Copyright Home Copying Technology Challenges The Law:

Copyright & Home Copying. Technology Challenges the Law Congress of the U.S., Washington, DC. Office of Technology Assessment, 1989 Home recording technologies allow today's consumer to make near perfect copies of recorded music television shows movies and other copyrighted works for private use at home With the advance of digital recording equipment consumers will be able to reproduce these copyrighted works with even greater accuracy This is an issue of great concern for copyright owners who claim that home copying is detrimental to their sales This report presents an examination of home recording technologies and their relationship to the legal status of home copying a comparison of the economic effects that home audiotaping may have on the recording industry with the effects that restricting home taping might have on consumers a discussion of legal action that Congress or the industry may initiate and the results of a national survey of home taping and copying behavior The report is divided into seven chapters 1 Summary Issues and Options 2 Technological Change and Home Copying 3 Legal Aspects of Copyright and Home Copying 4 An Overview of the U S Record Industry 5 Copyright Royalties for Music and Sound Recording 6 The OTA Office of Technology Assessment Survey and 7 Economic Perspectives on Home Copying Appendixes contain a description of the survey development and review a copy of the survey questionnaire OTA survey tables and a list of contractor reports related to the study MAB

The Economics of Copyright Wendy J. Gordon, Richard Watt, 2003-01-01 In contrast to patent law copyright law has been rather neglected by economists and the book edited by Gordon and Watt will go a distance toward righting the balance The topics are varied the economic analysis in them both rigorous and accessible Richard A Posner United States Court of Appeals for the Seventh Circuit and University of Chicago Law School US A valuable and intelligent compendium of analyses

of an issue that is likely to prove increasingly crucial for economic efficiency and the general welfare To those not conversant with the literature the book is full of surprising and stimulating insights and analytic avenues It takes us well beyond the obvious tradeoff between the benefits of stimulus of creativity and ease of dissemination that is the central issue but by no means the only important issue for rules designed to protect intellectual property William J Baumol New York University and Princeton University US Presenting a selection of innovative research contributions written by some of the best known academics in the field The Economics of Copyright covers issues that are at the forefront of the implementation and management of copyright

Imagine sending a magazine article to 10 friends making photocopies putting them in envelopes adding postage and mailing them Now consider how much easier it is to send that article to those 10 friends as an attachment to e mail Or to post the article on your own site on the World Wide Web The ease of modifying or copying digitized material and the proliferation of computer networking have raised fundamental questions about copyright and patent intellectual property protections rooted in the U S Constitution Hailed for quick and convenient access to a world of material the Internet also poses serious economic issues for those who create and market that material If people can so easily send music on the Internet for free for example who will pay for music This book presents the multiple facets of digitized intellectual property defining terms identifying key issues and exploring alternatives It follows the complex threads of law business incentives to creators the American tradition of access to information the international context and the nature of human behavior Technology is explored for its ability to transfer content and its potential to protect intellectual property rights The book proposes research and policy recommendations as well as principles for policymaking

Access to Knowledge for Consumers Jeremy Malcolm,2010

Information Program grantee Consumers International has released the results of a global survey designed to expose the obstacles consumers face in gaining access to education and cultural materials The survey was conducted in 13 languages covering 15 000 consumers across 24 countries The survey found that The biggest barriers that consumers face in accessing copyright works are those created by copyright law Even so consumers around the world will choose original copyright works over pirated copies provided that they are available at an affordable price While borrowing from libraries and other cultural institutions provided a viable alternative for some consumers priced out of original copyrighted works the survey found that particularly in developing countries access to libraries is limited and the works they carry are few Although the authors of the survey saw copyleft initiatives like Open

Educational Resources and Free and Open Source Software as great ways to help consumers vault access barriers they concluded that governments needed to act to address consumers needs for lower cost original materials to buy borrow and access online The survey forms the first two chapters of Consumers International s new report Access to Knowledge for Consumers Reports of Campaigns and Research 2008 2010 Publisher description Copyright's Highway Paul Goldstein,2003-06-19 A copyright expert traces the 300 year history of copyright explains the concepts and rationale behind the idea of intellectual property rights highlights noteworthy legal battles and examines some of the issues now being debated in the courts libraries publishing and recording industries and legislatures in the wake of changing technology
