How To Make A Woman Chase You Salim Khan Anmol,2016-07-10

- 1 Make A Unique First Impression A good first impression can be the difference when trying to impress someone While impressing someone may come naturally to you to make her want to chase you you would like to make a good first impression and a unique one The chances are that many people have tried flirting or offering compliments to her in an attempt to entice her and captivate her attention so try something special that will make you stand out from the crowd and make her remember you Have a natural attitude and ensure eye contact together with a secure but not too strong hand shaking when introducing yourself
- 2 Mind Your Appearance When You Are Around Her Make sure you re well groomed and well dressed around her However do not go overboard and resort to peacocking Make it seem like it is the norm with you A woman loves a man who takes care of his body and appearance This will intrigue her and make her want to know you even more
- 3 Show Her Your Mysterious Side Maintain your allure for her to unravel and further stand out from other potential partners in her life We re not saying start acting shady or be evasive and vague during your conversations Instead make yourself some sort of an enigma someone who isn t easily figured out to pique her curiosity and keep her wanting to know more This will drive her to want to get to know you and hopefully pursue a romantic relationship with you
- 4 Exude Confidence Confidence is key especially when you are in a position where you want her to woo court or chase you When you meet her project confidence emit charm and be friendly If you act nervous or insecure she may not only find it unattractive but also assume that you are not someone who can be taken seriously
- 5 Hold Back A Little If things have progressed to the point of a relationship it might be a good idea to hold back a little once in a while to pique her interest Ask her out occasionally but don t go overboard with it Let her also try to mesmerize or seduce you This also holds true when gifting texting or making general contact with her

Invention of the Renaissance Woman Pamela Joseph Benson,2010-11-01 During the Renaissance the nature of womankind was a major topic of debate Numerous dialogues defenses paradoxes and tributes devoted to sustaining woman s excellence were published and in them history was rewritten to include the achievements of womankind Often these texts demonstrate that women are capable of acting with prudence temperance fortitude and justice and thus are capable of being independent of male political and moral authority Pamela Benson argues that the writers use literary means genre characterization narrator paradox plot to defeat the political challenge posed by female independence and to restrain women within a traditional role The Invention of the Renaissance Woman is a study of the literary strategies used both to create the notion of the independent woman and to restrain her Traditionally the profeminism of most of these texts has not been taken seriously because their playful or extreme styles have been read as a sign that they were nothing but a game Benson demonstrates that the flamboyant and frequently paradoxical style of these texts is the key to their successful profeminism She defines the literary and conceptual differences between the Italian and English traditions and argues that two of the greatest literary works of the Renaissance the Orlando furioso and The Faerie Queene are major texts in the tradition of defense and praise of women The Inventions of the Renaissance Women is the first substantial contextual discussion of the majority of the Italian texts and many of the English ones Benson uses the insights of feminist theory and of cultural studies without subordinating the Renaissance texts to a modern political agenda Among the authors discussed are Spenser Boccaccio Ariosto Castiglione Vespasiano da Bisticci Thomas More Thomas Elyot
