Le Corbusier in America Mardges Bacon, 2001 In this study of Le Corbusier's American tour Mardges Bacon reconstructs his encounter with America in all its fascinating detail. It presents a critical history of the tour as well as a nuanced and intimate portrait of the architect. Le Corbusier & Pierre Jeanneret - Restoration of the Clarté Building, Geneva Office du patrimoine et des sites, 2016-10-24 The book describes the story of Clarté, Le Corbusier's first apartment building, continuing the narrative into the 21st century. The steel skeleton building, completed in Geneva in 1930-1932, is a prototype of the Moderne style and a precursor of the Unité d'Habitation. The building was neglected for many decades and not listed as a historic building until the 1990s. In 2007, the external envelope was repaired as the first step, followed by refurbishment of the interior in which building preservation requirements were taken into account in an exemplary manner. The building log book by the architects and structural engineers is illustrated with numerous new and historic drawings and photographs and has been supplemented with an account of the building's history. The renovated building is presented in large photographs. *Artbibliographies Modern*, 1996 Abstracts of journal articles, books, essays, exhibition catalogs, dissertations, and exhibition reviews. The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century. Photography is covered from its invention in 1839 to the present. A particular emphasis is placed upon adding new and lesser-known artists and on the coverage of foreign language literature. Approximately 13,000 new entries are added each year. Published with title LOMA from 1969-1971. Le Corbusier & Pierre Jeanneret - Restauration de l'Immeuble Clarté, Genève Office du patrimoine et des sites, 2016-10-24 The book tells the story of Clarté, Le Corbusier's first apartment building. The steel skeleton building, completed in Geneva in 1932, is a precursor of the Unité d'Habitation. In 2007, the external envelope was repaired, followed by a refurbishment of the interior in which preservation requirements are exemplified. The building log book is illustrated with new and historic drawings and photos and enriched with the building's history. **A New India?** Anthony P. D'Costa, 2010-12-01 This volume critically examines the notion of a new India by acknowledging that India is changing remarkably and by indicating that in the overzealous enthusiasm about the new India, there is collective amnesia about the other, older India. The book argues that the increasing consolidation of capitalist markets of commodity production and consumption has unleashed not only economic growth and social change but has also introduced new contradictions associated with market dynamics in the material and social as well as intellectual spheres. *Structure and Gestalt* Barry Smith, 1981-01-01 The majority of the papers in the present volume were presented at or prepared in conjunction with meetings of the Seminar for Austro-German Philosophy, a group of philosophers interested in the work of Brentano and Husserl and of the various thinkers who fell under their influence. One long-standing concern of the Seminar has been to trace the origins of present-day structuralism and related movements in the thought of nineteenth-century central Europe.
