Editors Talk To Writers:

Editors Talk about Editing Susan L. Greenberg, 2015 The work of editing is by and large something that happens behind the scenes noticed only when it is done badly or not done at all There is not much information about what editors do The result is that editing is not often talked about in its own right not even by the people who do it This collection of interviews attempts to fill some of the gaps The author a former editor herself interviews practitioners at the top of their game from newspapers magazines broadcast news book publishing scholarly editing academic publishing and digital curation The interviewees think out loud about creativity and human judgment what they have in common and what makes them different how editing skills and culture can be shared why editing continues to fascinate and why any of this might matter The Complete Canadian Book Editor Leslie Vermeer, 2016-08-31 The essential resource for aspiring and professional editors Whether you are a student of the craft or a working editor you need *The Complete Canadian Book Editor* From building and managing author relationships through acquiring and developing manuscripts to every level of text editing and proofing for print and ebooks editors play integral roles in the operations of a book publishing house In *The Complete Canadian Book Editor* veteran editor and professor Leslie Vermeer sets out both the concepts and the processes that an effective editor must command Dr Vermeer guides aspiring editors in presenting themselves successfully to employers and clients and working editors will recognize the voice of a mentor in her advice about career advancement Editors at all levels along with authors and self publishers will find in *The Complete Canadian Book Editor* all of the step by step editorial tools they need to take projects from promising beginnings to their full potential With exercises throughout *The Complete Canadian Book Editor* reinforces key concepts and builds your skills as an expert editor Topics include Manuscript acquisition and book contracts Editorial stages from development to proofreading Design and production including digital workflow What every editor needs to know about marketing The state of book publishing in Canada today The future of publishing and why editors are more important than ever before **Editing Fiction** Alice Grundy, 2022-08-04 *Editing Fiction* considers the collaborative efforts of literary production as well as editorial practice in its own right using case studies by Australian novelists Jessica Anderson Thea Astley and Ruth Park An emphasis on collaboration is necessary because literary criticism often takes books as finite discrete works rather than the result of multiple contributors engaged to differing degrees The editorial process always involves a negotiation over edits for the sake of the work taking its potential reception or projected sales into account Through examination of the archives this Element shows that editing can be formative limiting commercially directed a literary collaboration or a mix of all these interventions For editors and scholars alike the Element examines practices of the recent past seeking to determine the responsibilities of editors and publishers to authors the text itself and to society and the interrelation of editorial work social conditions and market forces **A Guide to Creating Student-staffed Writing Centers, Grades 6-12** Richard Kent, 2006 Writing centers are places where writers work with each other in an effort to
