Landow, 2014-07-11 The importance of typology in the study of early modern literature has long been accepted yet students of Victorian culture have paid little attention to it First published in 1980 this study demonstrates how biblical typology an apparently arcane interpretative mode had profound effects on the secular culture of the Victorian age its art literature and thought George Landow considers the way in which the average English believer learned to read their Bible in terms of the types and shadows of Christ the various ways in which Victorian poetry and hymns employed certain imagery and the use of typological symbolism in narrative poetry prose fiction dramatic monologue and non fiction In a concluding chapter he investigates the particularly complex and often ironic combinations of typological image and typological structure *Book of Victorian Churches* James Stevens Curl, 1995 In this book church architecture of the period is clearly placed in its complex social and denominational setting It is fully illustrated with a wide range of photographs both old and new some of which were especially commissioned for this book *Silver in England* Philippa Glanville, 2013-11-05 First Published in 2005 Silver is unique among the decorative arts in that its raw material is both inherently valuable and infinitely reusable Its ownership has been a social bench mark and its form has exercised the skills of sculptors designers chasers and engravers but ultimately it could be and normally was melted down and refashioned quite without sentiment Because of this constant recycling the survival of any individual object is quite random and unrelated to its uniqueness or otherwise in its period Hitherto plate historians have focused on individual objects almost to the exclusion of the context social or economic from which they came but now that context is seen as crucial in understanding historic plate So in the first section of this book each chapter considers contemporary attitudes and usage High Victorian Design Simon Jervis, Victoria and Albert Museum, National Gallery of Canada, 1974 *John Betjeman* William S. Peterson, 2006 Sir John Betjeman 1906 1984 Poet Laureate was probably the most widely read English poet of the twentieth century Because of his frequent appearances on radio and television and his fervent devotion to the preservation of England s architectural heritage his face and voice became familiar to millions Few other poets of any century have had such a powerful influence on their contemporaries This bibliography lists and describes all of his known writings including his own books ephemera contributions to periodicals and to books by others lectures and radio and television programmes Other categories such as editorships music settings and dramatic adaptations of his poems recordings and interviews are also included as well as a section devoted to writings about him Manuscripts and drafts of all his works are described in detail This enormous body of material is thoroughly indexed cross referenced and in
