The Politics of Divination Eugene L. Mendonsa, 2000-09 The Politics of Divination first published in 1982 was a ground breaking work in the political economy of an African culture the Sisala of Northern Ghana The author shows how elders use divination as a political tool to control the behavior of women and young men Gerontocratic control through ritual means is an attempt by elders to dominate the economic activities of youthful men and the production and reproduction of women Yet the elders are not entirely successful in such attempts and their efforts at social control sometimes have less than altruistic motives as the many cases in the book show The author presents divination and ancestral sacrifice in a processual view Within the context of the divinatory process strategizing elders work and rework the rules of their society to deal with real life situations illness misfortune and death Like many other Africans the Sisala believe that such misfortunes are ultimately caused by ancestral anger which can be seen as a reflection of social tension and conflict among the living Divination points out deviants in the family who are poised as the cause of such misfortunes and this conflict is rectified through ancestral propitiation via blood sacrifice on family shrines

Roland Posner, Klaus Robering, Thomas Albert Sebeok, 1997. This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction. For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation. To attain these objectives the series will aim for a standard comparable to that of the leading handbooks in other disciplines and to this end will strive for comprehensiveness, theoretical explicitness, reliable documentation of data and findings and up to date methodology. The editors, both of the series and of the individual volumes, and the individual contributors are committed to this aim. The languages of publication are English, German and French. The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks; however, no inflexible pre-set limits will be imposed on the scope of each volume. The series is open-ended and can thus take account of further developments in the field. This conception coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care means that there is no set time-table for the publication of the whole series. Each volume will be a self-contained work complete in itself. The order in which the handbooks are published does not imply any rank-ordering but is determined by the way in which the series is organized. The editor of the whole series enlists a competent editor for each individual volume. Once the principal editor for a volume has been found, he or she then has a completely free hand in the choice of co-editors and contributors. The editors plan each volume independently of the others, being governed only by general formal principles. The series editor only intervenes where questions of delineation between individual volumes are concerned. It is felt that this *modus operandi* is best suited to achieving the objectives of the series, namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume.

African Religions & Philosophy John S. Mbiti, 1990. *African Religions and Philosophy* is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa. In this second edition Dr Mbiti has updated his material to include the involvement of women in religion and the potential unity to be found in what was once thought to be a mass of quite separate religions. Mbiti adds a new dimension to the understanding of the history, thinking and life throughout the African continent. Religion is approached from an African point of view but is as accessible to readers who belong to non

African societies as it is to those who have grown up in African nations Since its first publication this book has become acknowledged as the standard work in the field of study and it is essential reading for anyone concerned with African religion history philosophy anthropology or general African studies **Deliverance: Rescuing God's People** Pat Legako, Cyndi Gribble, 2007-07 What are good intentioned God loving Christians church leaders and pastors overlooking The message that many Christians are missing today is that self discipline alone is not enough to stop Satan from his onslaught against the Church In Deliverance Rescuing God's People authors Cyndi Gribble and Pat Legako provide a ground breaking scripture supported teaching on what the Bible says about Satan step by step instructions on how to cast out demons and how to establish and operate the ministry in your local church **The Origin and Early Development of the Zhou Changes** Edward Shaughnessy, 2022-08-15 The Zhou Changes better known in the West as I Ching is one of the masterpieces of world literature This book the climax of more than forty years of research in Chinese archaeology explores the text's origins in the oracle bone and milfoil divinations of Bronze Age China and how it transformed over the course of the Zhou dynasty into the first of the Chinese classics The book provides an in depth survey of the theory and practice of divination to demonstrate how the hexagram and line statements of the text were produced and how they were understood at the time Politics of Divination Joshua Ramey, 2016-09-26 Since the 2008 financial crisis the neoliberal ideas that arguably caused the damage have been triumphant in presenting themselves as the only possible solution for it How can we account for the persistence of neoliberal hegemony in spite of its obviously disastrous effects upon labor capital ecology and society The argument pursued in this book is that part of the persistence of neoliberalism has to do with the archaic and obscure political theology upon which much of its discourse trades This is a political theology of chance that both underwrites and obscures sacrificial devotion to market outcomes Joshua Ramey structures this political theology around hidden homologies between modern markets as non rational randomizing meta information processors and archaic divination tools which are used in public acts of tradition bound attempts to interpret the deliverances of chance Ramey argues that only by recognizing the persistently sacred character of chance within putatively secularized discourses of risk and randomness can the investments of neoliberal power be exposed at their sacred source and an alternative political theology be constructed *Language in Strange and Familiar Places* Alexandra Y. Aikhenvald, Anne Storch, Viveka Velupillai, 2025-06-02 Language and place are intimately connected depending on where we are what the context is and what our aims are we will adjust our language accordingly Yet linguistics defines itself by a framework that determines which kind of language is worth investigating Within that framework linguistics constructs both language and place in multiple ways language as a sequestered thing belongs to the field site or the classroom language as fluid practice is associated with the street language as reconstruction belongs to migration corridors What about the places that tend to fall between the cracks This volume explores language in strange and familiar places from Europe to Africa Amazonia Australia and the Pacific in order to shed light on them **Llewellyn's Complete**
