisputable force of conviction as shown with abundant evidence in the work presented by Modestus Anyaegbu Jean Michel Counet president of the Institut Suprieur de Philosophie Universit Catholique de Louvain Belgium
