Of Islands:

The Regime of Islands in International Law Hiran Wasantha Jayewardene, 1990-05-18 **The Discovery of Islands** J. G. A. Pocock, 2005-09-08 The Discovery of Islands consists of a series of linked essays in British history written by one of the world's leading historians of political thought and published over the past three decades Its purpose is to present British history as that of several nations interacting with and sometimes seceding from an imperial state The commentary presents this history as that of an archipelago expanding across oceans to the Antipodes Both New Zealand history and the author's New Zealand heritage inform this vision presenting British history as oceanic and global complementing and occasionally criticising the presentation of that history as European Professor Pocock's interpretation of British history has been hugely influential in recent years making The Discovery of Islands a resource of immense value for historians of Britain and the world

Island Bats Theodore H. Fleming, Paul A. Racey, 2010-03-15 The second largest order of mammals Chiroptera comprises more than one thousand species of bats Because of their mobility bats are often the only native mammals on isolated oceanic islands where more than half of all bat species live These island bats represent an evolutionarily distinctive and ecologically significant part of the earth's biological diversity Island Bats is the first book to focus solely on the evolution ecology and conservation of bats living in the world's island ecosystems Among other topics the contributors to this volume examine how the earth's history has affected the evolution of island bats investigate how bat populations are affected by volcanic eruptions and hurricanes and explore the threat of extinction from human disturbance Geographically diverse the volume includes studies of the islands of the Caribbean the Western Indian Ocean Micronesia Indonesia the Philippines and New Zealand With its wealth of information from long term studies Island Bats provides timely and valuable information about how this fauna has evolved and how it can be conserved **Holding Company Act. Release** United States. Securities and Exchange Commission, 1945 **The Law of the Sea** Laura Pineschi, Tullio Treves, 2021-09-27 The United Nations Convention on the Law of the Sea of 10 December 1982 entered into force on 16 November 1994 Since this date a single binding instrument has regulated the rights and duties of States at sea and regarding the sea New concepts such as the exclusive economic zone archipelagic waters transit passage through straits and the International Seabed Area are now fully recognized The fifteen member States of the European Union are a significant sample for analyzing the practice of States or at least that of the Western industrialized States as regards the law of the sea They include major and small maritime powers coastal and land locked States States with coasts on the Atlantic Ocean and States with coasts on semi enclosed seas such as the Baltic and the Mediterranean States with and without involvement in deep seabed mining and States with different interests as regards

fisheries The fact that they all belong to the European Union is a very important common feature which amply justifies the choice made to study them together The book's aim is to give through essays prepared by well known specialists a detailed survey of the attitudes and practice concerning the law of the sea of the member States of the European Union and of the European Community as such The common positions of the member States and the results of their coordinated action also emerge from these essays The fact that the member States and the European Community are now actively engaged in the process of becoming parties to the Law of the Sea Convention is certainly a major contribution to the consolidation of the Convention as a universal instrument or at least as an instrument widely ratified by States of all continents and economic and political interests *Light List*, 1941 Parliamentary Debates New Zealand.
