Beresford, 2020-03-02 Sacred Skin offers the first systematic evaluation of the dissemination and development of the cult of St Bartholomew in Spain Exploring the paradoxes of hagiographic representation and their ambivalent effect on the observer the book focuses on literary and visual testimonies produced from the emergence of a distinctive vernacular voice through to the formalization of Bartholomew's saintly identity and his transformation into a key expression of Iberian consciousness Drawing on and extending advances in cultural criticism particularly theories of selfhood and the complex ontology of the human body its five chapters probe the evolution of hagiographic conventions demonstrating how flaying poses a unique challenge to our understanding of the nature and meaning of identity See inside the book **Roman Catholic Saints and Early Victorian Literature** Devon Fisher, 2016-04-08 Offering readings of nineteenth century travel narratives works by Tractarians the early writings of Charles Kingsley and the poetry of Alfred Tennyson Devon Fisher examines representations of Roman Catholic saints in Victorian literature to assess both the relationship between conservative thought and liberalism and the emergence of secular culture during the period The run up to Victoria s coronation witnessed a series of controversial liberal reforms While many early Victorians considered the repeal of the Test and Corporation Acts 1828 the granting of civil rights to Roman Catholics 1829 and the extension of the franchise 1832 significant advances for others these three acts signaled a shift in English culture by which authority in matters spiritual and political was increasingly ceded to individuals Victorians from a variety of religious perspectives appropriated the lives of Roman Catholic saints to create narratives of English identity that resisted the recent cultural shift towards private judgment Paradoxically conservative Victorians handling of the saints and the saints lives in their sheer variety represented an assertion of individual authority that ultimately led to a synthesis of liberalism and conservatism and was a key feature of an emergent secular state characterized not by disbelief but by a range of possible beliefs Masterworks from the Musée Des Beaux-arts, Lille Musee des Beaux Arts (Lille, France), 1992
