Coping With Capital Flows In East Asia:

Coping with Capital Flows in East Asia C. H. Kwan, Donna Vandenbrink, Siow Yue Chia, 1998 This timely book examines how the countries of East Asia coped with the vast pool of international capital that flowed into the region during the early 1990s East Asia appeared to be doing well But as this book was in preparation in 1997 a currency crisis sent capital fleeing and catapulted the East Asian economies into turmoil Country specific updates describe events since July 1997 how government authorities addressed the crisis and what lessons can be learned *East Asia's Financial Systems* Seiichi Masuyama, Donna Vandenbrink, Siow Yue Chia, 1999 Financial systems in the East Asian region are commanding worldwide attention Japan's financial sector with an ailing banking system in the aftermath of a bubble economy is undergoing a Big Bang deregulation liberalization and securitization At the same time the rehabilitation of Southeast Asian and Korean economies in the wake of the Asian financial crisis awaits restoration of their banking sectors The region's bank dominated and development finance oriented financial systems are coming into friction with global capital markets that lack adequate architecture In this volume researchers from ten East Asian think tanks analyse the financial systems in their respective economies They survey the financial sector deregulation and liberalization that took place in the midst of economic booms and they evaluate the role of the financial systems in the region's current economic misfortunes Together the pieces in this volume lay the groundwork for understanding how financial systems in East Asia have evolved as the economies have grown more complex and capital markets have globalized and how these systems must adapt to move beyond today's crisis to serve the region's economies in the future

Development Without Freedom Songok Han Thornton, 2016-12-05 Thanks to the inroads of IMFism and the war on terror America has lost much of the soft power it enjoyed in Asia during the early 1990s The winners by default are some of the world's most undemocratic development models such as Sino globalism Asian values took a hard blow from the Asian Crash but have returned in this even more virulent form The West is left sitting on the sidelines of a distinctly Asian contest of development with or without freedom Development Without Freedom explores this crucial trial by development which will define the politics of globalization for decades to come

International Capital Flows in Calm and Turbulent Times Stephany Griffith-Jones, Ricardo Gottschalk, Jacques Cailloux, 2009-12-14 Provides a much needed look at the role of international capital flows in recent financial crises

Coping with International Capital Flows Richard Portes, David Vines, 1997 Private capital flows to developing countries have increased dramatically This book identifies key concerns about the sustainability and volatility of these flows and makes a number of recommendations for national macroeconomics management including crisis prevention measures In addition there is an innovative proposal for the orderly workout of sovereign debt

The Rise of the Corporate Economy in Southeast Asia Rajeswary Ampalavanar Brown, 2007-01-24 Backed by detailed empirical data Raj Brown gives a comprehensive analysis of the rise of the corporate economy in Southeast Asia focusing in particular on corporate organization methods of finance business environment and

corporate governance **Private Capital Flows and Development** Gerald K. Helleiner,1998 This paper considers the new forms and roles of private capital flows to developing countries in the 1990s and appropriate national and international policy responses to the problems and possibilities they create Section 2 describes the growth of these flows in the 1990s their role in development and some of their effects in recipient countries Section 3 considers alternate capital account policies for developing countries In section 4 the possibility of improved international arrangements is considered Section 5 contains recommendations from the previous analysis **Restoring East Asia's Dynamism** Seiichi Masuyama,Donna Vandenbrink,Siow Yue Chia,2000 This volume addresses issues that are critical to defining a new paradigm for East Asian economic growth Specifically the authors examine the strategies adopted in coping with the crisis policy responses to rectify weaknesses that might have induced or aggravated the crisis and structural problems to be resolved in order to bring East Asian economies back firmly to a path of long term growth Global Financial Crises and Reforms B. N. Ghosh,2000-12-14 This is an innovative collection of papers written by a panel of highly respected academics and financial experts Whilst providing an insight into the phenomenology of the financial crises of the 1990s in Asia and Latin America the book also explores possibilities for their solution **Financial Liberalization and the Economic Crisis in Asia** Chung H. Lee,2003-08-29 What brought about a financial crisis in the miracle economies of Asia What went wrong with financial reform in Asia What can the developing countries of the world learn from the reform experiences in Asia Financial Liberalization and the Economic Crisis in Asia analyses how financial liberalization was undertaken in eight Asian countries and how it might be linked to the subsequent crises The country studies focus on China India Indonesia Japan Malaysia the Philippines South Korea and Thailand **From Asian to Global Financial Crisis** Andrew Sheng,2009-09-28 This is a unique insider account of the new world of unfettered finance The author an Asian regulator examines how old mindsets market fundamentalism loose monetary policy carry trade lax supervision greed cronyism and financial engineering caused both the Asian crisis of the late 1990s and the current global crisis of 2008 2009 This book shows how the Japanese zero interest rate policy to fight deflation helped create the carry trade that generated bubbles in Asia whose effects brought Asian economies down The study s main purpose is to demonstrate that global finance is so interlinked and interactive that our current tools and institutional structure to deal with critical episodes are completely outdated The book explains how current financial policies and regulation failed to deal with a global bubble and makes recommendations on what must change **The Asian Financial Crisis: New International Financial Architecture** Shalendra Sharma,2003-10-03 The Asian financial crisis of 1997 98 shook the foundations of the global economy What began as a localized currency crisis soon engulfed the entire Asian region What went wrong and how did the Asian economies long considered miracles respond How did the United States Japan and other G 7 countries react to the crisis What role did the IMF play Why did China remain conspicuously insulated from the turmoil raging in its midst What lessons can be learnt from the crisis by other emerging

economies This book provides answers to all the above questions and more It gives a comprehensive account of how the international economic order operates examines its strengths and weaknesses and what needs to be done to fix it The book will be vital to students of economics international political economy Asian and development studies Financial Markets and Policies in East Asia Gordon De Brouwer,2003-09-02 This book assesses the need to secure policy consistency the scope for inflation targeting the sustainability of exchange rate regimes and the scope for deeper financial integration in the Australasian area **Common Foundations of American and East Asian Modernisation** Ian Patrick Austin,2009
